The HUD definition for extremely low income (30%) takes into consideration, and is limited by, the federal poverty guidelines which have fixed dollar amount adjustments by member count and are the same throughout the 48 contiguous states. The federal poverty guidelines are constrained by the limits for very low income (50%). Consequently, the extremely low income limits may equal the very low income limits.

Within its Income Limits Documentation system, HUD provides a method to calculate the extremely low income limit for families with more than 8 members.
