

**Seminole County Environmental Services Department
COMMERCIAL APPLICATION FOR RECLAIMED WATER SERVICE**

Applicant Information:

1. Applicant: _____
2. Company: _____
3. Property Owner or Name on Water/Sewer/Irrigation Account (if different from Applicant)

4. Current Water/Sewer/Irrigation Account Number _____
5. Mailing Address: _____
6. Telephone: _____

Irrigation Site Information:

7. Site address/location (include all parcel ID numbers):

8. Total size of site in acres or square feet: _____
9. Size of area to be irrigated in acres or square feet: _____
10. Calculate irrigation water use in gallons per day:
 - inches/wk: (not to exceed 1.5 in./wk) _____
 - Annual Average Gallons/day (for Seminole County Permitting) _____

If the size of the irrigated area is known, please use the following equations:

To apply 1 ½ inches of irrigation water per week:

Gallons per day = number of acres of irrigated area X 5818
gallons per day (to convert square feet to acres, divide the
number of square feet by 43,560.29)

To apply 1 inch of irrigation water per week:

Gallons per day = number of acres of irrigated area X 3879 gpd

Otherwise use the attached table:

11. Size of meter needed: _____

Application Submittals Required (2 Copies):

12. Site Location Map
13. Irrigation plans showing the following:
 - Irrigation piping, # of sprinkler heads, valves, # of zones, Zone run times
 - Reclaimed distribution mains and points of connection
 - Reclaimed service lines and reclaimed meters
 - Irrigation control box(s) and rain sensor(s)
 - All potable water lines, meters and backflow preventers
 - Show County standard construction details as appropriate
14. Mail to: Seminole County Environmental Services Department
500 West Lake Mary Blvd.
Sanford, FL 32773

Procedures:

15. Application and plans are reviewed by Planning, Engineering and Inspection Division and, if necessary, returned for revision.
16. Application is approved by Seminole County.
17. Reclaim Water Utility Agreement is sent to applicant to be signed by property owner and returned (Contact One Stop Permitting at (407) 665-2143 for information).
18. Reclaim Water Agreement is executed by Seminole County.
19. Applicant contacts One Stop Permitting to pay appropriate fees, purchase reclaimed meter, and initiate service.
20. An installation inspection is conducted on the service connection to the distribution main by Planning, Engineering, and Inspection Division. Applicant arranges for a backflow prevention inspection on the potable water system to be conducted by a certified inspector (a list of certified inspectors is available by contacting 407-665-2137).
21. A reclaim water inspection is conducted by the Wastewater Division.
22. Reclaim Water becomes available for irrigation use.
