The Institute of Food and Agricultural Sciences (IFAS) is an Equal Opportunity Institution authorized to provide research, educational information, and other services only to individuals and institutions that function without discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, marital status, national origin, political opinions, or affiliations. USDA, UF/IFAS Extension, FAMU and Boards of County Commissioners Cooperating. For people with disabilities that require special services, please inform the Extension Agent 10 days in advance.

Did you know that Seminole County has a NEW Fertilizer Ordinance?

WWW.SEMINOLECOUNTYFL.GOV/FERTILIZER

Help protect and improve our watershed by following these simple rules:

Fertilize Wise: Do not apply any fertilizer containing nitrogen (N) between June 1st and September 30th. If needed, use fertilizers with potassium (K), iron (Fe), Magnesium (Mg), Manganese (Mn) and other micronutrients, often called “summer blends”

Know Slow: During the non-restricted season (Oct – May), use only fertilizers that contain 50% or more slow release nitrogen (SRN).

How Much: Visit our online calculator to see how much product you should apply to YOUR yard:

www.seminolecountyfl.gov/fertcalculator

Phosphorus-Free: Do not use fertilizers that contain any phosphorus (P) on your lawn. Look for fertilizers that have “0” in the middle (15-0-15).

Buffer Zone: Do not apply any fertilizer within 15 feet of any waterbody or wetland.

**Attend a FREE Fertilizer Workshop.
Dates & times are listed on the other side of this flyer.**
