

MUNICIPAL SERVICES BENEFIT UNIT PROGRAM

STREET LIGHTING

FY11/12

MSBU PROGRAM Mission:

To deliver excellent public service while assisting residents in unincorporated Seminole County with essential municipal services and improvements funded via non-ad valorem assessment.

INTRODUCTION

The following information is offered to help applicants understand the process of establishing an MSBU and the resulting roles and responsibilities once an MSBU is established.

For additional information regarding the community improvements available through the MSBU Program, active MSBUs, and various services available on-line, please visit the MSBU Program website:

<http://www.seminolecountyfl.gov/fs/msbu/index.aspx>

General Information

MSBU Program and Non-Ad Valorem Assessments

The **MSBU Program of Seminole County** provides management of the assessment districts that are established for funding various local improvements and services within the unincorporated boundaries of Seminole County. An assessment district as established in Seminole County is commonly referred to as an MSBU (Municipal Service Benefit Unit). Through the establishment of an MSBU, property owners can acquire essential improvements to neighborhood common areas, infrastructure and facilities which serve essential public purposes. Community improvements funded by assessment in Seminole County include the management of residential household solid waste with provisions for collection & disposal services, residential street lighting, lake management (such as aquatic weed control and lake restoration), and constructed improvements such as road paving, stormwater control systems (drainage systems and retention pond renovations), sidewalk repair, subdivision wall replacement, and water/sewer utility transmission line extension as required to connect to the County's central utility system.

For any given MSBU, the cost to provide the improvement/service is allocated and assessed to the benefiting properties on an equitable cost sharing basis referred to as "non-ad valorem" assessment. The per property assessment is based on the cost to provide and/or maintain the improvement/service, the selected benefit unit base, the number of benefiting properties, and the benefit unit(s) allocated to each participating property.

The MSBU Program offers two formats for assessments – fixed term and variable rate. The fixed term format is related to MSBUs that require extended financing over a period of years to enhance the affordability to property owners for project repayment. The variable rate format is used for MSBUs that do not have a set closure date and for which assessments are calculated annually based on cost to provide continuation of the service or improvements in the forthcoming year(s). For example, the assessments for lake restoration and road paving are typically fixed term, while assessment for street lighting or aquatic weed control improvements are variable rate.

The MSBU Program functions according to regulations set forth in the Florida Statutes and the directives in the Seminole County Administrative Code. Through the MSBU Program, non-ad valorem assessments are levied by the Seminole County Board of County Commissioners (BCC). The non-ad valorem assessments are collected via the annual property tax bill as indicated in Florida Statutes [Chapter 197](#). Consistent with the referenced regulations, [Ordinance and/or Resolution](#) documents are developed to establish and govern each MSBU. In compliance with the County Administrative Code, the operating policies and practices of the MSBU Program are further defined within the Department of Fiscal Services.

Scope of Street Lighting Improvements

Utilizing the MSBU funding format is a common practice in Seminole County for street lighting improvement projects designed to benefit Seminole County residents. Street lighting projects serve public purpose by illuminating roadways and sidewalks; thereby, improving night-time safety. The creation of an MSBU, as well as on-going efforts to provide improvements requires community involvement and support. Routine operations and management of street lighting MSBUs are governed locally through the Seminole County Consolidated Street Lighting District Ordinance. This Ordinance can be found on-line at: http://www.seminolecountyfl.gov/fs/pdf/csl_08.pdf and is hereinafter referred to as the "Ordinance". The improvement efforts are funded by assessments levied against benefiting properties. By definition of benefit, all properties located along the roadways and properties that would use the lighted roadways for ingress/egress are included in street lighting improvement MSBUs and are, therefore, assessed a cost share for the improvements provided.

The street lighting equipment (fixtures/poles) provided via a Seminole County street lighting MSBU is owned and operated by franchised power companies. Lighting equipment is installed and maintained by power companies on public property or with rights to a utility easement for private property. Seminole County serves as an intermediary between power companies and benefiting properties, thereby, collecting rental fees and the associated operating costs from benefiting property owners and making payment to power companies.

Evaluating the needs and recommendations for street lighting improvements includes the determination of locations of proposed lighting equipment. Equipment analysis is completed by power company engineers through the design of lighting plans, in accordance with Illuminating Engineering Standards (IES), to produce sufficient illumination on streets of neighborhoods to assist with nighttime safety.

Application may be made by property owners, homeowner associations, management companies, developers or other interested parties. Applications are accepted from January 1 through June 30. Applications received during this timeframe are eligible for equipment installation and assessment in October of the following calendar year. Applications submitted August 1 through December 31 may be held for processing after January 1.

Basic Steps to Establish an MSBU

(Each of these steps is explained further on the following pages.)

STEP	RESPONSIBILITY
I.	Request Application Packet Property Owners
II.	Complete & Submit Application Community Liaisons
III.	Review & Conduct Project Analysis MSBU Program Power Company
IV.	Poll Community – Petition Distribution MSBU Program
V.	Evaluate Petition Results and Determine Course of Action MSBU Program Community Liaisons
VI.	Public Hearing – Adoption of Ordinance Board of County Commissioners (BCC) MSBU Program Community Liaisons Property Owners
VII.	Implement Service/Improvement <ul style="list-style-type: none"> • Agreements & Lighting Plan Power Company • Review & Execute Agreements MSBU Program County Manager/BCC
IX.	Assessment & Operation Management MSBU Program

Detailed Procedures

Establishing a Street Lighting MSBU

Establishing a Street Lighting MSBU

Detailed Procedures

STEP I. Request Application Packet

Application packets detailing the MSBU creation process are available from the MSBU Program. The packets are designed to provide an overview of the process based on the type of project proposed. The packet includes detailed information regarding the MSBU Program, the steps for establishing an MSBU, the related application forms, and answers for frequently asked questions.

Applications to create an MSBU will be considered given the following criteria is met:

- The property to be benefited by the improvement is located within the unincorporated area of Seminole County;
- The property upon which the improvement is to be made is publically owned, leased or granted easement;
- The proposed boundary (properties to be assessed) contains a minimum of two distinct taxable (or platted) properties;
- The proposed project is a project type authorized by the BCC
- The proposed project meets the MSBU Program guidelines for public property and/or serves acceptable public purpose

Requests for application should be directed to the MSBU Program:

On-Line: <http://www.seminolecountyfl.gov/fs/msbu/msbuamaterials.aspx>

Phone: (407) 665-7178

Office: 1101 East 1st Street, Sanford, FL 32771-1468

When submitting an application request, be certain to identify the geographic and descriptive location of the desired improvement (i.e., community, subdivision, or street) and the type of improvement proposed (i.e., aquatic weed control, street lighting, etc).

STEP II. Complete & Submit Application

Application deadline and processing restrictions are related to statutory provisions, the County Administrative Code and MSBU Program guidelines. Each MSBU project type has a distinct application form and application fee. The Application form is located at the end of the packet. The Application Fee Schedule is provided on the page noted in the table of contents and just prior to the Application form. Assistance is available from the MSBU Program should the applicant have questions or concerns regarding any aspect of the application form or process. Application may be made by property owners, homeowner associations, management companies, developers or other interested parties. Applications for street lighting projects are accepted from January 1 through June 30. They are eligible for equipment installation and assessment in October of the following calendar year. Applications submitted August 1 through December 31 may be held for processing after January 1.

The **Street Lighting Application** form is designed to communicate the following:

Project type: Is this for a new installation, an upgrade to existing equipment or a transfer of existing equipment?

Attachments: Confirmation of attached documents. If you have additional documentation, describe it in "Other". Attaching a complete documentation package with the application will result in a more rapid application review.

Subdivision and Property ID: Enter the required identification information. If unsure of any details, please ask an MSBU Program representative for assistance.

Liaison Information: Enter the requested information for the person(s) that will be representing the community. Identifying and including the information for a secondary Liaison is advised and encouraged.

Applicant Status: Is the applicant a builder or developer, individual home owner, or HOA/Property Management Company?

Documentation (plattng): Insert identifying plat information or provide indicated alternate information if property is not platted. Copies of plats and section maps are available at the Planning Department (407-665-7775).

Current condition: When were the existing lights installed or when are lights scheduled to be installed? If there are no lights installed nor any scheduled installation date, please indicate this is the initial application. Being very specific, what concerns are you hoping to resolve?

Participation: Provide estimate of approximate percentage of benefiting property owners who are interested in attending relevant meetings.

Funding Assistance: State detailed reasons/conditions for requesting and/or qualifying for Seminole County funding assistance that may be available.

Equipment Choice: Enter the type of pole and light desired if known. A list of equipment types is provided with the application packet to the applicant dependent upon applicant's lighting preference and objective. For example, if applicant desires decorative lights, several styles are available; however, for non-decorative lighting, only one option exists.

Power Company: Enter the power company servicing this area.

Comments: Provide comments pertinent to the street lighting request.

Signature Block: Enter information and sign the application.

Applicant Signature: Enter information and sign the application.

Describing the desired scope of services in detail and selecting desired equipment is critical to the development of initial review of the proposed MSBU, the engineering plan, and subsequent and cost estimates. Community participation in the development of the scope of services is highly encouraged. Copies of recorded plats and section maps may be obtained from the Planning Department, located

on the first floor of the County Services Building. For additional information please call the Planning Department at (407) 665-7441.

At this stage of the application process a cost estimate is available as to rental and operating cost for specific light fixtures and poles. However, it is not possible to provide the applicant with an estimate of total costs inclusive of installation cost and extended operating cost based on number of lights required. Cost estimates are only available after the power company has completed an engineering analysis (see Step III).

All questions or concerns regarding cost sharing decisions, and participating properties should be discussed with the MSBU Program prior to submitting the application. The MSBU boundaries (geographic area to be assessed; represented by listing of properties must be continuous. Enclaves are not allowed if their purpose is to remove a property because the property owner is not in favor of establishment of the MSBU. Boundaries for street lighting MSBUs generally consist of an entire subdivision, as the lights are intended to be of benefit to the community as a whole. Unless otherwise exempted by Ordinance, all properties that are located within the confines of the boundaries will be included in the list of participating properties. Association owned common land and properties with a taxable value of less than \$100 are examples of exempt properties to be excluded in the assessment calculation.

New MSBUs that are comprised of non-commercial owners have the option of paying the installation/construction costs for the street lighting at the time of MSBU establishment, on the first year's assessment (after the establishment of the MSBU), or through financing over a several year payback term. Commercial owners, such as developers, are required to coordinate installation directly with the power company or submit the payment of installation costs for the new developments prior to the project implementation. Installation payment will be due after an MSBU is created and prior to scheduling equipment installation.

The creation of an MSBU relies heavily on the involvement of the community liaisons. The liaisons need to be readily available for follow-up contact from County staff and the benefiting community, attending scheduled site visitations, encouraging petition response, and other project support activities. The community representatives that serve as primary and/or secondary liaisons are very important to establishing an MSBU and to ensuring project completion occurs per community expectations.

When complete, the application should be submitted to the MSBU Program. Mailing and/or delivery location is noted on the application form. **The non-refundable application fee (per the Application Fee Schedule) must be made payable to "Seminole County BCC" and submitted with the application.** Although the fee is non-refundable, there are provisions for applying application fee credit to the assessment assigned to the applicant or parties contributing to the application fee. Provisions are as follows:

Seminole County Administrative Code Section 20.37/C. CREDIT TOWARD ASSESSMENT: The application fee shall be credited towards the assessment assigned to the applicant's benefiting property, or may be refunded if the applicant does not own property contained in the MSBU boundary, or the balance refunded if the application fee exceeds the final assessment allocation to referenced property if the requested MSBU is established by the Board, the requested improvement is completed, and assessments are collected from the benefiting property owners.

STEP III. Review Application & Conduct Project Analysis

After receipt, the MSBU Program will confirm that the application is complete and sufficient to evaluate feasibility of the requested improvement. The MSBU Program will validate the properties that serve to benefit from the improvement and will formulate the boundary description for the geographic area associated with the proposed MSBU.

Many project types authorized for MSBU consideration require in-depth analysis and cost estimating acquired from contracted vendors. When such services are required, the applicant (or other contributors) must prepay preliminary analysis costs. If analysis services are provided, property owners who contributed to an analysis fee will be given credit against their assessment (share of final total costs). Contributions received and applied to preliminary analysis expenses will not be credited or refunded if the proposed MSBU is not approved or if the proposed project is not completed.

At this point, the Applicant/Liaison should identify/confirm the type of street lighting equipment from the list that was forwarded with the application packet (see Step II). The MSBU Program will provide these choices to the appropriate power company. A power company engineer will then determine the lighting configuration, installation requirements, and applicable costs for installation, equipment rental and electrical utility. The power company's cost information will be used by MSBU to calculate the estimated annual assessment amount which will be used in STEP IV.

The MSBU Program staff or the Project Manager is available to conduct an informative meeting with the property owners to discuss the MSBU process if requested. Notification of any **County-sponsored** meetings will be coordinated through the MSBU Program. A public meeting providing an overview of the MSBU Program activities and the proposed project is highly recommended. The MSBU Program requests the opportunity to review (prior to its circulation) any correspondence relating to the proposed establishment of the MSBU.

STEP IV. Poll Community - Petition Distribution

[\(http://www.seminolecountyfl.gov/ca/admin_code/\)](http://www.seminolecountyfl.gov/ca/admin_code/)

As detailed in Section 22.10 of the Seminole County Administrative Code, a formal confirmation of community support for an MSBU of at least 65% (55% for street lighting) is required. A petition for improvement document, prepared by the MSBU Program, is used to determine the level of community support for establishing a lake management MSBU. The petition document defines the details of the proposed MSBU, such as the scope of services (proposed improvements, treatments and services), estimated annual cost of operation, cost allocation methodology, type and amount of assessment, properties to be included in the assessment, and other details specific to the MSBU. The petition document provides for property owner response relative to creating the proposed MSBU by indicating either "FOR" or "AGAINST" creation of the MSBU.

Individual petition documents are mailed to property owners by the MSBU Program, and may be distributed by the MSBU Program to the applicant or community liaisons for follow-up with property owners. Owners are requested to respond by 1) designating a "For" or "Against" response on the petition document; (2) providing owner signature; and (3) returning the completed form to the MSBU Program office prior to the stated deadline. All current owners or the designated trustee of a property must sign the petition for the response to count towards the 55% requirement. Once submitted, a petition document may not be withdrawn. Property owner response for those properties that do not return the petition document will be counted as "Against" when calculating the level of community support.

Petition documents are typically in circulation for a 30 day timeframe. The deadline for submitted response is noted on the document. The filing deadline may be extended if approved by the MSBU Program and posted to the MSBU Program website prior to expiration of the initial deadline. Up to two extensions, each limited to two additional weeks, are typically granted. Extensions are primarily granted to provide clarity regarding the level of community support. Petition response will be tracked and available for summary or review throughout the petitioning period. If a **Developer** owns 100% of the property to be included in a street lighting MSBU, the petition process is not necessary. In such instances, the application requesting the establishment of the street lighting MSBU will serve as confirmation of owner support.

Please note: Projects requiring the conveyance of special easements, leaseholds or deed transfer to meet public ownership criteria have additional considerations. In such situations, voluntary agreement to provide the necessary conveyance is required from all (100%) of the owners from whom such agreements are required. This activity is generally a separate consideration determined independent from the petition process (which requires only a majority support). If agreement/conveyance is not obtained from 100% of such owners, the project scope may require modification to accommodate limited status, and/or project rejection. Continuance of the proposed project is dependent on specific projects and their related requirements. Owner signature on related agreement documents must be obtained prior to presenting an MSBU creation request to the BCC.

STEP V. Evaluate Petition Results & Determine Course of Action

Petition documents received by the MSBU Program will be reviewed for acceptability. All current owners of a property or the designated trustee must sign the petition for the ownership and property to count towards the 55% requirements. Owner response must be clearly identified and consistent with the intent of the petition document. Handwritten or other forms of commentary added to the petition document that alter the intent of the information conveyed in the petition document will be rejected and returned to owner of record. Incomplete petition documents will be rejected and returned. An explanatory cover memo will be provided with the returned petition document so that owner has opportunity to complete and resubmit a petition response. Submittal deadlines apply to rejected petition documents.

The results of the petition process will be posted to the MSBU Program website. If the petition provided sufficient support to proceed with the MSBU creation process, the MSBU Program will mail notification of the results along with information regarding the continued activities. If support is deemed insufficient to proceed, mailed notification is at the discretion of the MSBU Program and is generally dependent on the cost to provide such notification.

Provided the community support is sufficient to continue, the MSBU Program will request BCC authorization to conduct a public hearing for adopting an ordinance establishing the proposed MSBU. **Please note** that once consolidated petition results are accepted and a public hearing is authorized, the petition is no longer relevant to final determination of the BCC to proceed (or not) with a project/MSBU. The final determination of scope and feasibility of the project and creation of the MSBU is made by the Seminole County BCC.

If petition support is less than 55%, the effort will be noted as insufficient support. Re-petitioning is permitted once per calendar year and no more frequently than once every six months following submittal of a new application and non-refundable processing fee.

STEP VI. Public Hearing - Adoption of Ordinance

When the amended Consolidated Street Lighting Ordinance and all documents are in order, including all required easements, agreements, et al., and a public hearing date is scheduled, legal Notice(s) will be published in a local newspaper. Notification of the public hearing will be mailed to the owner of record for all properties included in the boundary of the proposed MSBU. A copy of the proposed Ordinance will be available for review at the office of the Commission Record office located in the County Services Building at 1101 East 1st Street, Sanford, FL.

The Ordinance, and if applicable, a secondary "MSBU Equipment Installation Ordinance" for construction/installation will be proposed for adoption during the public hearing. The Ordinance encompasses previously the established MSBUs with the newly proposed MSBUs added. Within the Ordinance, the governing of each MSBU is established and the assessment authorization is provided. A secondary MSBU Ordinance is formalized and established only when there are installation expenses which will be financed by Seminole County with repayment over a period of years.

For ongoing MSBUs, such as street lighting, that require annual rate adjustment, an estimated assessment will be documented in the ordinance and will be granted fluctuation according to ordinance restrictions and/or operating expenditures necessitated in establishing and/or maintaining the street lighting.

The Ordinance will be proposed for adoption during the public hearing. Once the petition results are presented to the BCC at the public hearing, the consolidated petition is no longer relevant to the final determination by the BCC to proceed (or not proceed) with the requested MSBU. The final determination of the scope and feasibility of a new project will be determined by the BCC. During the public hearing, the BCC may consider comments, objections, and information relevant to the establishment of the MSBU. The County Commissioners will adopt or deny the Ordinance. If the Ordinance is adopted, it will be recorded in Seminole County Land Records and with the Florida Department of Revenue.

STEP VII. Implement Service/Improvement

Following adoption of the Ordinance, the power company will be advised to prepare agreements specifying the number and type of poles/lights to be installed, those that are already installed, and any poles to be removed (if applicable) in each MSBU. The power company will also submit the final lighting design (engineering) plan for MSBU review. This information will be returned to the MSBU Program by the power company for review and confirmation. The MSBU Program and County Attorney's Office will review the agreements for accuracy. Following this review, the MSBU Program will request BCC or County Manager approval for agreement execution. Upon execution of the agreements, the power company will be requested to begin installation. Installation is targeted to be completed on or before October 1 or as soon as possible thereafter. The MSBU Program will be in close contact with community liaison(s) and the power company as project work is completed.

STEP VIII. Assessment & Operation Management

Assessments are allocated equitably to all benefiting properties as defined in the governing ordinance. Beginning with the first available tax year, annual assessments will be levied by the BCC, placed on the property tax bill and collected by the Tax Collector of Seminole County in the same

manner as all other county property taxes and assessments. *Variable Rate Assessment* for on-going improvements/services subject to annual rate variation will be included on the property tax bill in the first available tax year following creation of the MSBU. For *Fixed Term Assessments* associated with projects that involve fixed term financing, the first installment billing will be included on the first available tax bill following project completion, unless full payment was received by the payment deadline following the final public hearing. Property taxes are due annually by March 31. Early payment discounts associated with property taxes are applicable to MSBU assessments.

Relative to fire flow, water line extension, and/or sewer line projects, all benefiting properties are included in the boundary of the proposed MSBU. All benefiting properties (whether "For" or "Against" during the Petition for Improvement process) are required to connect within 120 days of being granted connection access. Cost sharing assessments will be equitably allocated to those properties.

An open (unpaid) assessment is considered as a lien against a property. The lien for variable rate MSBU assessments, such as aquatic weed control, is satisfied annually when the property tax bill is paid. A lien associated with a fixed term assessment is satisfied when the outstanding assessment is paid in full. A satisfaction of lien document is issued when a fixed term assessment is paid in full; a lien satisfaction document is not required or issued when variable rate assessment is paid. Assessments for fixed term projects may be paid in full at any time following final rate resolution. For additional details regarding the satisfaction of lien process, contact the MSBU Program at (407) 665-7178 or on-line at the following address: <http://www.seminolecountyfl.gov/fs/msbu/msbuamaterials.aspx>.

Separate financial management accounts are maintained for each MSBU. All assessments collected for each MSBU will be exclusively allocated for expenditures incurred for that specific MSBU. For ongoing MSBUs, the assessment rate will vary from year to year. The funding will also include provisions for administration of the MSBU and ensuring reserve funds for future treatments and operating contingency. Operating budgets are prepared annually and assessment rates are established by BCC resolution. Assessment amounts will comply with the operating guidelines of the MSBU Program and any specific parameters noted in the governing ordinance. The assessment for a forthcoming tax bill is posted on the MSBU Program website by August 1.

Additional Information (after MSBU is established)

Maintenance and Repairs

The street lighting equipment provided through the MSBU Program is owned and maintained by local power companies, with Seminole County renting the lights/poles. For minor repairs, residents are encouraged to call the power company to open a repair order. Before calling, it is helpful to have the address of the pole location and pole number (located on a metal plate on the pole at eye level) to provide to the power company's customer service representative.

Florida Power and Light Corporation (www.fpl.com) 800-226-3545

Progress Energy (www.progress-energy.com) 407-629-1010

For major repairs such as a badly damaged pole or paint, coordinating assistance is available from the MSBU Program. Insert the following on-line address for the MSBU Program website: <http://www.seminolecountyfl.gov/fs/msbu/msbustservp.aspx> or call MSBU at 407-665-7178.

Equipment Modifications

Modifications to equipment associated with an existing MSBU are defined as either “essential” or “elective”.

Essential changes are defined as modifications which are necessary to preserve public safety. These essential modifications may be made without formal application when the modification is deemed safety related, supported by lighting engineers, and within the budgetary parameters of the MSBU per the Administrative Code guidelines (Section 22.10 [PDF of guidelines]). However, if the essential modification results in an assessment increase of 20% or greater, then the application and petition process must be undertaken with a resulting 55% or higher favorable response.

Elective changes occur if residents request modifications for non-essential purposes (e.g., providing an aesthetic appearance for a streetscape). Formal application is required for elective modifications and requires 55% or higher favorable response

Dissolution of MSBU

The authorized MSBU for street lighting improvements will continue indefinitely or until such time as an application is received to dissolve the MSBU. The process to dissolve an MSBU which was established by ordinance at a public hearing is similar to the creation process and requires a 55% community support, followed by public hearing.

Application with designated fee is required.

Frequently Asked Questions

Where do I obtain detailed information? To obtain detailed information, please contact the Seminole County MSBU Program at 1101 East 1st Street, Third Floor, Room 3301, Sanford, FL 32771 or at <http://www.seminolecountyfl.gov/fs/msbu/msbuprog.asp> or call 407-665-7178.

What do the letters MSBU represent? Municipal Services Benefit Unit. An MSBU is an assessment district authorized by Florida Statute 125.01 to provide funding for improvements and/or services benefiting a specific group of properties. Please see: http://www.flsenate.gov/Statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=0100-0199/0125/Sections/0125.0101.html.

What type of property is eligible to participate in an MSBU? Eligibility to participate in an MSBU varies per project type. Unless otherwise agreed, property must be located within the taxing district of unincorporated Seminole County. Most Seminole County MSBUs are associated with residential properties; however, certain commercial areas may also qualify. Specific to aquatic weed control and lake restoration, lakefront properties are the primary properties included in the assessable boundaries of an MSBU; secondary properties may include properties with use rights to common land located on the benefited lakefront. Inclusion of property is not dependent on use of land, occupancy or site development.

My subdivision is located within city limits. Can Seminole County still help me and my neighbors benefit from an MSBU with Seminole County, such as street lighting, water/sewer, etc?. Florida Statutes specify that any neighborhood improvement made through the MSBU Program must be for properties located outside of municipality (city) boundaries only. Please contact your city government office to request neighborhood improvements to your subdivision.

What is the procedure to start the MSBU process? Steps are detailed in an "MSBU Application Packet" available from the MSBU Program at (407) 665-7178. Basic steps include: (1) Application, (2) Project analysis & preparation of cost estimate, (3) Petitioning to determine community support level, (4) Establishing the governing Ordinance, (5) Project implementation, and (6) Assessment.

What is the role of the community liaisons and how are they selected? The liaisons need to be readily available for follow-up contact from County staff and the benefiting community, attending scheduled site visitations, encouraging petition response, and other project support activities. Primary and/or secondary liaisons are very important to establishing an MSBU and to ensuring project completion occurs per community expectations. Liaisons are identified by the applicant at the time of application.

Is someone available to attend an HOA meeting to discuss the process or the projects? Yes. The MSBU Program offers a variety of public presentations through the Seminole County Government Speaker Bureau. To request attendance at a meeting, simply go to the [Speaker Bureau](#) webpage and select the type of presentation and date that is of interest to you. You may also [email](#) or call the MSBU Program at (407) 665-7178 for additional details.

How does the MSBU Program determine the level of community support for establishing an MSBU?

After an application is received, reviewed and accepted by the MSBU Program, the MSBU Program will create a petition for improvement document. The petition contains details of the proposed project and MSBU. Provisions on the petition allow owners to indicate whether they are in support of or against creating the proposed MSBU. An owner identifies their preference, signs and returns the document to the MSBU Program or to designated community liaison(s). Level of support is determined by the MSBU Program according to responses indicated on returned petition documents. Petition documents not returned to the MSBU Program are tallied as an against response.

How does the petition get distributed? The MSBU Program will mail the petition document to the owner of record for each benefiting property identified for inclusion in the MSBU boundaries. The petition document is to be reviewed, signed and returned by the property owner(s).

Can I change my response after it has been submitted? A petition document should be submitted after the owner has evaluated the project proposal and determined their response. The owner, however, may submit a replacement petition providing it is received by the MSBU Program within the submittal deadline for the petition process. Petitions will not be accepted after the deadline has passed. Petitions may not be withdrawn after the response deadline has expired.

Can the petition deadline be adjusted? The petition deadline is monitored/controlled by the MSBU Program. Petition documents are typically in distribution for a 30-day period. Extension is granted when community support is uncertain due to non-returned petitions. Deadline and provisions for extension will be noted on the petition document. Up to 2 extensions, each limited to 2 additional weeks are typically granted. Deadline extensions will be posted to MSBU Program website.

What level of support is required? Owners representing a 65% majority of the benefiting property must indicate their support for establishing the proposed MSBU for all project types (excluding street lighting which requires a 55% majority).

Will the results of the petition be communicated? The results will be posted to the MSBU Program website at <http://www.seminolecountyfl.gov/msbu/msbudistrict.aspx>. If the petition provided sufficient support to proceed with an MSBU creation process, the MSBU Program will mail notification of results along with information regarding the next steps in the process of creating the MSBU. If support is insufficient to proceed, mailed notification is at the discretion of the MSBU Program and is generally dependent on the cost to provide such notification.

Do the property owners opposing the MSBU get assessed if the MSBU is created? In most circumstances, all properties (whether "For" or "Against" during the petition improvement process) are assessed equitably for the cost of providing an improvement. In the case of fire flow, water extension and/or sewer line projects, all properties (whether "For" or "Against" during the petition improvement process) are required to connect within 120 days of being granted connection access and are assessed equitably for the cost of providing the improvement. With water service line projects, installation of fire flow and fire hydrants are mandatory. Therefore, all properties will share in the expense of the fire flow system. The governing ordinance will include a list of participating properties and respective improvement for which the property will be assessed. Once the ordinance is adopted by the BCC, participation in the cost share becomes mandatory as per directives of the governing ordinance. Ordinances are posted at <http://www.seminolecountyfl.gov/fs/msbu/msbudistrict2.aspx>.

When will a public hearing be held and who may attend? A public hearing to establish an MSBU will be scheduled after a petition process demonstrates the required level of community support, and all supporting documents are secured by the MSBU Program. Notice of public hearing will be mailed to owners of record for all properties included in the boundaries of proposed MSBU. Notice will be published in a local newspaper. Any member of the public may attend a public hearing.

May the MSBU be terminated at a future date? The process to dissolve an established MSBU is similar to the creation process - application, petitioning, majority support, public hearing, and BCC authorization. MSBUs that receive supplemental financial support from county funding may have additional restrictions that mandate the minimum duration of existence for the MSBU. If/when an MSBU is dissolved; the participating properties will be assessed for closure costs, contractual obligations, and/or other unpaid expenses.

When do I start paying the assessment? Assessments for on-going improvements/services (such as street lighting, aquatic weed control and solid waste) subject to annual rate variation will be included on the first available property tax bill following creation of the MSBU. Assessment for projects involving fixed term financing (such as construction and lake restoration projects) will be included on the first available property tax bill following project completion. Additional information for different improvement and service project types may be found at <http://www.seminolecountyfl.gov/fs/msbu/msbuprog.aspx>. Fixed Term assessments may be paid in full at any time following final rate resolution. Property taxes are due annually by March 31. Early payment discounts associated with property taxes are applicable to MSBU assessments.

I received a Notice of Proposed/Adopted Non-Ad Valorem Assessment in the mail. What is this? Property Owners have a "right to know" about the taxes and assessments that are proposed or adopted for inclusions on the property tax bill. Notice is provided in advance of a property tax bill and provides communication of special assessments ([Non-Ad Valorem assessment](#)) that will be included on the property tax bill. The notice also provides details regarding a public hearing scheduled by the Board of County Commissioners to receive public commentary regarding the proposed assessment roll prior to their approval consideration and certification to the County Tax Collector for collection.

"This is not a bill" is noted on the Non-Ad Valorem Assessment Notice. When and how are the charges billed? How is the assessment paid? The [Non-Ad Valorem assessment](#)(s) will be included on the property tax bill distributed in early November. Payment of these assessments is required at the time property taxes are paid and in the same manner as property tax payments. When you pay your property taxes, your assessments are also paid.

Since there is a lien on my property, when and how is the lien satisfied? May I receive a copy of the satisfaction of lien? The lien for a variable rate assessment, such as street lighting and aquatic weed control is satisfied annually when the property tax bill is paid. A lien associated with a fixed term assessment is satisfied when the outstanding assessment is paid in full. A satisfaction of lien document is issued when a fixed term assessment is paid in full; a lien satisfaction document is not required or issued when a variable rate assessment is paid. For additional information regarding satisfaction of lien process, pay-off balance or a copy of the satisfaction of lien, please contact the MSBU Program (407) 665-7178 or on-line at: <http://www.seminolecountyfl.gov/fs/msbu/msbuamaterials.aspx>.

If I sell my property within the payoff period how does the MSBU lien on my property get satisfied? Who pays the remainder due, the buyer or the seller? An MSBU assessment is satisfied by full payment. Seminole County Government does not require payment of the assessment balance at the time of property sale. However, a mortgage company or title company may require lien satisfaction to finance/refinance or issue title insurance. Assessment payment decisions are determined by property owners. The decision to make early payoff, as well as the decision regarding who will pay the assessment balance is between the buyer and the seller and/or their agents. If an assessment balance will be paid at the time of property sale, the MSBU Program must be notified so that a payoff amount can be calculated. For additional information regarding the purchase or sale of a property subject to non-ad valorem assessment, please visit the MSBU Program [Property Sale Information](#) page.

I would like to have a streetlight in my neighborhood. What do I need to do? If you are interested in a single security light being installed on your property, contact your power company. If you would like to have a street lighting system installed in your neighborhood, or are interested in securing street lighting in a specific area, contact the MSBU Program at (407) 665-7178 for additional information and/or to obtain an MSBU application packet.

How are locations of the street lighting poles determined? Street lighting installation plans are engineered by power companies to provide optimum adequate nighttime lighting for enhanced street safety. Lights/poles are spaced accordingly along the street to meet those safety guidelines and in accordance with Illuminating Engineering Standards (IES). The style of lighting equipment, pole height and wattage influence the lighting location.

Can I upgrade or add a light to existing street lighting MSBUs? Requests to modify existing street lighting will be defined by the MSBU Program as either “essential” or “elective”. Essential modifications are classified as safety related and may be implemented by the MSBU program at any time if resulting assessment does not increase more than 20%. If increase is more than 20%, the modification will be addressed through an application and petition process with at least 55% support. Elective modifications are not deemed safety related and are accommodated via an application and petition process with at least 55% support.

When are the annual needs and assessment rates determined? Power companies, based on regulated approval from the Public Service Commission, provide notices to the MSBU Program of utility rate adjustments. Any requested and approved upgrades or changes to the street lighting MSBU will also be included in annual assessments. MSBU operating budgets are prepared annually prior to April. After the budget is developed, the variable rate assessment is calculated. The proposed rate is presented to the BCC for review and approval. After approval, the MSBU Program generates and mails a “*Notice of Proposed/Adopted Non-Ad Valorem Assessment*” to the owners of property subject to assessment. The assessment approved for the forthcoming tax bill is posted on the MSBU Program website by August 1 (<http://www.seminolecountyfl.gov/msbu/msbudistrict2.aspx>)

My property is vacant. Should it be exempt from the street lighting assessment? All properties with a taxable value of over \$100.00 are assessed. If you vacant property has a taxable value of \$100.00 or less and it is currently assessed for street lighting, please contact the MSBU Program at (407) 665-7178 to request a review of the assessment.

Trees are growing over streetlights. Who do I contact to have branches trimmed? The Seminole County Public Works Department will trim only the trees located in their right-of-way. This includes branches that obstruct the illumination of streetlights funded through an MSBU. A "[Service Request Form](#)" can be submitted online via their website or they can be reached by phone at (407) 665-7623. When branches are interfering with power lines or other utility services in areas other than a roadway or right-of-way maintained by Seminole County, please contact the utility provider. Contact information for major utility providers include: 1) Progress Energy - (800) 228-8485; or 2) Florida Power & Light Company (FPL) - (800) 226-3545; 3) Brighthouse Cable – (866) 309-EASY (3279); 4) Time Warner – (866) 749-2642; and 5) AT&T – (877) 737-2478.

The streetlight in my subdivision is out or not functioning properly. What do I do? When minor repairs are required, such as non-functioning lights, property owners are encouraged to contact the power company directly. The power company responsible for the street lighting equipment is generally the same company providing residential electric service in the area. When reporting an equipment problem, it is always helpful to provide the address of the pole location and its assigned number which can be found on a metal plate approximately five feet from the ground. If you experience difficulties in reporting the repair or in receiving service, please contact the MSBU Program. In most instances, a direct request from property owners to the power company will expedite scheduling of the service response.

Which Power Company Should I Contact for Repair?

The lights on your street are powered by the same company that provides electricity to your home. Please contact the company that provides power to your home:

Progress Energy

- Telephone: (800) 228-8485
- Submit an online [repair request](#)

Florida Power & Light Company (FPL)

- Telephone: (800) 226-3545
- Submit an online [repair request](#)

My street lighting poles have paint that is peeling and/or fading. Who should I contact to request repainting? The repair/maintenance fee charged to the MSBU Program obligates the power company to provide necessary service to keep equipment in good working order. Therefore, maintenance service requirements have limitations. For example, routine painting of poles is optional maintenance. In certain situations, painting may be available from the power company. However, if painting services are available, the scheduling lead time is typically in the realm of 12 to 18 months at a minimum. To inquire about scheduling pole painting, please contact the [MSBU Program](#) or complete the online [repair request form](#).

MSBU Glossary

MSBU PROGRAM Terminology & Definitions

ADMINISTRATIVE FEE	A charge assigned to an MSBU for recouping costs incurred by the County in support of establishing, managing and administering the MSBU. Includes an allocation of operating costs such as personnel, office/computer equipment, supplies, data processing, postage, insurance premiums, and programming.
ADMINISTRATIVE REVIEW & RECTIFICATION	Boundary or structural modifications recommended by the MSBU Program and applied to established MSBUs for the purpose of rectifying or maintaining the integrity between common benefit and cost allocation based on land use, land developments and/or assessment criteria.
AD VALOREM TAX	A charge levied by a government to provide funding for general public services and improvements; amount due is based on official valuation (appraised value) of real property and authorized millage rate.
ASSESSED VALUE	Valuation set on real estate or personal property by the Property Appraiser as a basis for levying ad valorem property taxes. [Refer to <i>Property Tax</i>]
ASSESSMENT (Non-Ad Valorem)	An assigned dollar amount representing property cost share; allocated on basis of benefit units; and levied for funding a specific service or improvement. [Refer to <i>Fixed Term</i> and/or <i>Variable Rate Assessment</i>]
ASSESSMENT BASE	Unit of measure on which non-ad valorem assessment is calculated. Examples: Per parcel, per dwelling, per front foot, and per acre.
ASSESSMENT ROLL	Formal record adopted by the Board of County Commissioners at a public hearing that provides a complete listing of the non-ad valorem assessments levied and assigned to specific property. Roll is certified and submitted annually to the County Tax Collector for inclusion on annual property tax bills for collection.
AQUATIC PLANT	Plant species that grow in, or closely associated with the aquatic environment around lakes and waterways; may be designated as floating, emersed, submersed, and shoreline species.
AQUATIC WEED	A noxious aquatic plant with potential to hinder the growth of beneficial aquatic plants, to interfere with irrigation or navigation, or to adversely affect the public welfare or natural resources of the state.

AQUATIC WEED CONTROL	Controlling or managing noxious and/or invasive plant species through chemical, biological or mechanical means. Often requires compliance with federal, state and local agency regulations, as well as permitting.
AQUATIC WEED CONTROL [MSBU]	Public services critical to restoring, developing and/or maintaining aquatic conditions that enhance the water quality and overall health of the waterbody; concentrating on the aquatic plants in direct association with the waterbody (i.e. water and shoreline). Often requires compliance with federal, state and local agency regulations. [Vegetation that does not present a detriment to a waterbody is not targeted as a priority within the scope of public aquatic weed control services fund by assessment.]
BENEFIT	An advantage, improvement or assistance gained from association with service or improvement.
BENEFIT UNIT	Equitable unit of measure on which non-ad valorem assessment is allocated. Examples: Per parcel, per dwelling, per front foot, and per acre.
BEST LAKE MANAGEMENT PRACTICES	Professionally developed and recommended measures for evaluating, monitoring, addressing, and promoting optimal conditions for restoring, developing and/or maintaining water quality and environmentally sound waterbodies and habitats for wildlife. Often requires compliance with federal, state and local agency regulations.
BID	Offer to perform work; offer to supply labor, materials and/or goods at specified price.
BIOASSESSMENT (Aquatic Vegetation)	A scientific evaluation of the vegetation growing in, or in the vicinity of, a waterbody; identification, classification, and characteristics of vegetation in a given area [native, noxious, aquatic, wetland, upland, etc]. When an aquatic vegetative bioassessment is conducted, dominance is determined by areal extent within the lake. When formulating an aquatic vegetation bioassessment, a variety of factors are considered –such as, but not limited to, species present, growth characteristics of species, and mass and/or percentage of area represented by each species.
BOARD OF COUNTY COMMISSIONERS (BCC)	Governing body of Seminole County composed of five members serving staggered terms of 4 years with election on a county-wide basis; one Commissioner per each of the five commission districts.
BUDGET	Financial operating plan for fiscal year; summary of anticipated revenue and expenditures.
BUILDER	A person who constructs buildings under contract or as a speculation.
CADASTRAL	Map or survey showing or including boundaries of property lines.

COMMUNITY COLLECTION LOCATION	A central site that is nearby multiple residential properties and designated by the County for placement and collection of residential solid waste.
CENTRAL TRANSFER STATION	Waste processing facility where solid waste is unloaded from collection vehicles and is compacted and reloaded onto larger long-distance transport vehicles for shipment to a landfill for disposal or other treatment facilities.
COLLECTION SERVICE	The contracted service by which residential solid waste is removed and transported to an authorized disposal facility for processing.
COLLECTION LOCATION	Location designated by the County for placement and collection of residential solid waste. Includes curbside to residential property where feasible (most common in developed subdivisions) and central/community collection locations when necessitated by less developed conditions
CONSOLIDATED STREET LIGHTING ORDINANCE	Declaration/document established by the Seminole County Board of County Commissioners for the purpose of defining the governing parameters of the street lighting non-ad valorem assessment districts in unincorporated Seminole County.
CONTINGENCY FUNDS	Funds set aside or reserved to cover unforeseen events that occur during fiscal periods or improvement projects.
CULVERT	A drain pipe or masonry structure under a road or embankment.
DEVELOPER	A person/entity that invests in and develops the urban or suburban potentialities of real estate, esp. by subdividing the land into home sites and then building houses and selling them.
DISTRICT	A division of territory (such as a county) marked off for administrative, electoral, or other purposes.
DISTRICT BOUNDARY	The geographic area and/or properties included in an area identified as a district.
DRAINAGE	Conveying water from one place to another to dry the former and prevent water from accumulating.
EASEMENT	A limited right of use over the property of another, such as any strip of land legally dedicated or conveyed for public or other private utilities, drainage, sanitation, or other specified uses having limitations, the title to which shall remain in the name of the property owner, subject to the right of use designated in the reservation of servitude.
ENGINEERING REPORT	A written report prepared by a licensed engineer describing the project background, findings, assumptions, permit recommendations, and probable costs to complete a specific MSBU project.

FISCAL YEAR	A twelve month time frame designated for managing and monitoring financial aspects of a government or other types of organizations; includes budgeting and financial performance tracking. (Seminole County Fiscal Year: October 1 through September 30).
FIXED TERM ASSESSMENT	Type of assessment, typically associated with construction improvement projects, with specific repayment terms that include installment payment arrangements and financing interest charges. Installment payments are collected annually via property tax billing; early payoff of outstanding balance may be made at any time without penalty.
GARBAGE RECEPTACLE	Any commonly available light gauge steel, plastic or galvanized container of nonabsorbent material, closed at one end and open at the other, furnished with a closely fitted top or lid and handle(s); may also be defined as a waterproof plastic bag of heavy mill construction which can be safely and securely closed. For collection purposes, a garbage receptacle and contents shall not exceed 50 gallons in capacity or 50 pounds in weight.
HERBICIDE	A substance or chemical that will destroy or kill vegetation.
INTEREST EARNED	Favorable financial gain on revenue, savings, or investment.
INTEREST EXPENSE	The price paid for borrowing money ; generally expressed as a percentage rate over a period of time.
LAKE MANAGEMENT	Long-term focus and integrated plan for restoring, developing and/or maintaining waterbody conditions that will enhance the water quality and overall health of the waterbody. Requires compliance with federal, state and local agency regulations.
LAKE RESTORATION	Specific efforts directed toward improving a waterbody so that deterioration is reduced, corrected, and/or controlled. Typically supplemented by long-term aquatic weed control and shoreline replanting requirements.
LAKE VEGETATION INDEX (LVI)	A scientific methodology for evaluating the condition of a waterbody based on the vegetation growing in or in the vicinity of the waterbody. Developed and regulated by FDEP; requires certification (individual audit) to execute.
LEASEHOLD	Land or property held under a contract (lease) that conveys certain property rights to another person or entity for a specific period of time.
LEVY	To impose taxes, special assessments or service charges for funding County activities.
LIAISON	A person submitting an application for establishing an MSBU, or an owner of property within the boundaries in an MSBU that voluntarily serves as a spokesperson for the community during the various phases of the MSBU process.

LIEN	A financial encumbrance or claim against a property by the County for payment of service or improvement provided (or to be provided) by the County. The amount of the lien is equal to the preliminary and/or levied assessment.
LINEAR FOOT	A one dimensional measurement pertaining to length and equal to twelve inches.
MILLAGE RATE	The property tax rate; levied in mills per dollar of taxable property value.
MUNICIPAL	Of or relating to a community or civic unit, purpose or service.
MUNICIPAL SERVICE BENEFIT UNIT (MSBU)	A special assessment district established for funding an essential public service and/or improvement that benefits the property included in the assessed boundary of the district. Assessment (property cost share) is allocated on a unit of measure that equitably represents benefit. MSBU assessment is not determined according to property value. [Refer to <i>Assessment Base</i> and <i>Benefit Unit</i> .]
MUNICIPAL SERVICE TAX UNIT (MSTU)	A special tax district established for funding a public service and/or improvement provided to a specific geographic area or sector of the County. Property cost share is allocated based on property value.
MUNICIPALITY	Political unit usually having powers of self government. There are seven incorporated cities (municipalities) in Seminole County: Altamonte Springs, Casselberry, Lake Mary, Longwood, Oviedo, Sanford, and Winter Springs.
NON-AD VALOREM	Not according to value. [As related to taxes and assessment; property taxes are levied <i>ad valorem</i> – according to property value; assessments are <i>non-ad valorem</i> – levied according to benefit or other measure other than property value.]
NON-AD VALOREM ASSESSMENT	A charge levied by the County on an equitable basis for the purpose of funding a specific essential service or improvement that offers a localized benefit. [Refer to <i>Fixed Term Assessment</i> and/or <i>Variable Rate Assessment</i>]
OPERATING CONTINGENCY	Funds set aside or reserved to cover unforeseen events that occur during fiscal periods or improvement projects.
ORDINANCE	A formal legislative enactment by the governing board of a municipality or other political subdivision. As related to the MSBU Program, a declaration/document authorized by the Seminole County Board of County Commissioners for the purpose of (a) creating a special assessment district [MSBU] (b) defining the governing parameters of the MSBU and (c) adopting the initial and/or preliminary assessment roll for the MSBU.

PETITION FOR IMPROVEMENT	A formal document, prepared and distributed by the MSBU Program, used to determine the level of community support of an improvement project and the establishment of an MSBU for funding the improvement.
PETITION OF INTEREST	An informal communication to/from property owners distribute to determine preliminary interest in pursuing services or improvements through an MSBU.
PLATTED LAND	Land that is described by lot , block , and tract . A plat (map) is filed in public land book records. After the filing of a plat, legal descriptions can refer to block and lot-numbers rather than portions of sections .
PRELIMINARY ENGINEERING REPORT	A written report prepared by a licensed engineer describing the anticipated conditions, requirements, methods, permits, and estimated costs to be addressed to complete a specific project.
PRIVATE ROAD	Privately owned land/property used as a roadway.
PROJECT MANAGER	A person whose responsibilities include managing the activities, resources, and scheduling of a project.
PUBLIC	Of, relating to, or concerning the people as a whole; maintained at the expense of, servicing, or for the use of a community.
PUBLIC HEARING	A special meeting of the Board of County Commissioners which allows the public to comment on proposed plans and projects before officials (commissioners) make a final decision.
PRIVATE LAKE OR WATERWAY	A body of water that is surrounded by land that is privately owned and without provisions for public access.
PROPERTY TAX	A debt imposed by a government for funding general public services and public improvements; levied according to authorized millage rate and taxable value of property value.
PUBLIC LAKE OR WATERBODY	A body of fresh water of considerable size, surrounded by land that includes provisions for public access, and/or associated with submerged lands owned by the state by right of its sovereignty in navigable freshwater lakes, rivers, and streams. [Refer to Florida Statutes 253.12.]
PUBLIC ROAD	Publically owned land/property used or designated as roadway (travel route)
RECONSTRUCTION	Replacement of an existing structure.
RESERVE	A specified amount of funds set aside for the purpose of meeting future or unanticipated expenses.

RESOLUTION	A special or temporary order of a legislative body with less legal formality than an ordinance or statute. Resolutions applying to MSBUs identify final MSBU boundaries and/or final assessment rates, certification and adoption of annual assessment roll, clarifications to applicable sections of the County Administrative Code, and confirmation of variable rate recommendations.
RETENTION POND	Storm water treatment facility constructed by specific design to retain volumes of storm water for defined basin area.
RETENTION POND RENOVATION	Re-establishing functionality of existing retention pond through site cleanup, dredging, aquatic weed control and other restorative efforts.
RIGHT OF WAY	Land dedicated, deeded, used or to be used, for street, alley, walkway, boulevard, public utilities, drainage, access for ingress/egress, or other purpose by public, designated individuals, or governing bodies.
RIPARIAN STEWARDSHIP	Responsible protection and preservation of a waterbody by an owner of waterfront property; following recommended lake management practices for actively protecting water and environment qualities; pursuing use of land in a manner that will yield optimal positive environmental influence on water quality and healthful condition of waterbody; includes activities such as planting shoreline with desirable native plants, avoiding use and runoff of chemicals that negatively impact water quality or are detrimental to wildlife, reducing or eliminating use of certain fertilizers, proper disposal of grass clippings and leaves, and many other responsible practices. <i>[For additional information, contact the Seminole County Lake Management Program or other public environmental agencies.]</i>
SATISFACTION OF LIEN	The payment in full of an obligation or debt (such as an assessment) that releases the claim or charges that is held on property; providing payment in full of a levied assessment.
SCOPE OF SERVICE/WORK	The required work effort, divided into tasks, to complete a specific project. The specific set of improvement requested.
SERVICE LEVEL	Specific to the collection of residential solid waste, the service level identifies the frequency of household garbage collection (once or twice per week) and the collection services (with or without yard waste collection) selected by the property owner.
SERVICE YEAR	Specific to residential solid waste management, the calendar year to which the annual assessment is applied.
SEWER LINE	Utility system components that connect residences or other building facilities to centralized waste-water processing facilities.
SHORELINE	The line where shore and water meet.

SOLID WASTE	Garbage, rubbish, yard waste, white goods, furniture and recycle items.
SOLID WASTE ASSESSMENT	An annual charge levied on a per residential dwelling basis in unincorporated Seminole County to provide funding for the management of residential solid waste in the unincorporated areas of the County.[Refer to <i>Variable Rate Assessment</i>]
SOLID WASTE MANAGEMENT (Residential)	A county-wide program established for the purpose of centrally administering the collection, disposal, and processing of residential solid waste.
SOVEREIGN WATERS/LAND OF THE STATE	Those lands waterward of the ordinary or mean high water line, submerged beneath navigable fresh water (i.e., inland lakes). Such sovereign land includes all submerged land to which title is held by the Board of Trustees of the Internal Improvement Trust Fund, who provides by statute the acquisition, administration, management, control, supervision, conservation, protection, and disposition of state-owned lands under its control. Activities on, and sales of, sovereign submerged lands must not be contrary to public interest.
STATUTE	A written law enacted by an official legislative body.
STORM DEBRIS (Vegetation)	Large size or volume vegetative debris generated by winds, rain and other storm conditions. Typically requires direct disposal by owner at County disposal facilities.
STREET LIGHTING	Equipment system installed for providing enhanced roadway lighting intended to produce quick, accurate, and comfortable visibility at night that will safeguard, facilitate, and encourage vehicular and pedestrian traffic. Within the structure of individual MSBUs, the authorized services may extend to ancillary lighting and electrical expenditures, such as entrance lighting and flood lights in common areas and metered account services that are considered to be part of the overall street lighting plan within a specific geographic area.
STREET LIGHTING ASSESSMENT	An annual charge levied on a localized basis in unincorporated Seminole County to provide funding for the street lighting equipment operated in the local geographic area. [<i>Refer to Variable Rate Assessment</i>]
TAX COLLECTION FEE	The amount paid by the MSBU Program to the County Tax Collector for providing the billing and collection services associated with the non-ad valorem assessments levied by County.
TAX ROLL	Formal listing of property tax records as prepared annually by the Property Appraiser and certified to the Tax Collector for collection.

TERM ASSESSMENT	Type of assessment, typically associated with construction improvement projects, with specific repayment terms that include installment payment arrangements and financing interest charges. Installment payments are collected annually via property tax billing; early payoff of outstanding balance may be made at any time without penalty.
TROPHIC STATE INDEX (TSI)	A classification system designed to "rate" individual lakes, ponds and reservoirs based on the amount of biological productivity occurring in the water.
UNINCORPORATED AREA	Land/property within the County boundary that is not within the taxing boundary of any incorporated area – such as a municipality (city).
UNPLATTED LAND	Land that is not defined or described with a legal description inclusive of lot number, or lot and block number as shown in the county records office. (<i>Refer to Platted Land</i>)
VARIABLE RATE ASSESSMENT	Type of assessment that is levied on an annual basis for long-term or continuing services. Assessment amount may be adjusted annually based on budgeted cost for service continuation.
WATERBODY (or Body of Water)	Stationary accumulations of water, such as lakes , ponds or wetlands ; as well as moving bodies of water such as rivers , streams , and canals .
WATER LINE (Potable)	Part of the County's water system that provides distribution or conveyance of water that (a) has been treated by a facility permitted by the Florida Department of Environmental Protection and (b) meets the requirements of the Florida Safe Drinking Water Act.
WHITE GOODS	Inoperative and discarded refrigerators, ranges, washers, water heaters, and other similar domestic appliances, household goods and furniture generated from improved property.
YARD WASTE	Vegetative matter resulting from residential yard and landscaping maintenance (leaves, grass clippings, shrub trimmings, small branches, etc.). To be eligible for collection service, branches shall not exceed four feet in length and four inches in diameter; yard waste must be tied/bundled, bagged or containerized; no bundle, bag or container shall exceed 50 pounds in weight. [<i>Refer also to STORM DEBRIS.</i>]

Application Fee Schedule

(Excerpt from Seminole County Administrative Code 20.37)

Lake Management

Aquatic Weed Control¹

- \$ 550.00 Application Fee - Impaired/Corrective Services
- \$ 450.00 Application Fee - Maintenance of existing conditions/under contract

Lake Restoration¹

- \$ 550.00 Application Fee - Impaired/Corrective Services

Road Paving & Stormwater Control Systems²

Road Paving & Related Stormwater Control (Drainage)

- \$ 650.00 Application Fee - Rough cost estimate and coordination of preliminary engineering

Retention Pond Renovation¹

- \$ 550.00 Application Fee - Impaired/Corrective Services

Street Lighting

- \$ 150.00 Application Fee - MSBU request involving single support source
- \$ 150.00 Application Fee - MSBU request involving of 25 or fewer properties.
- \$ 250.00 Application Fee - MSBU request involving greater than 25 properties.
- \$ 150.00 Application Fee - Upgrade request involving 25 or fewer properties.
- \$ 250.00 Application Fee - Upgrade request involving greater than 25 properties.

Wall Reconstruction

- \$ 550.00 Application Fee - Single easement ownership; Construction Only
- \$ 750.00 Application Fee - Multiple easement ownership; Construction Only
- \$1,000.00 Application Fee - Single easement ownership; Pre-Paid Design plus Construction
- \$1,250.00 Application Fee - Multiple easement ownership; Pre-Paid Design plus Construction

Water and/or Sewer²

- \$ 550.00 Application Fee - Water or Sewer

Sidewalks²

- \$ 450.00 Application Fee Proposed – New construction or repair/replacement

Dissolution Application

- \$ 150.00⁴ Application Fee - Distribution of Petition

All Project Types - Reactivation & Redistribution of Petition

- \$ 150.00⁴ Application Fee – Reactivation & Redistribution of Petition

- 1 The MSBU application review process may require project analysis involving consultant services to determine scope of services and feasibility of success. The need for analysis will be determined prior to application and a price quote for analysis fee will be obtained at time of application. Prepayment for analysis costs will be due from applicant prior to scheduling the analysis related activities.
- 2 The MSBU application process requires a preliminary engineering report. A price quote for preliminary engineering will be obtained at time of application. Prepayment for the preliminary engineering report will be due from applicant prior to scheduling report related activities.
- 3 The application fee includes preparation of leasehold/easement legal documents required in conjunction with application process.
- 4 In addition to the stated application fee, the applicant will be required to provide prepayment for the mailing expenses associated with a subsequent distribution of a petition for the same or similar project.

Application for Establishing an MSBU For Street Lighting

Project Type: New MSBU Street Lighting Equipment Installation Existing MSBU Street Lighting Equipment Upgrade
 Transfer of Existing Street Lighting Equipment

Indicate Attachments: Application Fee Location Map New Equipment Installation Fee
 Equipment Requested Map of Existing Equipment Utility Bill
 Plat Map Other: _____

Subdivision Name: _____ Property ID/Reference: _____

Primary Liaison Information:

Secondary Liaison Information:

Name _____

Address _____

Property Address _____
(If different from mailing address)

Telephone _____

Email _____

Supporting Information:

1. What is Applicant Status?

- Property Owner
- Property Management Company or Home Owners Association
- Developer/Builder

2. How is the Proposed Street Lighting MSBU documented?

- Platted in Plat Book No. _____, Page(s) No. _____ (provide copy of Plat)
- Part of a subdivided (platted) area; Plat Book No. _____, Page(s) No. _____ (provide copy of Plat)
- Not Platted (Provide metes and bounds legal description OR property identification number(s) OR a Seminole County Section map with the proposed MSBU outlined.)

3. What is the current status of street lights in the proposed MSBU?

- There is no installation at this time. This is our/my initial application.
- Have been installed by _____ account no. _____
- Will be installed on _____ by _____

Application for Establishing an MSBU

Page 2

- 4. If scheduled, what percentage of the benefiting property owners would likely attend meetings purposed at review of street lighting options, goals, and financial issues? _____%
- 5. What is the Installation Cost/Financing option for lighting equipment?
 - MSBU financing for installation cost is requested
 - Requested payback period: 1 yr 2 yr 3 yr
 - MSBU financing is not required for installation cost because:
 - No installation cost – lights installed prior to establishing MSBU
 - Developer/contractor to pay power company for installation
 - Applicant/community to submit payment for installation cost
- 6. What is the lighting equipment choice?
 - Pole Description: _____
 - Light fixture: _____ KWH _____
 - To be determined after application is accepted
- 7. What is the name of the power company servicing the area?
 - Florida Power and Light
 - Progress Energy
- 8. Please provide any additional comments here:

I have reviewed the information contained in the application packet. I understand that community support is essential to the establishment of an MSBU. I understand and accept that the application fee and all other prepayment requirements are deemed non-refundable and that any applicable credit provisions for such payments will not be available until such time as an MSBU is established, the project is completed and assessments are collected. I understand that the establishment of an MSBU is a discretionary decision of the Seminole County Board of County Commissioners as subject to state and local guidelines.
