MESSAGE

# From the Fire Chief

To The Citizens and Businesses of Seminole County:

Seminole County Fire Department, from its inception in 1974, has grown to an all hazards fire department that provides emergency services for unincorporated Seminole County and the cities of Altamonte Springs, Casselberry and Winter Springs, serving a population of over 333,000.

In 2018, nearly 70,000 training hours were completed at the Fire-EMS Training Center by our firefighters. We provide continuous training annually as it is a vital part of their job that prepares them to handle a variety of emergency situations. In addition to training our own firefighters, we also provided National Fire Academy state and local level courses to firefighters throughout the state and country.

The Department's emergency personnel were deployed through the State of Florida emergency response system to assist with Hurricane Florence in the Carolinas and Hurricane Michael in the Panhandle. Crews were deployed as members of engine strike teams and ambulance teams. In addition, as part of Central Florida's Urban Search and Rescue Task Force 4, members were deployed by FEMA to also assist with the devastating hurricanes.

The Community Outreach Office trained 3,201 high school students and nearly 11,000 residents hands-only CPR and AED training. Additionally, they installed 457 smoke alarms in over 260 homes and participated in numerous other educational activities. They made an astounding 256,182 contacts throughout the year.

The Emergency Communications Center handled over 70,489 calls for service and our fire units responded to 41,491 emergency incidents resulting in 20,984 EMS transports and over 47 million dollars of property saved on structure fire responses.

The Seminole County Fire Department's staff, along with the Information Services Department, continued the process of developing a new Computer Aided Dispatch (CAD) system. This CAD/Mobile system is the principal application utilized by all Seminole County Fire/EMS departments through the Emergency Communications Center. The CAD/Mobile system connects all relevant public safety technology systems including 9-1-1, radio, mapping, mobile data computers, records management and other systems.

SEMINOLE COUNTY FIRE CHIEFS PAST & PRESENT:  
GARY KAISER, TERRY SCHENK, LEEANNA MIMS &  
MARK OAKES

the citizens and businesses of Seminole County for their ongoing support. The alliance of the community working together to assist each other in times of need is to be commended and is appreciated by our entire staff.

Mark W. Oakes  
Fire Chief

## Mission

5 Minute Response Time | Trained Personnel  
Adequate Resources | Constant Prevention  
Go Home Safe

## Creed

Honor Those You Work For.  
Respect Those You Work With.  
Serve Those Who Work For You.

## Purpose

Ready to Respond.  
Willing To Care.  
Trained To Make A Difference.

April 24, 2019

Greetings from the Seminole County EMS Medical Directors,

Every year we have the opportunity to relate to you the activities of the medical directors, Seminole County EMS and emphasize the importance of how well the system works because of the support of the County commission and its constituents. Please see the paragraphs below for that information. What we have not talked about in the past is how the EMS medical directors get involved in a variety of other medically related problems in the community simply by virtue of our position but also because of our interest in healthcare. For the last several years we have been intimately involved with the problems and solutions in the opioid epidemic. We have worked with law enforcement, the health department and even the County commission itself in looking for solutions. As always is true in medicine, the best solution is prevention, but we are adding education and treatment. We also have been on the forefront of utilizing specially trained paramedic, known as Community Paramedics to work with our hospitals in providing follow-up care in patient's homes. This is to try to assure that patients with chronic medical problems stay as healthy as possible and hopefully stay out of the hospital. They have been so successful that we are adding more community paramedics. The medical director's would like to acknowledge the local hospitals and Florida Blue for their financial backing of these projects.

The county and the municipalities along with their Fire Chiefs have chosen and promote EMS medical direction that includes having small, face-to-face meetings with all fire department personnel. We conduct 6 to 8 meetings per month which means we see everyone, once a quarter. The meetings are part quality assurance, part training and part open discussion. Through the review of actual EMS calls, we find questions, confusions and problems with our protocols. Everyone in the system looks at these as opportunities to improve. Our findings become part of the next quarter's medical director meetings.

Although what I said in the above paragraph may not look like much, in practice it is phenomenal. We, all of us, are constantly and actively improving the system. Our protocols constantly expand. The training for those new protocols is part of the process. Seminole County EMS/Fire/Rescue is recognized statewide as having some of the most advanced protocols that provide an exceptionally high level of care before our patients reach the hospital.

But our advanced protocols would not work if it were not for the EMTs and Paramedics that are dedicated to learning more, taking on more responsibility and providing the highest level of pre-hospital care. Yes, the medical direction team of Mitch Maulfair, DO, Mark Wechsler, PA, Stan Haimes, MD and myself is important. Protocols are important. But the secret sauce is dedicated personnel. They are the ones that really make this work. Seminole County is fortunate, very fortunate, to have EMTs and Paramedics that are always willing to step it up a notch. The medical direction team is fortunate to be able to work with such a talented and dedicated group. It makes our jobs much easier and very rewarding.

Sincerely,

Todd M Husty, DO

3040 S Tuskawilla Rd, Oviedo, FL 32765 407-679-6794 (office) 407-679-3554 (fax)

# Planning & Analytics Information Technology & Communications

## Emergency Communications

**Major Project:** Computer Aided Dispatch - Design and Development

This Division manages:

- Centralized First Response Emergency Dispatching (All Fire Departments within Seminole County)
  - Emergency Medical Dispatch (EMD)
  - Emergency Fire Dispatch (EFS)
- Non-emergency calls
- After Hours Calls – Animal Services, Public Works, Environmental, Fleet and Facilities

### Analytics – NFPA Requirements

- Analyzes Data for Reports
- Maps
- Pre-Incident Planning
- Compliance
  - National Fire Protection Association Standards
  - NFIRS
- Insurance Service Organization (ISO)

# Fire Support

## **FIRE STATION 29 | 2300 Via Loma Drive, Oviedo**

### **SERVICE AREA:**

S.R. 417 and Aloma Avenue corridor.

### **NUMBER OF STAFF MANNING STATION:**

Five Firefighters per day. Three (3) person Engine Company and Two (2) person Rescue Company. Units are fully equipped with Advanced Life Support capable equipment and personnel.

### **NUMBER OF VEHICLES/APPARATUS AT STATION:**

One (1) Engine Company and One (1) Rescue Transport Unit.

### **INNOVATIVE TECHNOLOGIES INCORPORATED:**

State of the art design with efficiencies incorporated to significantly reduce long term maintenance cost such as metal roofing, polished concrete flooring, hurricane rated constructed building, window and bay door systems, onsite emergency generator and fueling system for public safety use during loss of power.

### **CONSTRUCTION COST:**

\$3,782,027

### **WHAT WILL THIS FIRE STATION PROVIDE?**

The addition of FS 29 and Engine and Rescue 29 will enhance overall emergency operations and response time for Seminole County citizens in the area. In addition, the additional coverage will weigh in the overall calculation in ISO and will help SCFD strive for ISO 1 goal.

### **HOW MANY FIRE STATIONS WILL SCFD HAVE UPON COMPLETION?**

20 Fire Stations

### **OPEN FOR SERVICE:**

November 2018

This Division manages:

- Facilities
- Fleet
- Logistical Warehouse
- Capital Project Management

### **FIRE STATION 29 RIBBON CUTTING - DECEMBER 13, 2018**

**Square Footage** – 9,856

**Furnishings** - \$110,356

**Total Anticipated Project Cost** - \$3,892,383

**New Engine** - \$655,000

**Staff** - 12 Full Time Employees

# Professional Standards and Training

Station 42	3,170
Station 43	3,381
Station 65	503

Annual trails training! This year, training was held at the Little Econ East as it was high and dry, for a change. The training enables the crews to access areas not usually accessible throughout the year due to the high water levels. All three shifts participated and the training/trails familiarization was well received by all.

Class  
1801

69,812 Hours of Training

### TRAINING HOURS BY CATEGORY

**Driver/Operator Training** – 6,961 hours

**EMS Training** – 11,110 hours

**Firefighter Training** – 15,757 hours

**Hazardous Materials Training** – 3,734 hours

**Officer Training** – 10,555 hours

**Recruit Training** – 19,680 hours

**Training Drills** – 2,015 hours

Class 1802

Fire Department training involves multiple classes held throughout the year.

## 2018 Training Highlights

**JAN** | SCSO Swat and EOD Training  
**FEB** | Orlando Sanford Airport Tri-Annual Drill  
**MAR** | Vehicle and Machinery Rescue  
**APR** | Class 1801- 18 New Firefighters

As Governor, I am grateful for you and your team's dedication to helping Florida families, visitors and businesses. I encourage you to continue nominating deserving individuals to receive the Governor's Medal of Heroism. My goal is to recognize our outstanding law enforcement officers, firefighters, emergency medical technicians, and paramedics who go above and beyond the call of duty. To learn more about nominating those who tirelessly protect and serve, please visit the "Info Center" on [www.FLGov.com](http://www.FLGov.com) and complete the Governor's Medal of Heroism Nomination Form. A form is enclosed for your convenience.

Again, thank you to the men and women of the Seminole County Fire Department for your hard work and dedication to keeping our communities safe for Florida families, businesses, and visitors.

Sincerely,

*[Signature]*  
Rick Scott  
Governor

Thank you! Mr. Shannon & Mr. Gabriel for a fantastic tour of your fire station! It was fun to see your equipment like the hats, jackets, masks, gloves and flashlights you use to fight fires!

My favorite part was sitting in the middle of the truck and pushing my toy fire truck back and forth with Mr. Gabriel!

Thank you again, and I hope when I'm a little bigger I can come back and see and learn even more about firefighting!

Connie and SCFD,  
Thank you so much for bringing a fire truck to our 7th Annual Stroll and Roll. Families were so excited to see you there and it was a definite hit. Next year's event is only going to be bigger and better. See you there!

Sanford, Florida 32773 7666

On April 28, 2018 the Council of Catholic Women of St. Mary Magdalen Catholic Church in Altamonte Springs, Florida presented a Program on Safety, Family Safety Day. The Program was designed to offer a program that would be beneficial to all generations. Our audience was the Community of Altamonte Springs and our neighborhood.

To make this a success we knew that it would require us gathering experts in the fields of Safety and partnering with our local Law Enforcement and Fire Departments, in addition those agencies, organization and businesses who dedicate their lives to Safety. Additionally, we needed advertisement and media support.

One of the Area's of Safety was Safety in Motion. Your online request format is very efficient and effective for those setting up Events, Thank You for that. The appearance and constant presence of your Fire Truck and Firemen was such a big draw. Those who talked with the Crew were so complimentary and awed by all you do for our community. Please thank your Crew for us.

You made this event a success and we are very grateful for you and your support.

Gratefully,  
Sandra Matsumi Chair and  
The Core Committee of CCW Family Safety Day

Mark Payne I would highly recommend signing up for the Seminole County Citizens Fire Academy. I went through the 10 week course, what a big eye opener on how amazing these individuals are & their is so much more to learn about Seminole county Fire & Rescue.

Winter Park Memorial Hospital is with others.  
Seminole County Fire Department and 2

Since starting our stroke program in 2017, our hospital has cared for 306 stroke patients! Thank you to our EMS partners for all your hard work and dedication to care for this community F.A.S.T!

Dear Chief Oakes:

Thank you so much for your presentation at the Palm Valley Coffee Hour on February 16, 2018.

Hearing updates on the newest SCFD station # 29 was very informative. It was a bonus for us to hear about new SCFD ladder truck and also the new OCFD station, near University and Rouse Road.

Palm Valley residents were delighted to meet Battalion Chief Marc Baumgard, Lieutenant PIO Paula Thompson and the squad from station 65, especially under non-emergency circumstances.

The service of Seminole County Fire Department to the community has been truly exemplary.

Thank you again and please see the enclosed pictures from that morning.

Sincerely,  
Jean Green

RE: Fire Station 27 - Red Bug Station - Team B

Dear Ms. Gullett:  
My sister and I had an incident at our house on Wednesday night, July 18th around 7:00pm. One of our cars started leaking a substantial amount of gas on the garage floor.

After rolling the car out of the garage and attempting to put out killy litter to absorb the gasoline, we realized that we didn't know how to dispose of it - and - had no idea how to clean the garage and make it safe enough to close the garage door that evening.

We called 911 and asked for non-emergency help and within three minutes we heard the trucks on the way! The team of fire fighters - Team B - arrived prepared to remedy the leak and at the same time provided us with valuable information. They spent at least 50 minutes draining the remaining gas from the car and spraying the garage down to ensure both were safe.

This team was full of valuable information regarding our situation - and - their kindness to go the extra mile to make sure everything safe and clean was more than appreciated.

We just wanted to let your office (and others) know about this special team and their efforts!

Sincerely

Janie Berkheimer  
JoAnne Wing
