

Firefighter Percy Del Aguila and Firefighter/Paramedic Jeff Vining after a Commercial Structure fire at Remington Apartments.

SEMINOLE COUNTY FIRE DEPARTMENT

READY TO RESPOND • WILLING TO CARE • TRAINED TO MAKE A DIFFERENCE

2013 ANNUAL REPORT

A REVIEW OF OUR STATISTICS AND MAJOR ACCOMPLISHMENTS

SEMINOLE COUNTY FIRE DEPARTMENT

READY TO RESPOND • WILLING TO CARE • TRAINED TO MAKE A DIFFERENCE

Message from the Chief...

Many times, those in our community aren't aware of the services provided by their fire department until they need them. In effort to help spread the word about how Seminole County Fire Department operates and to give our public the opportunity to know us better, we held our first Citizen's Fire Academy in 2013. They participated in learning about all sections of our department: The Fire Chief's Office, Administration, Planning and Operations. Thirty six citizens graduated from our first program. Here is what they had to say:

- *Most surprised by how much involved in so many facets and also the amount of training and caring. You are all AWESOME!!*
- *I thought the most beneficial part of the experience was really getting to understand how the department works and what exactly they do. Between the medical and the fire information I feel more confident and comfortable enough to know what to do in some cases and know that I can depend on the firefighters.*
- *I thought the most beneficial thing was learning that I never want to go outside of Seminole County. We are the best!*

We continue to see our demand for services increase while our revenue sources have decreased. Our current fire tax rate in Seminole County is 2.3299 mils. For every \$1,000 dollars of taxable value, \$2.34 is received by the fire department. In recognition of the economic constraints our public has been under, the fire millage rate has not been increased. This forces the delay of service expansions, such as new stations, until such time generated tax revenue can sustain the long term cost.

Ninety six cents a day is what a \$150,000 taxable valued home in Seminole County pays for immediate assistance, 24/7, in the event of a lightning strike, kitchen fire, auto accident, heart attack, stroke or any other emergency need. It's the best insurance policy one could ever have.

The men and women of Seminole County Fire Department are proud to serve our Seminole County community. I encourage everyone to stop by their local fire station and get to know those who are here for one common purpose, **to help**. They do it every day with unsurpassed competence and compassion.

Sincerely,

Leeanna Mims, Fire Chief

FINANCE

* FY 2012/2013 Adopted Budget\$46,620,877

Grants – not included in adopted budget

2010-11 USAR & HazMat - SHSGP Grant: \$70,576 Adopted
2011-12 USAR & HazMat - SHSGP Grant: \$28,787 Adopted

YEARLY COUNTY EMERGENCY RESPONSES

2013 RESPONSE TYPES

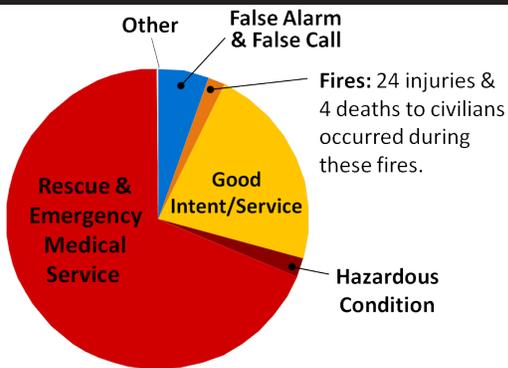

CHART CATEGORY DESCRIPTIONS:

- **Fires:** includes fires in/around buildings, mobile homes, cultivated crops & fires without a definable value (including brush fires, trash fires and fires out upon arrival).
- **Hazardous Condition:** ruptures, explosions, spills, leaks, chemical releases, radioactive condition, electrical wiring & equipment problems, biological hazards where there is no fire involved and accidents and potential accidents.
- **Rescue & EMS:** emergency responses to motor vehicle accidents, individual medical and mass causality events, medical assists, extrication and rescue of victims, searching for lost persons, water and electrical rescues.
- **Good Intent/Service:** situations where citizens needed help with water evacuation, animal rescue, smoke odors, steam or other gas mistaken for smoke, controlled or unauthorized burning, people in distress, medical calls where the individual left the scene, dispatches to the wrong location, and nonemergency hazmat release investigations.
- **False Alarm & False Call:** malicious false alarms, bomb scares, fire system or fire detector malfunctions, unintentional activations, and biohazard scares.
- **Other:** Incidents categorized as resulting from severe weather or natural disasters, and incidents not categorized above.

2013 RESPONSE STATISTICS BY UNIT

Please note: Multiple units may respond to the same call depending on the nature of the call.

Engine Unit	Responses	Special Units	Responses

SEMINOLE COUNTY FIRE DEPARTMENT

2013 PRIORITIES, BUDGET, ACCOMPLISHMENTS & AWARDS

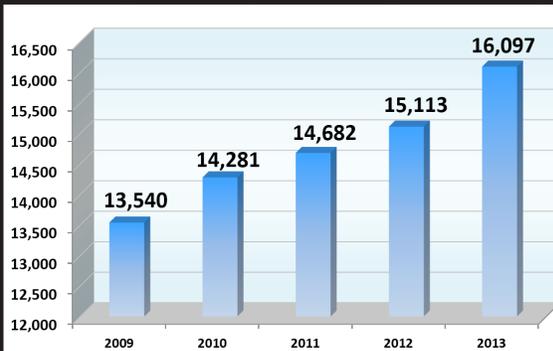

5 YEAR AVERAGE TOTAL RESPONSE

Total Response Time is measured in seconds, measuring the difference between the time units are dispatched to a call to when they arrive at the scene.

5 YEAR TOTAL NUMBER OF TRANSPORTS

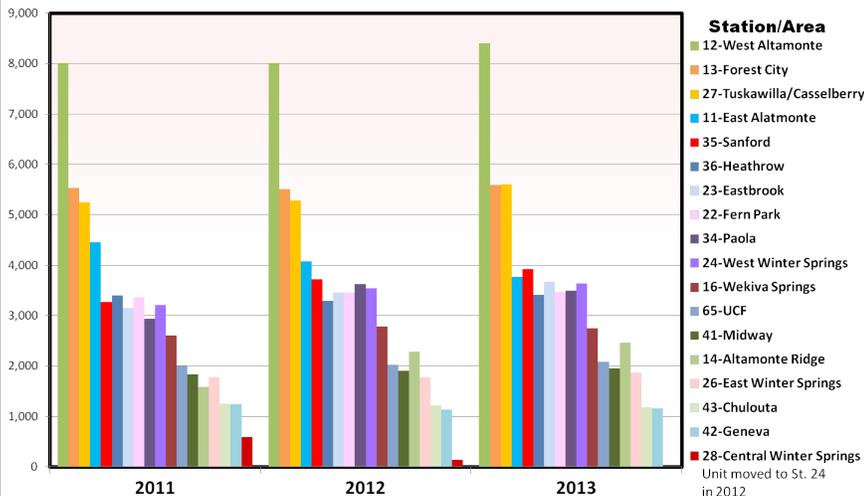

The number of transports has increased 16% over the past five fiscal years.

84% of EMS patient contacts between 2009 and 2013 resulted in a transport.

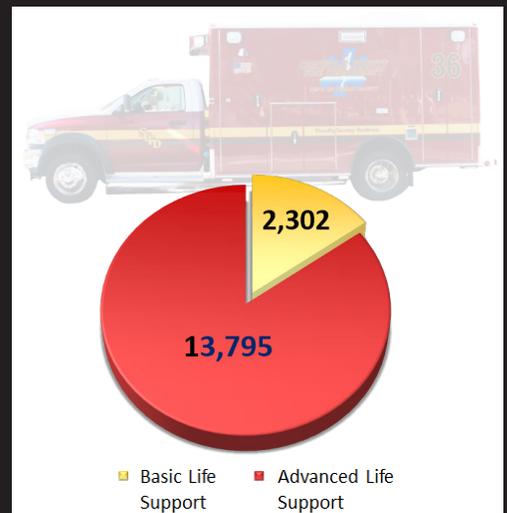

STATION INCIDENT RESPONSE

Units from multiple stations can be on the same incident. The incident is counted for each station that responded.
