

FLOODS HAPPEN. SUDDENLY AND EVERYWHERE.

YOUR RISK COULD BE GREATER THAN YOU THINK.

It starts with a drop of water. Then builds into a destructive flow that buckles walls and floors, wrecks costly equipment, ruins furniture, and damages materials and supplies. Unless you have flood insurance, you are faced with only three choices: paying recovery costs out of your own pocket; taking out a loan, which puts additional debt on the business; or closing your doors and trying to start over.

Far too many businesses have to choose the third option. At least 25 percent of small businesses never reopen their doors following a disaster. And with floods, just a few inches of water can cause tens of thousands of dollars in damage. From 2010-2014, the average commercial flood claim was nearly \$89,000.

Commercial property insurance generally does not cover flood damage—only flood insurance can.
