

# REQUEST FOR TUG & PREPOWER AGREEMENT

**Altamonte Springs, Casselberry, Longwood, Oviedo, Sanford,  
Seminole County, Winter Springs**

Date: \_\_\_\_\_

Project Name: \_\_\_\_\_ Project Address: \_\_\_\_\_

Building Permit #: \_\_\_\_\_ Electrical Permit # \_\_\_\_\_

In consideration for authorizing the appropriate utility company to energize the facility, we agree with and understand the following:

1. This Tug/Pre-power application is valid only for one-and two-family dwellings.
2. The facility will not be occupied until a certificate of occupancy has been issued.
3. If the jurisdiction hereafter finds that the facility has been occupied before a certificate of occupancy has been issued, the jurisdiction will have the unilateral right to direct the utility to terminate electrical service without notice. Furthermore, we understand and agree that should the jurisdiction exercise such right, the jurisdiction will not be responsible for any damages or costs which may result from the exercise of such right. Also, in the event any third party claims damages from the exercise of such right, we agree to jointly and individually indemnify and hold harmless the jurisdiction from all such damages and costs, including attorney's fees.
4. Prior to pre-power, the building or structure shall be weather tight and secure. The electrical wiring in the area designated for pre-power shall be complete and in safe order. All electrical services associated with the area will be 100% complete unless specifically approved by the electrical inspector.
5. Interior electrical rooms shall be lockable, if electrical panels are in an area that cannot be locked by doors, the panels shall be equipped with a locking mechanism (approved by the AHJ). The licensed electrical contractor or his licensed representative shall hold the keys(s) for such access to electrical panels to prevent energizing circuits other than those that are safe.
6. This TUG/Pre-power approval is valid for a maximum of 180 days from date of approval.
7. If provided, the fire sprinkler system must be operational with water on the system prior to pre-power.
8. **TUG approval is for service and outside GFCI outlets only.**
9. **Check with the local jurisdiction for fees associated with tugs.**
