

SEMINOLE COUNTY GOVERNMENT
BOARD OF ADJUSTMENT
AGENDA MEMORANDUM

SUBJECT: 1366 East Garon Cove – Mark Corter, applicant; Request for a Special Exception for temporary placement of an existing mobile home in the A-5 (Rural Zoning Classification).

DEPARTMENT: Planning & Development **DIVISION:** Planning

AUTHORIZED BY: Kathy Fall **CONTACT:** Denny Gibbs **EXT.** 7387

Agenda Date 4/23/07 Regular Consent Public Hearing – 6:00

MOTION/RECOMMENDATION:

1. **DENY** the request for a Special Exception for temporary placement of an existing mobile home in the A-5 (Rural Zoning Classification); or
2. **APPROVE** the request for a Special Exception for temporary placement of an existing mobile home in the A-5 (Rural Zoning Classification); or
3. **CONTINUE** the request to a time and date certain.

GENERAL INFORMATION	Applicant: Mark Corter Location: 1366 East Garon Cove Zoning: A-5 (Agriculture District) Subdivision: Lake Harney Estates 5-acre Subdivision
BACKGROUND / REQUEST	<ul style="list-style-type: none"> • The applicant is requesting the ten (10) year temporary placement of an existing 1980 single wide mobile home, where mobile homes are allowed only by special exception. • A special exception for the temporary placement of a mobile home was granted in 1985 for 5 years. • According to county records no building permits have been issued for this property and the property appraiser shows this property as vacant. • A Code Enforcement Notice of Violation has been issued. • The applicant submitted the application requesting temporary placement for one year; staff has changed this

	<p>request to 10 year temporary placement since the applicant has no clear plan for future replacement of the existing mobile home with a conventional home or a newer mobile home.</p>
<p>STANDARDS FOR GRANTING A SPECIAL EXCEPTION; LDC SECTION 30.43(b)(2)</p>	<p>The Board of Adjustment (BOA) shall have the power to hear and decide special exceptions it is specifically authorized to pass under the terms of the land development code upon determination the use requested:</p> <p><u>Is not detrimental to the character of the area or neighborhood or inconsistent with trends of development in the area:</u></p> <p>Available records indicate that in the last seven years most of the parcels along East Garon Cove have transitioned from mobile home to conventional single family homes. Currently there are 4 new conventional homes, 2 1980s era mobile home, 1 2001 mobile home. Along West Garon Cove most of the 1980s era mobile homes remain: 10 mobile homes, 1 conventional, 1 vacant.</p> <p><u>Does not have an unduly adverse effect on existing traffic patterns, movements and volumes:</u></p> <p>Since the proposed use is a single-family unit that would not be highly intensive in nature, staff does not believe it would adversely impact adjoining transportation facilities.</p> <p><u>Is consistent with the Seminole County Vision 2020 comprehensive plan:</u></p> <p>The request would be consistent with the trend of low-density single-family land use, established in this area.</p> <p><u>Meets any additional requirements specified in the code section authorizing the use in a particular zoning district or classification:</u></p> <p>The subject property meets the minimum dimensional requirements of the A-5 zoning classification.</p> <p><u>Will not adversely affect the public interest:</u></p> <p>The surrounding neighborhood historically has consisted of mobile homes, vacant land and recently constructed conventional homes. The current trend of development</p>

	<p>along Osceola Road and East Garon Cove is single-family residential with a number of new houses built since 2000. The remaining mobile homes in the area received temporary approval from the Board of Adjustment in the 1980s although most approvals have expired.</p> <p>The permanent placement of a mobile home in which the trend of development does not support the continued placement of mobile homes is not in the interest of the public interest.</p>
<p>STANDARDS FOR GRANTING A SPECIAL EXCEPTION IN THE A-5 (RURAL ZONING DISTRICT); LDC SECTION 30.104(a)</p>	<p>The BOA may permit any use allowed by special exception in the A-5 (Rural Zoning District) upon making findings of fact, in addition to those required by section 30.43(b)(2) of the land development code, that the use:</p> <p><u>Is consistent with the general zoning plan of the A-5 (Rural Zoning District):</u></p> <p>The proposed use is allowed only by special exception in the A-5 district. The proposed mobile home would be required to comply with the siting standards enumerated in section 30.1401 of the land development code, which are intended to minimize potential incompatibility with nearby conventional single-family homes as follows:</p> <ul style="list-style-type: none">○ The mobile home shall have safe and convenient vehicular access.○ The mobile home shall be required to conform to applicable codes, which include standards for installation, anchoring, utility accessibility, and skirting. <p><u>Is not highly intensive in nature:</u></p> <p>The request is not highly intensive in nature, as the proposed mobile home would only be permitted for single-family occupancy.</p> <p><u>Has access to an adequate level of urban services such as sewer, water, police, schools and related services:</u></p> <p>The subject property is served by on-site septic and well systems. Other county services, including schools and emergency services, are also available to the site.</p>

MOBILE HOME AS A SPECIAL EXCEPTION IN THE A-5; LDC SECTION 30.103	A mobile home may be permitted as a special exception on a lot or parcel of record in the A-5 (Rural Zoning District), subject to the previously referenced mobile home siting standards in section 30.1401 of the Land Development Code.
STAFF RECOMMENDATION:	<p>Staff does not have the authority to recommend time limits on mobile homes but the Board of Adjustment may describe reasonable time limits on special exceptions and/or mobile home requests (LDC Sec. 30.43 (4)). Temporary placement of a mobile home in an area that is transitioning to single family may be keeping with the policies established by the Board.</p> <p>Based upon the trend of development in the surrounding area staff would consider the temporary placement of the existing mobile home with the condition that no extensions be allowed and that the existing mobile home be removed prior to the expiration of the special exception.</p> <p>If the Board chooses to grant the Special Exception staff recommends the following conditions:</p> <ul style="list-style-type: none">• Only one (1) single-family mobile home unit shall occupy the site, as shown on the proposed site plan.• The mobile home shall otherwise conform to applicable building codes, including standards for anchoring, utility accessibility and skirting.• No extensions shall be allowed and the mobile home shall be removed prior to the expiration of the special exception.

NOTE: This determination is based on the Flood Insurance Rate Map of Seminole County. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property not in the Special Flood Hazard Area may be damaged by a flood greater than that predicted on the FIRM or from a local drainage problem not shown on the map. This letter does not create a liability on the part of the County, or any officer or employee thereof, for any damage that results from reliance on this determination. If the structure is in a SFHA, the agency or lender is required by law to require the recipient to purchase a flood insurance policy on the structure. The requirement is for structural coverage equal to the amount of the loan (or other financial assistance) or the maximum amount available, which ever is less. The maximum amount available for a single-family house is \$250,000.

INFORMATION PROVIDED BY THE MANUFACTURER NECESSARY TO CALCULATE SENSIBLE HEAT GAIN:

Walls (without windows and doors)	"U" = 1.327
Ceilings and roofs of light color	"U" = 0.837
Ceilings and roofs of dark color	"U" = 0.837
Doors	"U" = 0.901
Air ducts in floor	"U" = 1.494
Air ducts in ceiling	"U" =
Air ducts installed outside the home	"U" =
Heat transfer area to outside of home from air ducts, water heater, etc.	"Sq. Ft." = 52.5
Outside air	"Sq. Ft." =

The above heating equipment has the capacity to maintain an average 70°F temperature in this home at outdoor temperatures of -35°F.
 To maximize furnace operating economy, and to conserve energy, it is recommended that this home be installed where the outdoor winter design temperature (97½%) is not higher than -3°F.
 The above information has been calculated assuming a maximum wind velocity of 15 MPH at standard atmospheric pressure.
 The air distribution system of this home is suitable for the installation of central air conditioning.
 The supply air distribution system installed in this home is sized for Mobile Home Central Air Conditioning Systems of up to 38,867 B.T.U./Hr. rated capacity which are certified in accordance with the appropriate Air Conditioning and Refrigeration Institute Standards. When the air circulators of such air conditioners are rated at 0.3 inch water column static pressure or greater for the cooling air delivered to the mobile home supply air duct system.
 Information necessary to calculate cooling loads at various locations and orientations is provided in the special comfort cooling information provided with this mobile home.
 To determine the required capacity of equipment to cool a home efficiently and economically, a cooling load (heat gain) calculation is required. The cooling load is dependent on the orientation, location and the structure of the home. Central air conditioners operate most efficiently and provide the greatest comfort when their capacity closely approximates the calculated cooling load. Each home's air conditioner should be sized in accordance with Chapter 22 of the American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE) Handbooks of Fundamentals, once the location and orientation are known.
