Three large format scanners remain on lease, with an annual cost of \$14,195.76. All three leases expire in FY 2011/12.

It is not anticipated that a reduction in the number of large format scanners will be possible when moving to the multifunction devices. The lease cost of multi-function large format devices is slightly lower than the existing units. As such, the annual budget for large

format scanners include replacement of existing large format scanners as the lease expires at the current lease rates.

Notes:

It is anticipated that leases for 22 new Multi-Function Devices will be initiated in FY 2009/10, at an average annual lease cost of \$3,000 per year. These devices will be used to efficiently replace existing copiers, printers, scanners, and fax machines as they leave service. The new devices will be placed in such a manner as to provide document services in the most cost effective manner, and will not replace existing inventory on a one-to-one basis. The average annual cost of the multifunction devices includes a fixed cost lease (above), as well as maintenance, toner, paper, and other ancillary costs. The "per page" cost estimate is included in the operating supplies. This will result in a significant reduction in the total cost of ownership from the current inventory of separate copiers, printers, scanners, and fax machines.

The budget for the FY 2009/10 additions is estimated at this time. Once the equipment is acquired, it is probable that an analysis of the actual inventory will result in a reduction in this amount.

The anticipated increase in the FY 2011/12 and subsequent year's budget request due to the acquisition of additional multifunction devices as the remaining current inventory leaves service is not currently factored into this request due to lack of historical usage information.

Notes:

It is anticipated that leases for 30 new Multi-Function Devices will be initiated in FY 2010/11, at an average annual lease cost of \$3,000 per year. These devices will be used to efficiently replace existing copiers, printers, scanners, and fax machines as they leave service. The new devices will be placed in such a manner as to provide document services in the most cost effective manner, and will not replace existing inventory on a one-to-one basis. The average annual cost of the multifunction devices includes a fixed cost lease (above), as well as maintenance, toner, paper, and other ancillary costs. The "per page" cost estimate is included in the operating supplies. This will result in a significant reduction in the total cost of ownership from the current inventory of separate copiers, printers, scanners, and fax machines.

The average cost of a MFD is estimated at this time. Once the FY 2009/10 acquisitions are completed, it is probable that an analysis of the average cost of the inventory will result in a reduction of the average cost per machine.

The leases for the units being replaced in FY 2010/11 predominately expire during the third quarter. Accordingly, only a half year lease for the replacement equipment is budgeted for FY 2010/11. The full annual cost of the lease begins in FY 2011/12.

The anticipated increase in the FY 2011/12 and subsequent year's budget request due to the acquisition of additional multifunction devices as the remaining current inventory leaves service is not currently factored into this request due to lack of historical usage information.

Thirty of the leases, with an annual cost of \$28,289.59, expire during FY 2009/10, leaving 123 leased printers with an annual cost of \$97,508.78 on lease during FY 2010/11. During FY 2010/11, an additional 52 leases, with an annual cost of \$47,506.47, expire, leaving 71 leased printers with an annual cost of \$50,002.31 on lease for FY 2011/12. The remaining leases expire in FY 2011/12.

Plotters / Large Format Printers Notes: County-wide

There are currently 15 Plotters / Large Format Printers on lease throughout the County, with an annual lease cost of \$44,142.39. Two of the leases expire during the current fiscal year, leaving 13 Plotters / Large Format Printers with an annual lease cost of \$36,502.80 on lease for FY 2010/11. During FY 2010/11, an additional 5 Plotters / Large Format Printers, with a annual lease cost of \$16,207.72, go off lease, leaving 8 Plotters / Large Format Printers with an annual lease cost of 20,295.08 on lease for FY 2011/12. During FY 2011/12, the remaining Plotters / Large Format Printers go off lease.

It is anticipated that a reduction in Plotters / Large Format Printers from 15 to 8 will be possible during the next several years when moving to the multifunction devices. However, the timing of the reduction in units is difficult to determine at this point. Therefore, the annual budget for plotters includes replacement of existing plotters as the lease expires at the current lease rates.

The conversion from existing Plotters / Large Format Printers to Large Format Multi-Function Devices will also result in reducing the current high cost consumables (toner, etc.) for the existing devices which are scattered throughout the County in various Departmental budgets.

Previously, the County has replaced its inventory of Self-Service Copiers upon failure, at an estimated cost of approximately \$50K - \$60K per year. As part of the transition to Multi-Function Devices, the County will no longer be acquiring Self-Service Copiers. Instead, the County will need to maintain the existing inventory of Self-Service Copiers over the short run until they are transitioned

It is estimated that the cost of maintaining that portion of the County's inventory of Self Service Copiers will be approximately \$18K for FY 2010/11, and drop precipitously as the transition is completed.

Multi-Function Devices 1 61,516 61,516 61,516 61,516 61,516

Notes: It is anticipated that there will be 52 Multi-Function Devices (MFD) placed into County service by the end of FY 2010/11, of which 22 will have been placed into service during FY 2009/10.

Based upon historical records, it is anticipated that each MFD will print 29,000 black and white copies/prints and 12,000 color copies/prints per year. The cost of a black and while copy/print is \$0.008075/each, while the cost of a color copy/print is \$0.079/each, for a total annual cost of approximately \$1,183 per MFD. However, the historical usage patterns may change as behavior patterns change. The close proximity to easy conversion of documents to Adobe Acrobat and other electronic formats, as well as easy electronic distribution of documents, should result in lower costs as County staff prints less and works paperlessly. However, it is impossible to estimate the net amount of such reductions, nor the timing of the behavioral changes.

The annual budget of \$61,516 is based upon a full year usage of the new MFDs. Depending upon the timing of the transition from separate copiers, printers, scanners, and fax machines, it is possible that the actual expenditures could be significantly reduced for FY 2010/11.

The cost for repairs and maintenance of the MFDs, as installed, will be offset by a significant reduction in individual Departmental budgets for Office Supplies as the individual Departments will no longer need to purchase toner separately for each printer.

Notes:

The County is self-insured for losses related to property, automobile liability, errors and ommissions, workers compensation claims, and other general liabilities. Therefore, the County pays the claims in full (reimbursed for certain losses above set thresholds of stop loss insurance policies).

FY11 budget for claims to be paid during the fiscal year is based on the Actuarial Report dated 11/16/2009, which states on page 11 that with 85% confidence, expected loss payout during FY10/11 will be \$2,778,073 (plus \$84,083 for Sheriff's Workers Comp Claims that were filed during the time period the Sheriff was covered by the County's plan).

The total expected payout of \$2,862,156 are budgeted within two funds:

\$1,222,352 Property/Liability Fund 1,639,804 Workers Comp Fund

The funding is split out according to Exhibit 1.2.1 of the Actuarial Report, which reflects 44% of the Expected Loss Payments (for BCC claims at the 52% Confidence Level) will be Property/Liability related, and the rest for Workers Compensation.

Notes:

Insurance policy to cover the County for excessive workers compensation claims. Insurance policy for 2010 limits the County's liability to \$200K for workers compensation claims.

Actual cost for insurance policy has been as follows:

2008 \$269K 2009 \$195K 2010 \$148K

The FY11 budget request is for \$150K. Should market conditions result in a higher premium cost for insurance, a budget amendment from reserves will be submitted at the same time the new policy is proposed.

Workers Compensation Administration Fund. This fee essentially has an insurance benefit, whereby the County is entitled to reimbursements in certain situations to protect employers from excess liability related to employees that becomes disabled and are unable to return to the regular employment.

The actual annual fees have been as follows:

FY08 \$114K FY09 \$ 93K FY10 \$ 80K

The FY11 budget request at this time is for \$81K. The State is required to notify the County by 7/1 of the amount for the following fiscal year's fee.

Notes:

The County is self-insured for losses related to property, automobile liability, errors and ommissions, workers compensation claims, and other general liabilities. Therefore, the County pays the claims in full (reimbursed for certain losses above set thresholds of stop loss insurance policies).

FY11 budget for claims to be paid during the fiscal year is based on the Actuarial Report dated 11/16/2009, which states on page 11 that with 85% confidence, expected loss payout during FY10/11 will be \$2,778,073 (plus \$84,083 for Sheriff's Workers Comp Claims that were filed during the time period the Sheriff was covered by the County's plan).

The total expected payout of \$2,862,156 are budgeted within two funds:

\$1,222,352 Property/Liability Fund 1,639,804 Workers Comp Fund

The funding is split out according to Exhibit 1.2.1 of the Actuarial Report, which reflects 44% of the Expected Loss Payments (for BCC claims at the 52% Confidence Level) will be Property/Liability related, and the rest for Workers Compensation.

Stop Loss Insurance Policy 718,000 718,000 718,000 718,000 718,000

Stop Loss Insurance is to protect the County from losses resulting from large medical claims. The current insurance policy provides Notes:

for reimbursement for claims over \$200K.

No prior year expenditures were incurred for this insurance, due to the County not being self-insured until 1/1/2010. The current year's premium for stop loss insurance on medical claims is \$42.17 per month for each enrolled "employee". There are approximately 1,418 enrolled "employees", including those in Tax Collector, Supervisor of Elections, Port Authority, and retirees/COBRA participants.

The FY11 budget request is \$718,000 and is based on current premium rates and enrollment. Should premium rates or enrollment change substantially in 2011, a budget adjustment will be prepared with the proposed new insurance policy.

For HR Division Manager; (2) Program Managers II/HR Generalists; Recruitment Program Manager; Compensation/HR Systems Coordinator. Members of the Employers Association of Florida, Inc. have access to a wide range of human resource benefits and support services including FREE publications & services when compared to the average market rate you would have to pay if obtained individually. EAF is our only connection to valid salary survey data for the private sector. Benefits the County by providing a connection to what the private sector is doing, both regionally and nationally. Our HR certification continuing credits can also be obtained by participating in their trainings at a reduced fee if we are members. Annual salary survey is a good barometer of what companies are paying and providing in terms of benefits packages. FY0910 EAF - Employers Association of Florida is financed by membership dues. Dues are \$2.50 per year, per employee, and are computed by counting the average number of employees (1287) during the past 12 months (\$3,218). Maximum memberhsip cost is \$1,500.

Membership: Florida Public Personnel Association

Florida Public Personnel Association (FPPA) PUBLIC SECTOR CONNECTION: Benefits the County by providing an avenue (we can email the entire state) to solicit feedback regarding what other agencies are doing and/or providing employees relative to multiple HR facets (wages, benefits, structure, positions, software, etc.) Members have the opportunity to interact with others in the

125

profession for the purpose of sharing information. They receive a newsletter with up-to-date information on what is happening in the field, notices of regional training seminars, and are provided an opportunity to attend a yearly training conference. The FPPA website is provided at no charge to members as a valuable information resource. FPPA also provides access to Florida's largest

public-sector salary and benefits surveys for its members.

41% of members are from city governments and 41% are from county governments.

Notes:

According to Florida Supreme Court Order AOSC08-23, Mediation Volunteers are required to complete a minumum of 16 hours of Continuing Mediator Education (CMEs) in order to be certified.

Annual Training programs are set up to meet these requirements. hese annual training programs for the volunteer mediators are one (1) day continuing education workshops. Each mediator receives 8-10 CME credits hours for participation in these workshops. The registration fee for the training event is graciously absorbed by the county for our volunteer mediators at a rate of \$169.00 per person. We currently have 11 certified volunteer mediators and one staff member who attends this workshop. The volunteer mediators do not request reimbursement for travel to and from this conference they merely request the cost of the registration fee be paid by the county.

FY11 Budget request is for \$2,028 (12 x \$169)

Guardian Ad Litem Volunteers deserve recognition for the valuable service they are providing to the children that are neglected, abused, or abandoned. Pencils and pens are a small token of appreciation and are items they can use while conducting GAL activities, in lieu of financial compensation. These items are reserved for special occasions such as upon being certified, at yearly recognition functions, GAL anniversary dates, etc.

Educational materials such as tapes of conference trainings and current books on child abuse are important tools to guide and assist GAL volunteers in their advocacy. Volunteers are required to obtain 6 hours per year of in-service training to maintain GAL certification. GAL's access these educational materials maintained in the GAL Office to fulfill that in-service requirement.

FY11 budget request is to obtain tapes and other literature available at the Dependency Court Improvement Summit for the library.

Notes:

Pursuant to Florida Statute 29.008 (3)(a), the Legal Aid Program is a local requirement that must be funded by the Board of County Commissioners' General Fund. The Legal Aid Program provides free legal services to those that meet certain criteria. Provision of these services is through a contractual committment with the Seminole County Legal Aid Society (private company).

While annual funding to the Legal Aid Program had increased 1.5% each year for statuatory provision, HB 5003 exempted the County from the increase and requires maintaining current funding.

Aid to the Fred R Wilson Memorial Law Library 131,250 131,250 131,250 131,250 Persuant to FS 939.185, the County is required to provide funding for the personnel and legal materials of a law library. Actual

expenditures in the past have been to the Fred R Wilson Memorial Law Library for 2 positions and various books/publications and have totaled the followed:

\$ 137K FY 07 \$140K FY 08 \$136K FY 09

As of 5/27/10, \$131,250 is budgeted for this revenue (00100.348923) in FY11, and thus is appropriated to funding the Law Library's expenditures.

Law Library is supported by 25% of the \$65 additional court cost revenue. Revenues received in FY09 totaled \$143K, thereby fully funding expenditures.

Unit 087002.

Deposit Interest 200,000 200,000 200,000 200.000 200,000

Customer accounts receive interest annually consistent with BCC policy. The rate equals our average earning rates and is provided Notes: by County Finance. Accruals for estimated loss on doubtful accounts are made annually at year end.

FY 07-08 Actual Amount: \$6.603 FY 08-09 Actual Amount: \$15,964 FY 09-10 Budget Amount: \$ 6,000 FY 10-11 Proposed Budget: \$16,000

The annual estimate of this expense is made after the year closes by comparing our charged receivables older than 90 days with the remainder of the balances owed the County. Current economic conditions indicate 2011 likely will be comparable. Interest expenses

on utility accounts will be about \$16,000.

|--|--|--|

s: Costs associated to the annual Unidirectional Flushing Program (UDF) to improve water quality and distribution reliability. Conducting a comprehensive and systematic water line flushing effortwill protect and enhance the quality and safety of our drinking water. The goal of this program is to ensure water quality is maintained at its optimal level and to properly maintain the County's water distribution lines. Flushing is a process by which water is moved through a water pipe at a high velocity so that a scouring action is

created. This process will also enable improved locations of valves and locations of lines in our water distribution system.

	Expenditures

Notes: Costs associated with the Tokay software maintenance agreement to track the Backflow Prevention Program.

FY 07-08 Actual Amount: \$ 940 FY 08-09 Actual Amount: \$ 940 FY 09-10 Budget Amount: \$1,000 FY 10-11 Proposed Budget: \$ 940

This line item was reduced to be in alignment with actual costs.

Distribution System Repairs 1 112.000 112.000 112.000 112.000 112.000

Notes: Costs associated with repairs to water mains, meters and appurtenances must be completed in a timely manner as per Florida

Statute 62-555.350 and for public health and safety. Leaks at meters and water main breaks cannot be predicted.

FY 07-08 Actual Amount: \$0
FY 08-09 Actual Amount: \$412,000
FY 09-10 Budget Amount: \$212,000
FY 10-11 Proposed Budget: \$112,000

Due to the nature of the utilities this account line could increase or decrease based on the need. This is a very conservative estimate

of what is anticipated for FY'10/11 for repairs.

General Plant Repairs 1 280,000 280,000 280,000 280,000 280,000 280,000

#### 087810 530521 Operating Supplies - Equipment

Camera Equipment Replacement 8,200 0 0 3 ES-Rep EQ

Equipment used to camera the wastewater laterals to identify what the problem is and who is responsible for the repair.

Replacement of these 3 pieces of equipment \$2,733 each allows the County to provide the customer a record of the issue and support to our Risk Management Office on claims by customers.

The Division is going to reuse the cables and camera's, but need to replace the monitor, DVD recorder, battlery and charger. Equipment allows for a structured approach to the repair with a safer environment to staff. This process identifies the exact location and issue prior to excavation. If not replaced this would not allow for expeditious repairs effecting customers and would require additional overtime to complete the repair.

These repairs are necessary and falls under the FDEP Regulations Chapter 62-604.

Costs associated with educational supplies that promote conservation that are given out at homeowner association meetings, landscaping classes, Master Gardener's presentations, other civic organizations and churches as well as community festivals and educational events. The proposed amount also covers the cost of drought tolerant plants and gardening supplies for the water conservation gardens. The types of items purchased are usable items for our customers such as low flow bathroom faucet aerators, kitchen faucet aerator (the aerators cut water flow up to 50%), toilet tummy's (used to displace water in the toilet for better efficiency-this product saves hundreds of gallons per person per year). Also, low flow showerheads (help with both water & energy you use to heat it, these showerheads have a full force shower while you save water & cut your electric bill), shower timers (parents love these for helping their children to take faster showers), gauges, flappers, leak detection tablets (when a toilet leaks water it can easily waste hundreds of gallons of water each day), water conservation kits (that include several of the above items together with literature).

Enhancements

Notes: Enhancements can range from \$1,000 to \$6,000. Growth Management is requesting \$5,000

Growth Management has been making programming adjustments which allows the department to keep pace with processes. Some changes have already been made in the Naviline System for reporting to bring the current system up to a level of services and ability that existed in the prior system. Other reporting enhancements will need to be made as needed due to state changes in revenue reporting. The following divisions use the Naviline system. The Planning & Zoning and Development Inspection Program, as well as the Business Office. Applications that need enhancements are Impact Fees and Planning & Zoning.

Issues have been identified that will require changes in the system such as the Land Development File, etc,

This programming cannot be done by County Programmers due to HTE canned programs need to be changed and there are

proprietary issues.

processes would require to keep up the level of service and the ability to keep our system current. This is for the Building Division

Scanning 35 000 35 000 35 000 35.000

The Building Division is responsible for maintaining and providing historical information to the general public, elected officials and other staff members on a daily basis. Many records are currently kept in the County Services building for easy retrieval. Records such as building permits are scanned and saved on the server for easy retrieval by staff during the inspection process and until the

final of the building. This allows building inspectors to access the building construction plans via laptop computers while in the field 110404 530340 Contracted Services 44,000

**Event Sponsorships** 130.000 130 000 130.000 130.000

TDC Grants to be awarded to multi-day events that generate room nights and revenue for Seminole County. This procedure, approved by State Statue, gives Seminole County an opportunity to be at a competitive advantage with other Counties and Cities in attracting sporting events to our County. Event organizers can apply to the TDC for funding to help in the marketing of their event, and are required to meet approved hotel occupancy requirements to obtain the funding. This funding is vital and by increasing it , more events can be sought after to bring their event/tournament to Seminole County.

Currently the \$105,000 we spent on event sponsorship in FY 09/10 generated approximately 6,500 room nights yielding a total approximate hotel impact of over \$575,000 and generating over 6 million dollars in total direct economic impact. If we increase the sponsorship amount by \$25,000 dollars we are projecting to increase our room nights to 8,500 room nights and generating close to a \$675,500 total hotel impact and expect to generate close to 7.5 million dollars in total direct economic impact.

Deputy Sheriff Agreement 14,750 14.750 14.750 14.750 14,750

The Northwest Branch has a Deputy Sheriff on duty, as the situation at the Northwest Branch is unique; it is located between the Greenwood Lakes Middle School and Lake Mary High School and consequently is heavily impacted by hundreds of students who visit the branch per week or are picked up by their parents in the crowded parking lot immediately after school. The Sheriff's Deputy detail provides a necessary security presence 13 hours weekly, during after-school hours only .

Prior to the Deputy patrolling the Branch there were approximately 37 Incidents, 9 student trespasses and 60 complaints a year. With the presence of the Deputy these numbers have gone down dramatically.

Without the presence of a Deputy Sheriff the number of incidents would increase again.

Training Institute, University of Missouri. The NCIS was developed in 1990 due to a lack of, on a national level, animal cruelty investigation training, and is the premier program for animal cruelty investigation training. The NCIS offers three training levels that can be taken in any order. Each training level is five days (40 hours). Training is held at various sites throughout the country. Funding is requested to send one certified Animal Services Officer to one training class. At the time of budget preparation it is not known if this training will be effected in Florida in 2010 through 2011. Approximate Airford 5600. Approximate Ledging 5600.

 Notes:
 Printing - External printing budget was reduced by one half for FY07/08 and FY08/09. However, the reduction was too much and

additional funding is required. Expenditure for printed material the Copy Center cannot produce. Examples include: pet license envelopes, numbered accounting forms, numbered citation forms.

Notes:

Mileage is required by Probation Officers to meet division contact standards with probationers under supervision to verify residence (living conditions), employment (financial status) and compliance of special court-ordered conditions. Further, Probation Officers attempt to make field contacts to deter continued criminal activity. Four staff members use their personal vehicles daily, and the other 21.5 staff members usage ranges from several times a week to occasional.

In FY 06/07, total personal vehicle use was 9,144.67 miles @ .485 per mile, approximately \$4,435.17 was reimbursed.

With three rate increases by IRS, from .485 to .505 to .585 per mile, in FY 07/08, the total personal vehicle use was 7,280 miles. In FY 07/08, approximately \$3,826.00 was reimbursed, representing a 20% decrease in one year.

FY 08/09, total personal vehicle use = 5,096 miles @ .585 per mile – approx \$3,044 reimbursed, a reduction of 27% from the previous year.

In 09/10, the reduction trend will continue, with a projected reimbursement of \$2,200.

There are several factors which have contributed to this decrease. Reengineering within the Probation Division which began in December, 2008, reassigned personnel and tasking to increase efficiencies and effectiveness. Reassignment of personnel supervising probationers, clients on Pretrial Diversion and on Pretrial Release with electronic monitoring (EMPACT) reduced the number of probation officers supervising probationers, increasing average caseload sizes. Rapid Response was created, allowing timely response and intervention in the field for probationers posing greater risk to themselves or the public. Officers use POV's less frequently due to the availability of 5 county vehicles assigned to the division for official business travel requirements. Additionally, probation officers participate several times each year in confidential operations with law enforcement personnel, utilizing the LEO-assigned vehicles. EMPACT officers perform ride-alongs with the Sheriff's Office Fugitive Unit to enforce EMPACT conditions, to decrease violations and to enhance public safety.

Variance: BENEFITS:

- PROCESSING CREDIT CARD PAYMENTS AT THE WINDOW IS EASIER AND FASTER THAN A MONEY ORDER. Credit Card processing efficiency is much greater- takes 30 seconds whereas money order processing takes 1 & ½ minutes per client. We can process three credit card payments in the same time, on average, as one money order payment. Two support staff persons each currently spend about one hour per day processing payments at the windows. That time would be sharply reduced if credit card transactions increased, allowing them more time to spend on other tasking.
- PROCESSING CREDIT CARD PAYMENTS: Daily settlement report from PayPal shows total money deposited daily. This report gives an exact amount credit to our account daily. When credit card transactions are input into café weekly, processing time taken to tabulate total deposited for the week and reporting to BOCC is much less than money orders. Money orders have to be counted with a calculator tape and checked twice to make sure money order collected and deposited are accurate.
- CREDIT CARD TRANSACTION RECEIPT: Credit card receipt given to the client gives an accurate amount collected. When a money order is collected, the amount entered could be incorrect and a receipt for the wrong amount or money order # could be given to the client.
- CREDIT CARD TRANSACTIONS ARE CLEARER: Café case nos and names are clearly printed on the credit card receipts. Time taken to input money in café cases is much faster than a money order. Case nos and Defendant's name may not be written clearly on the money order, making it difficult to read for processing.
- REFUNDS/VOID: When a defendant brings in a money order with an incorrect amount and it results in overpayment, money order has to be receipted, deposited @ window, acct sends a memo to County finance, and County Finance then sends a check to the def which can take two to three weeks. When a defendant comes in to make a credit card payment, amount owed can be checked in café and the exact amount can be paid. If defendant has overpaid, the credit card transaction can be made void immediately.
- The reports in Pay Pal are very user friendly. Pay Pal gives access to different reports from weekly, monthly, daily, delayed capture and Void. With the automatic transaction ID #, you have instant access to money collected and can search in Pay Pal using that transaction ID#.
- When a defendant brings in one money order for \$63.95 for cos and csi. This money order has to be deposited in cos account line. A memo has to be sent to the county finance to transfer \$3.95 to csi. An adjustment entry has to be made in the accounting section and a narrative made that the transfer has been made. When paying with a credit card, the exact amount can be collected for the fees owed.
- CREDIT CARD AMOUNTS COLLECTED SPECIFY AMOUNTS COLLECTED FOR EACH ACCOUNTLINE:
  For e.g.: COS PRob \$60 and CSI \$3.95. Money orders have to be checked with cases and narratives to make sure money goes to the correct account line. A credit card receipt specifies the amount collected for each account line.
- Credit Card transactions allow clients the ability to make required payments to satisfy court-ordered obligations even in tough
  financial times. The possibility of additional court sanctions which could be imposed for failure to pay becomes a non-issue if credit
  cards may be used for required payments.

CREDIT CARD IS A MORE CONVENIENT METHOD OF PAYMENT FOR THE DEFENDANTS

Notes:

Approximately 29% of our monthly Probation Cost of Supervision (COS), Pretrial Diversion COS, Pretrial Diversion Community Service Buyout, Community Service Insurance and Immobilization payments are made by Visa/MasterCard. A review of transaction fees over the last three years shows about a 20% increase in monthly credit card transaction fees since 2007.

This fund is for the 1/4ly exposures report submitted for the supplemental medical insurance policy – Accidental Death & Dismemberment per Administrative order 94-28-S. This expenditure is budget neutral due to fees collected by sentenced offenders on Probation, Pretrial Diversion, PAY/Juvenile Diversion and also for non-sentenced clients such as those wanting to pay off traffic

The Certified Residential Appraiser for ROW is required to do real estate appraisals for acquisition purposes for Seminole County. This requires an Appraiser License. Membership in the Orlando Regionals Realtor Association (ORRA) and Multiple Listing Service (MLS) is required to access the records found in MLS. The MLS has very informative data as part of the listing including days on the market, listing agent, broker, details concerning the propery listed including sold date, broker information, seller information (contacts that were part of the sale and would have information about the sale which is required).

In a publication dated Spring 2007 from the Department of Business & Profession Regulation (DBPR), the Florida Real Estate Appraisal Board (FREAB) and Alert by Francois K. Gregoire, Chair, FREAB, in part reads:

"Appraisers must closely examine the history of the property in the MLS to not only meet their obligations under Uniform Standards for Uniform Standards of Professional Practive (USPAP), rules 1 through 5, but also to comply with Florida Law..."
