

Effective 9/25/20

**Building Division**

## COVID-19 INSPECTION MODIFICATIONS

In an effort to try to maintain County services while protecting the health of our employees, the contractor's employees and the general public. The Building Division is making a temporary modification to our inspection procedures, in an effort to minimize the opportunities for person to person transmission of the virus.

We are temporarily allowing Final Inspections during the modification period to be completed by an affidavit from the Contractor for the following work.

- Plumbing Re-Pipe.
- Water Heater Replacements (like for like).
- Air Conditioning Replacements (like for like).
- Window and Door Replacements.
- Garage Door Replacements.
- Low Voltage for a Stand-alone Wired Security Alarm System.

**How it works:** During the modification period, you need to fill out the attached affidavit, **post original on site with the required permit card and approved plans and/or documentation** and call for your inspection as normal. Providing the affidavit is filled out and notarized correctly, we will pass the inspection in our system with the Note: "Inspected by contractor affidavit". As always, you can check the inspection results on our website.

**IMPORTANT NOTE:** This Temporary policy is in effect now through **October 31, 2020**. Since the COVID-19 outbreak is a very fluid situation, this policy will be re-assessed prior to October 31, 2020 and may be extended. Please keep up with the latest on our website.

Effective 9/25/20
