

scgissde.SDEADMIN.Apartments

File Geodatabase Feature Class

Tags

apartments, apartment complex, base mapping, multi-family, Seminole County

Summary

The Apartments feature class was created for internal planning and mapping purposes.

Description

This feature class documents the locations of apartment complexes, or multi-family housing developments, in Seminole County. Attribute data may be used to find the name of the complex, physical address, number of units, and any known aliases. Tabular information was taken from lists provided by the Seminole County Property Appraiser's Office. This feature class is updated annually prior to the onset of hurricane season (June 1) and was most recently updated in April 2015.
