

## INTERGOVERNMENTAL COORDINATION ELEMENT INTRODUCTION

The Intergovernmental Coordination Element of a comprehensive plan is required by Florida State law. This Element sets forth relationships, principles, and guidelines for coordination of plans of the County with, among others, the School Board of Seminole County, County municipalities, regional authorities, adjacent counties, and State agencies. Seminole County continues to engage in meaningful intergovernmental coordination efforts with municipalities and other agencies and levels of government. Without effective intergovernmental coordination, the goals, objectives and policies in the other elements may not be realized.

The Community Planning Act requires all comprehensive plans to be internally consistent and consistent with regional and State plans. i.e., local plans must be consistent with and further the Strategic Regional Policy Plan (SRPP); and must be consistent with and further the State Comprehensive Plan. Other applicable provisions of law related to intergovernmental coordination include Section 163.3171, (F.S.) which addresses joint agreements. The Seminole County Comprehensive Plan is consistent and compatible with the SRPP and the State Comprehensive Plan through shared policies and through its coordination mechanisms with the municipalities within Seminole County, adjacent counties and bordering municipalities, the School Board of Seminole County, and State, Federal, and other agencies, including independent governmental entities that have no regulatory authority over land.

The Comprehensive Plan Elements or program areas most concerned with intergovernmental issues include land use planning/joint planning and annexation agreements, including water and sewer agreements; coordination with the School Board of Seminole County; transportation planning and concurrency management/mobility strategy coordination with the Cities and the State; environmental, conservation and resource protection/mitigation; and stormwater/drainage issues.

The Intergovernmental Coordination Element's Goals, Objectives, and Policies section contains its own policies in addition to a summary of policies that originate from other Comprehensive Plan elements and which address coordination efforts. The number of policies from other elements is extensive, demonstrating coordination efforts documented or recommended concerning the topics of the individual elements. The County shall continue the existing intergovernmental coordination programs contained in this Comprehensive Plan.

To ensure that City-County coordination results in efficient provision of services and compatible land uses, Seminole County will continue existing coordination efforts. Previous steps taken include the following:

- In 1995, the County entered into an agreement with all Cities and the School Board of Seminole County that provides for conflict resolution and mediation measures among the jurisdictions in times of dispute.
- The County, the School Board and all Cities, except Longwood, entered into an Intergovernmental Planning Coordination Agreement in 1997 that assures notice to each entity for zoning and land use changes that may be of a multi-jurisdictional significance.
- In 2007/2008, the County, County Municipalities and the School Board of Seminole County enacted the 2007/2008 Interlocal Agreement for Public School Facility Planning and School Concurrency. In 2007, the County entered into an Interlocal Agreement for Public School Facility Planning and School Concurrency with the Seminole County School Board and the seven cities, as required by State Law. The 2007 Interlocal Agreement provided for: sharing of data on student enrollment, population projections and educational facilities plans; procedures for joint planning for selection of new school sites, remodeling and closures of schools; inclusion of school capital improvement program for school capacity within the

county and city Capital Improvement Elements in compliance with requirements then included in State Law; procedures for determining how services needed by a public school (such as sidewalks, roads, water or sewer) would be provided and a uniform Public School Concurrency process, as was required at that time by State Law. This 2007 Interlocal Agreement was subsequently amended in January 2008 to comply with the requirements of State Law at that time.

In addition, the County continues to encourage the pursuit of joint planning agreements or other coordination agreements, with the Cities in the County. The County intends to work diligently with the Cities and the School Board of Seminole County to improve intergovernmental coordination to ensure livable communities for the County’s residents for generations to come.

Various other coordination efforts are in place. Since the County’s urban area has been identified as a ‘Dense Urban Land Area’ (DULA) eligible to be designated as a Transportation Concurrency Exception Area (TCEA), the County has initiated and continued efforts to coordinate Mobility Strategies for the unincorporated portion of the TCEA with the Mobility Strategies of the cities located within the incorporated portion of the TCEA. In addition, the County continues ongoing efforts to coordinate its Mobility Strategy with those of Orange County and the City of Maitland.

Of particular interest are coordination efforts with many environmental interest groups, such as the Econlockhatchee River Work Group whose purpose is to share information concerning the lands in both the Big and Little Econ River Basins and a similar organization, the Wekiva River Work Group.

The County will continue to participate in regional transportation issues through its interlocal agreement with METROPLAN ORLANDO (the Metropolitan Planning Organization).

The following major activities relating to intergovernmental coordination have occurred since adoption of major Evaluation and Appraisal (EAR)-based amendments to the Seminole County Comprehensive Plan on May 8, 2001 and December 9, 2008:

**A. Interlocal Service Delivery Agreement Report**

In 2003, the County created the Interlocal Service Delivery Agreement Report (ISDAR), as required by Section 163.3177(6)(h), Florida Statutes, which identified all existing or proposed interlocal service-delivery agreement regarding:

1. Education;
2. Sanitary Sewer;
3. Public Safety;
4. Solid Waste;
5. Drainage;
6. Potable Water;
7. Parks and Recreation; and
8. Transportation Facilities

**B. Charter Amendment**

In 2004, Seminole County voters approved a referendum that established a Rural Area and a Rural Boundary in the Home Rule Charter through a map and a legal description. The Charter Amendment also required the County to add the map and legal description to the Seminole County Comprehensive Plan (see Exhibits FLU Rural Boundary Map and Rural Area Legal Description. The Charter Amendment stated that, for the legally described Rural Area as shown in the “Rural Boundary Map”, the Future Land Use designations contained in the Seminole County Comprehensive Plan shall control the density and intensity of

development. Additionally, the Board of County Commissioners must approve all changes to the Future Land Use designations regardless of whether any lands in the Rural Area are located within a municipality.

The City of Winter Springs adopted a comprehensive plan policy and ordinance that provides that the City will not process voluntary annexations east of the DeLeon Street right-of-way.

#### **C. Commuter Rail (SunRail)**

Following completion of the County's 2006 Evaluation and Appraisal Report (EAR), the Florida Department of Transportation (FDOT) announced funding for commuter rail to serve Seminole, Orange, Osceola and Volusia counties. The four stations serving Seminole County are located within the cities of Sanford, Lake Mary, Longwood and Altamonte Springs. Most land surrounding the stations is incorporated, but portions of land abutting the Sanford and Altamonte Springs stations are unincorporated. The Altamonte Springs land contains existing neighborhoods that desire to retain their character, but some land owners may be interested in redevelopment supportive of rail commuters. In addition, the stations themselves and their parking areas will be the responsibility of Seminole County, and may become locations acceptable for mixed use redevelopment efforts.

In 2010, as part of the County's Mobility Strategy (for a Transportation Concurrency Exception Area or TCEA) and the identification of an Energy Conservation Overlay (to comply with requirements of House Bill 697 of 2008 that were removed from Chapter 163, Part II, Florida Statutes in 2011), incentives to encourage phased redevelopment of a more energy-efficient and transit-ready compact mixed land use pattern were examined for areas within a ½ mile radius of each commuter rail station. Mobility strategy coordination with the cities will be a continuing process.

Consultants retained with the use of US Housing and Urban Development (HUD) Sustainable Cities grant funds during 2013-2014 further analyzed potential land use and multimodal mobility improvements around the SunRail stations located in the cities of Altamonte Springs and Sanford. Some of the recommendations for pedestrian improvements in the unincorporated neighborhoods abutting the Altamonte Springs SunRail station have already been included in the County's Capital Budget.

#### **D. Seminole Way**

A new 'target area' for potential higher wage jobs was identified by the Board of County Commissioners in 2007, and potential amendments to both text and the Exhibit FLU: Future Land Use Map to implement the new target area were examined during the 2008 Evaluation and Appraisal Report (EAR)-based amendment process. This new target area was the "Seminole Way", an area that runs north from State Road 426 in the City of Oviedo to Rinehart Road in the City of Lake Mary, following the State Road 417 "GreeneWay" Corridor. The intent of this target area is to connect to the similar "Innovation Way" in Orange County, fostering a regional corridor of higher paying employment. A variation of the County's High Intensity Planned Development (HIP) land use was considered.

#### **E. Continued Joint Planning for the US 17-92 Community Redevelopment Area**

As a part of Seminole County's 2008 Evaluation and Appraisal Report (EAR)-based amendments, intended to respond to the 2006 EAR, the County initiated meetings during 2007 and 2008 with cities that are participants in the US 17-92 Community Redevelopment Area (CRA), interested property owners and interested citizens on discussions about an administrative land use amendment for certain unincorporated portions of the CRA. The amendment, which was included within the County's 2008 EAR-based amendment package, changed certain properties previously designated as "Commercial" to "Mixed Development", where property owners desired this change.

During 2009 and 2010, this planning effort also initiated the update of the CRA Plan. The updated CRA Plan identified a set of strategies to be used by all CRA participants to ensure provision of services, including but not limited to: a coordinated approach to the provision of multi-modal mobility alternatives within a regional, unified Transportation Concurrency Exception Area (TCEA) identified as a mechanism of the redevelopment efforts of the cities and Seminole County; and the identification of providers of potable water and sanitary sewer service for those areas not currently served within the CRA corridor. The relevant portions of the updated CRA plan will serve as the basis for any additional necessary Interlocal Agreements among the cities and the County.

The policies within the Intergovernmental Coordination Element provide direction for Seminole County's intergovernmental coordination with Municipalities within the County, and with adjacent counties and their municipalities, as well as with authorities, independent special districts, utility companies, the School Board of Seminole County, and with State, Federal, and regional agencies. Each of the Elements of this Comprehensive Plan also addresses intergovernmental issues, where applicable.

## INTERGOVERNMENTAL COORDINATION ELEMENT ISSUES AND CONCERNS

### ISSUE IGC 1 INTERGOVERNMENTAL COORDINATION

One Major Issue addressed by the 2006 Seminole County Evaluation and Appraisal Report (EAR) was "Intergovernmental Coordination", and the need to both continue and improve coordination efforts. Due to rapid growth along City fringe areas, the desire of participants in the Central Florida Regional Growth Visioning process ("How Shall We Grow?") to guide growth to locations where it can best be served while preserving valued resources, rural and historic assets, and the need to maximize compatibility and meet infrastructure demands, Seminole County, its cities, and adjacent counties need to continue future planning efforts. These efforts are important for the creation of a good working relationship among all parties and the success of the Central Florida Regional Growth Vision.

In addition to Interlocal Agreements, Seminole County also engages in efforts to develop Joint Planning Agreements (JPAs) with its cities. JPAs have many purposes, including but not limited to: setting future annexation boundaries, ensuring compatible land uses at jurisdictional borders, providing for adequate services and facilities, and providing for a formal review process of land use actions. The County will continue to maintain its efforts to achieve agreements that will ensure land use compatibility and provision of vital services.

In 1997, the County, County municipalities and County School Board joined in an agreement to establish a framework for coordination, communication and notification of proposed land use actions, and to build cooperation between affected local governments and the School Board. This agreement also established the Joint Planning Technical Advisory Committee (PTAC) comprised of one County planner, one School Board planner and one City planner from each of the municipalities. As an advisory committee, the PTAC serves to enhance intergovernmental coordination of comprehensive plan programs and helps ensure consistency between these programs and issues of multi-jurisdictional concern.

Advance notification, shared information and development review coordination procedures with adjacent counties are sought by Seminole County, in order to ensure the implementation of the shared Central Florida Regional Growth Vision and to comply with the provisions of Florida Statutes.

In addition, the County also coordinates with State agencies such as the Florida Department of Transportation (FDOT), and the Department of Environmental Protection, among others, regarding land use, transportation, multimodal planning, surface water quality, and other issues.

The County recognizes the increasingly vital need to coordinate efforts with other governmental entities, to ensure compatibility of efforts, support the accomplishment of the Central Florida Regional Growth Vision, and ensure continued availability of vital services.

### ISSUE IGC 2 CENTRAL FLORIDA REGIONAL GROWTH VISION ("HOW SHALL WE GROW?")

In 2007, the Central Florida Joint Policy Framework Committee created a regional growth compact consisting of six (6) regional growth principles. These include:

- A. Preserving open space, recreational areas, farmland, water resources, and regionally significant natural areas;
- B. Providing a variety of transportation choices;
- C. Fostering distinct, attractive, and safe places to live;
- D. Encouraging a diverse, globally competitive economy;

- E. Creating a range of obtainable housing opportunities and choices; and
- F. Building communities with education, health care, and cultural amenities

These principles grew out of a visioning process conducted during 2006 and 2007. The process involved approximately 20,000 Central Florida residents who were asked to answer the question "How Shall We Grow?" through a series of community meetings, presentations and surveys. The product of this process, "The Central Florida Regional Growth Vision" (Growth Vision), represents a shared vision of the preferred method for directing the growth of the seven -county region that includes Seminole County, between 2007 and 2050. By 2050, the population of the region is expected to more than double from 3.5 million to 7.2 million residents, thus necessitating development of a guiding Vision.

Seminole County elected officials, residents and staff participated as members of oversight committees to the Growth Vision and the County is a signatory to the Central Florida Joint Policy Framework Committee Compact (Compact). Elected officials from Seminole County have served on the Myregion.org Board of Directors, the Regional Leadership Academy, the Regional Visioning Program Technical Committee, and currently on the Congress of Regional Leaders to promote the Central Florida Regional Growth Vision. Subsequent to signing the Compact, Seminole County revised its Comprehensive Plan (as part of the 2008 EAR-based amendments) to more clearly reflect and support the principles of the Compact. Seminole County will continue its involvement in development and implementation of the Central Florida Regional Growth Vision.

### **ISSUE IGC 3 EXISTING COORDINATION MECHANISMS WITH MUNICIPALITIES WITHIN SEMINOLE COUNTY AND ADJACENT COUNTIES AND MUNICIPALITIES**

Counties and cities adjacent to Seminole County include Brevard, Lake, Orange, and Volusia Counties, and the cities of Maitland and Winter Park. Municipalities within Seminole County include the cities of Altamonte Springs, Casselberry, Lake Mary, Longwood, Oviedo, Sanford, and Winter Springs.

Seminole County actively employs and seeks to employ numerous tools and strategies to address mutual goals of County Municipalities and adjacent counties and cities. The mutual goals include, but are not limited to, protecting established residential and rural areas, supporting the Central Florida Regional Growth Vision, promoting economic development, guiding new growth at appropriate densities/intensities, providing needed urban services, providing services to enhance the quality of life of its residents, providing recreational opportunities, addressing mobility issues, planning for beautification, and protection the natural environment. These strategies include, but are not limited to:

- A. Joint planning agreements;
- B. Water and sewer service utility agreements;
- C. Agreements for annexation of enclaves;
- D. Intergovernmental Planning Coordination Agreement;
- E. Agreements for fiber optics;
- F. Participation in METROPLAN ORLANDO;
- G. Mobility Strategy Planning; and
- H. Advanced notification, shared information and development review coordination between counties

#### **ISSUE IGC 4 EXISTING COORDINATION MECHANISMS WITH AUTHORITIES, INDEPENDENT SPECIAL DISTRICTS, UTILITY COMPANIES, AND THE SCHOOL BOARD OF SEMINOLE COUNTY**

Seminole County actively coordinates with authorities, independent special districts, utility companies and authorities such as the Central Florida Expressway Authority for roadway planning and improvements, Sanford Airport Authority related to development activities adjacent the airport, and Florida Power and Light Company, and Progress Energy to address installation of electrical substations and transmission lines within Seminole County. These strategies include, but are not limited to:

- A.** Information sharing;
- B.** Economic development activities;
- C.** Participation on various boards.

The County has also continued improving coordination with the School Board of Seminole County regarding review of school site plans for off-site impacts, land use compatibility, impacts on County services and infrastructure, and school concurrency. Coordination strategies include:

- A.** The Interlocal Agreement for Public School Facility Planning and School Concurrency, as required by Chapter 163, Florida Statutes;
- B.** Public School Facilities Element of the Comprehensive Plan;
- C.** Planners Technical Advisory Committee; and
- D.** Continued provision of each month's Development Review Committee and Local Land Planning Agency/Planning and Zoning Commission agenda, and staff reports, on any project that may increase residential density, to the School Board, both to solicit comments to be included in staff reports as a project is reviewed, and to provide information to the School Board representative to serve on the County's Land Planning Agency/Planning and Zoning Commission.

#### **ISSUE IGC 5 EXISTING COORDINATION WITH REGIONAL AGENCIES**

Seminole County actively coordinates with regional agencies such as the East Central Florida Regional Planning Council relating to review of proposed changes to existing developments of regional impact, METROPLAN ORLANDO for transportation planning and improvements, Central Florida Commuter Rail (SunRail) for commuter rail and station area issues, and the Central Florida Regional Transportation Authority (LYNX) regarding mass transit. These strategies include, but are not limited to:

- A.** Review and comment on comprehensive plan and regional plan amendments;
- B.** Discussion of funding requests submitted to the County and other funding mechanisms;
- C.** Participation on various boards; and
- D.** Information sharing.

**ISSUE IGC 6    EXISTING COORDINATION WITH STATE AND FEDERAL AGENCIES**

Seminole County actively coordinates with State and Federal agencies such as the US Department of Housing and Urban Development for the Community Development Block Grant program, Federal Emergency Management Agency regarding flood map, the Department of Transportation for transportation planning and improvements, and the St Johns River Water Management District for effective management of wetlands and groundwater resources.

These strategies include, but are not limited to:

- A.** Administration of Housing and Urban Development funding;
- B.** Administration of Federal Emergency Management Agency flood maps;
- C.** Review and comment on comprehensive plan amendments; and
- D.** Information sharing.

## INTERGOVERNMENTAL COORDINATION ELEMENT GOALS, OBJECTIVES AND POLICIES

### GOAL 1

The County shall ensure the effectiveness and efficiency of all governmental services and programs by fostering intergovernmental coordination between the county, its municipalities, adjacent counties and cities, utilities and quasi-public agencies, regional agencies, and State and Federal governments.

#### **OBJECTIVE IGC 1      COORDINATION OF COMPREHENSIVE PLAN WITH ADJACENT LOCALITIES AND THE SCHOOL BOARD**

Seminole County shall coordinate its comprehensive planning programs and activities with the programs and plans of adjacent municipalities and counties and the Seminole County School Board to ensure effective and efficient delivery of public services through implementation of the following policies:

##### **Policy IGC 1.1      Intergovernmental Coordination Committees**

The County shall continue to use intergovernmental coordination committees, such as the Planning Technical Advisory Committee, to ensure consistency between comprehensive plan programs and issues of adjacent municipalities and counties.

##### **Policy IGC 1.2      Multiparty Development Agreements**

The County shall continue to seek multiparty agreements (e.g., City/County/developer agreements) as a means to expedite facility improvements and reduce public costs.

##### **Policy IGC 1.3      Coordinated Concurrency Management Systems and Mobility Strategies**

The County shall continue to coordinate with the Cities and School Board in the implementation of their concurrency management system (ordinances and standards) for compatible adopted levels of service, and shall continue to coordinate with the Cities, Orange County and the City of Maitland in the ongoing development, monitoring and implementation of mobility strategies.

##### **Policy IGC 1.4      Policy Coordination**

The County shall continue to participate in the Council of Local Governments of Seminole County (known as CALNO), consisting of Seminole County and County Municipalities, to provide a policy recommending forum to coordinate growth plans and programs and to resolve interlocal disputes.

##### **Policy IGC 1.5      Advance Notification of Land Use Actions and Changes in Land Use Regulations**

The County shall continue to transmit advance notification of land use actions, such as plan amendments and zonings, and changes in land use regulations to Cities that may be affected, pursuant to the Intergovernmental Planning Coordination Agreement of 1997, or through other formal interlocal agreements with the Cities and the School Board of Seminole County as required by the 2007 Interlocal Agreement for Public School Facility Planning and School Concurrency As Amended January 2008.

**Policy IGC 1.6****Joint Planning Interlocal Agreements**

The County shall pursue adoption of Joint Planning Agreements with each County Municipality. JPAs shall address, at a minimum, but not be limited to future annexations, provision of services and facilities and land use compatibility. JPAs shall also include agreement on future densities and intensities of properties that may be annexed, a procedure for resolution of any conflicts and/or disputes, and standards for cut through traffic.

*Editor's Note: Seminole County and the City of Oviedo entered into a JPA in 1999, amended in 2006 and 2008.*

**Policy IGC 1.7****Support to Other Jurisdictions**

The Historical Commission shall continue to provide support to other jurisdictions in their efforts to identify, preserve, protect and enhance public accessibility to historical resources.

**Policy IGC 1.8****Incorporated Policies**

Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:

Transportation Element Policies include:

- Municipal Participation

Potable Water Element Policies include:

- Wholesale Agreements –Water

Sanitary Sewer Element Policies include:

- Wholesale Agreements-Sewer

Solid Waste Element Policies include:

- Recycling Program

Future Land Use Element Policies include:

- Joint Planning Agreement (JPAs) with the City of Winter Springs

Future Service Areas

- Planning Technical Advisory Committee

Conservation Element Policies include:

- Countywide Wetland/ Flood Regulations

Drainage Element Policies include:

- Middle Basin Working Group

Housing Element Policies include:

- Housing Program Implementation

Recreation and Open Space Element Policies include:

- Joint Projects

**Policy IGC 1.9****Joint Processes for Collaborative Planning**

The County shall implement the processes for which it has responsibility under the "2007 Interlocal Agreement for Public School Facility Planning and School Concurrency As Amended January 2008" which superseded a previous interlocal Agreement of 2003 adopted by the County, the Seminole County School Board and the seven cities. The 2007 Interlocal Agreement As Amended January 2008 sets out processes for, among other issues: sharing of data such as population projection and student enrollment; joint planning for school site selection, remodeling and school closure; joint consideration for necessary off-site improvements such as sidewalks, roadways, water and sewer; inclusion of the School District's capital improvements program for school capacity in the Capital Improvements Elements of Agreement signatories as required by State Law; and the uniform School Concurrency process to be implemented countywide.

**Policy IGC 1.10****Coordinated Efforts to Protect Established Residential Areas, Protected Natural Resources, Drainage Features, Multimodal Mobility Systems, and Historic Rural Areas**

The County shall work diligently with the Cities to protect and ensure the viability of established residential uses, protected natural resources, drainage features, multimodal mobility systems, and historic rural areas through formal and informal agreements, such as Joint Planning Agreements.

Agreements with Cities in Seminole County will emphasize protecting homes, natural areas, drainage features, multimodal mobility systems, and historic rural areas from adverse impacts caused by incompatible land uses, cut-through traffic, uncontrolled surface water runoff, and costly or duplicative demands for service; will provide for transitional uses or buffers where needed on border parcels; and provide adequate separation of homes, natural areas and historic rural areas from land uses that are sensitive in nature.

**Policy IGC 1.11****Coordination of Trail Protection**

The County shall encourage the Cities in Seminole County, through interlocal agreements or other formal agreements, to adopt trail corridor protection regulations similar to the County's regulations.

**Policy IGC 1.12****Advance Notification, Shared Information and Development Review Coordination between Seminole County and Orange County**

The following advance notification, shared information and development review coordination procedures are intended to assist Seminole County and Orange County in their respective planning efforts in proximity to the Seminole/Orange County line and to further support the Central Florida Regional Growth Vision:

- A** Seminole County shall notify Orange County within 30 days of receipt of an application affecting land within one-half mile of the Seminole/Orange County line, and no less than 10 working days before consideration by the Development Review Committee or the Planning & Development Division, of the following types of applications: Future Land Use map amendments, rezonings, subdivisions, final engineering plans for a subdivision, sector plans or sector plan amendments, or site plans that are located within one-half mile of the Seminole/Orange County line;

- B** The Orange County staff and/or Board of County Commissioners may provide comments relating to appropriate buffering, transitional uses, impacts on the Orange County Comprehensive Plan and Orange County services and/or other mitigating measures;
- C** Such comments received by Seminole County shall be included in all review materials for the proposal and shall be given consideration during the development review process. Seminole County may request additional information from Orange County regarding the proposals, if needed;
- D** Notices shall be provided to the attention of the Orange County Mayor, Orange County Manager and Orange County Planning Division Manager; and
- E** Seminole County reserves the right to exercise the option identified in Sections 125.001 (2) and 125.001 (2)(a), Florida Statutes, to adopt a resolution authorizing participation of the Seminole County Board of County Commissioners in a duly advertised joint public meeting with the governing body of Orange County and the governing bodies of any Seminole County and Orange County cities involved in an issue of joint concern. The joint public meeting may be held to discuss: land planning and development; economic development; mitigating the impacts of proposed development on rural areas, natural areas, surface water quality, storm water management, multimodal mobility, and public safety, and any other matters of mutual interest. The meeting would be held in an appropriate public location.

**OBJECTIVE IGC 2 COORDINATION OF PLAN WITH OTHER LOCAL AGENCIES**

Seminole County shall continue to coordinate its comprehensive planning programs and activities with the programs and plans of the School Board of Seminole County, major utilities, quasi-public agencies, and other local governments providing services but not having regulatory authority over the use of land.

**Policy IGC 2.1 Use of School Data for Planning County Infrastructure**

The County shall continue to include school enrollment data in transportation planning and capital programs. The County shall exchange data with the School Board of Seminole County for use in the respective capital planning programs.

**Policy IGC 2.2 Improving School Board/County Staff Coordination**

The County shall continue to coordinate with the School Board of Seminole County to facilitate participation in the County Comprehensive Plan review process and the school planning process.

**Policy IGC 2.3 School Board Representation on the Planning Technical Advisory Committee (PTAC)**

The County will continue to encourage the active participation of a representative of the School Board of Seminole County on the PTAC.

**Policy IGC 2.4 School Board Representation on the Development Review Committee**

The County shall continue providing information to and reserving a position for a School Board of Seminole County representative to the County's Development Review Committee.

**Policy IGC 2.5 Policy Coordination between School and County Boards**

The County shall continue to promote effective coordination of the policies and programs of the School Board of Seminole County and Board of County Commissioners.

**Policy IGC 2.6 Coordinated Utility Relocation**

The County shall continue to provide utility companies, both private and public, with road design/construction plans and schedules as they are adopted or changed to ensure timely relocation or removal of utilities as deemed necessary by the County.

**Policy IGC 2.7 County Review of Electrical Transmission Facilities**

The County shall continue to coordinate with local power companies in providing the County sufficient opportunity, at an early stage in the design process, to review and comment on plans to construct electrical substations and transmission lines within the County, consistent with State Law.

**Policy IGC 2.9 Historical Commission**

The Historical Commission shall advise the Board of County Commissioners on historical matters relevant to the County and surrounding jurisdictions, advise the Board of County Commissioners on the execution of Commission duties, as they relate to the history of Seminole County, and shall perform advisory functions as described by ordinance and approved by the Board.

- Policy IGC 2.10      Historical Museum**  
 The County shall maintain the Historical Museum Complex, which houses, displays, and illustrates to the public, historic records and other materials detailing the County’s history, as well as city and regional items of interest pertaining to that history.
- Policy IGC 2.11      2007 Interlocal Agreement for Public School Facility Planning and School Concurrency as Amended January 2008**  
 The County shall enforce the terms and conditions, applicable to Seminole County, contained in the 2007 Interlocal Agreement for Public School Facility Planning and School Concurrency as Amended January 2008, as executed by Seminole County, County Municipalities, and the School Board of Seminole County for coordinating land use, public school facilities planning, and school concurrency.
- Policy IGC 2.12      Landscaping, Creating Energy and Water Conserving Features, and Maintenance of Public Roadways**  
 The County shall form partnerships with its municipalities to establish consistent policies and regulations governing the visual appearance of major public roadways, such as buffering, preserving or creating energy conservation features and water-conservative landscaping.
- Policy IGC 2.13      Total Maximum Daily Load**  
 The County shall work cooperatively with the Florida Department of Environmental Protection (FDEP) to develop a proactive approach to the Total Maximum Daily Load (TMDL) process through the County’s monitoring program, National Pollutant Discharge Elimination System program, Lake Management program, and County’s Watershed Atlas project. These projects, and coordination between County and FDEP staff, with assistance from the County’s consultant, has and will continue to enable the County to participate and have greater affect upon the development of TMDLs for all impaired water bodies, including those located within municipalities.
- Policy IGC 2.14      Incorporated Policies**  
 Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:
- Future Land Use Element Policies include:**
- School Sites
- Transportation Element Policies include:**
- Encourage Coordination with Educational/Training Institutions
  - Economy Studies
  - Identifying Airport Transportation Needs
  - Coordinated Capital Plans with Airport Authority and Rail Companies
  - Conservation Compliance

**Recreation and Open Space Element Policies include:**

- School Facility Joint Use
- Florida Trail/Rails to Trails

**Drainage Element Policies include:**

- Infrastructure Coordination

**Policy IGC 2.15****Co-location of Facilities**

The County and the School Board of Seminole County shall continue to coordinate regarding co-location of public facilities, such as parks, libraries, and community centers, with schools to the greatest extent possible. The County shall encourage the School Board of Seminole County to establish or renew cooperative agreements as may be beneficial to the public at large to jointly purchase, develop, maintain, or operate specific properties or facilities such as recreation facilities, libraries, community centers, playgrounds, and emergency shelters

**Policy IGC 2.16****Interlocal Agreement with School Board**

The County shall continue to implement those processes for which it is responsible in accordance with the Interlocal Agreement titled "2007 Interlocal Agreement for Public School Facility Planning and School Concurrency As Amended January 2008" which the County entered into with the Seminole County School Board and the seven cities, as required by State Law. The 2007 Interlocal Agreement As Amended January 2008 provides for sharing of data on student enrollment, population projections and educational facilities plans; procedures for joint planning for selection of new school sites, remodeling and closures of schools; inclusion of school capital improvement program for school capacity within the County and city Capital Improvement Elements in compliance with State Law; procedures for determining how services needed by a public school (such as sidewalks, roads, water or sewer) will be provided and a uniform Public School Concurrency process, as required by State Law. This Interlocal adopted in 2007 and amended in 2008 superseded an Agreement titled "Interlocal Agreement for Public School Facility Planning" that had been adopted in 2003.

**OBJECTIVE IGC 3      COORDINATION OF PLAN WITH REGIONAL, STATE AND FEDERAL AGENCIES**

Seminole County shall continue to coordinate its Comprehensive Plan with the plans and programs of regional, State and Federal agencies in order to more effectively and efficiently address across jurisdictional issues.

**Policy IGC 3.1      Reserved.**

**Policy IGC 3.2      Division of Historical Resources**

The County shall continue to coordinate with the Department of State, Division of Historical Resources on Developments of Regional Impacts and Community Development Block Grant- site reviews, maintenance of the Florida Master Site File (FMSF), and future matching grants for identification, evaluation and planning for the management of historical resources within Seminole County.

**Policy IGC 3.3      Plan Coordination**

Seminole County shall coordinate its comprehensive planning activities with the plans and programs of regional, State and Federal agencies by, at minimum, continuing to coordinate with the following agencies through participation on planning advisory committees, notification of intent to amend the County Comprehensive Plan and sharing of data:

- A.** East Central Florida Regional Planning Council;
- B.** St. Johns River Water Management District;
- C.** Metropolitan Planning Organization (METROPLAN ORLANDO);
- D.** Central Florida Regional Transportation Authority (LYNX);
- E.** Central Florida Expressway Authority;
- F.** Florida Department of Environmental Protection
- G.** Florida Department of Agriculture and Consumer Services;
- H.** Florida Department of State, Bureau of Historic Preservation;
- I.** Florida Department of Transportation;
- J.** Florida Department of Economic Opportunity;
- K.** Florida Fish and Wildlife Conservation Commission;
- L.** Florida Department of Education;
- M.** Florida Public Service Commission;
- N.** Florida Highway Patrol;
- O.** Federal Agencies of Housing and Urban Development;
- P.** Federal Transit Administration;
- Q.** Federal Environmental Protection Agency;
- R.** Federal Emergency Management Agency; and
- S.** Army Corps of Engineers.

The County shall also seek legislative action by the Florida Legislature when the needs of the County so require. The County shall continue to work on issues with the Florida Association of Counties and shall work with the Florida League of Cities as needed.

The Water Supply Facilities Work Plan (Work Plan) – The St Johns River Water Management District (District) updates the District Regional Water Supply Plan (DRWSP) every five (5) years. The County’s Work Plan shall be updated

within 18 months following an update to the DRWSP per Policy POT 5.5 Coordination and Consistency with District Regional Water Supply Plan. This coordination shall be documented in the text of the Work Plan with each amendment. Additionally, where appropriate and feasible, the Work Plan shall include collaborative approaches with District and other local governments for water supply source use and development, and water resource development per Policy POT 5.6 Coordination with District and Local Water Providers.

**Policy IGC 3.4      Coordination during Major Regional Transportation Construction Projects**

The County shall coordinate with the Florida Department of Transportation, the Central Florida Regional Transportation Authority (LYNX), SunRail, and other jurisdictions and agencies to prepare in advance for the maintenance of car, bicycle, pedestrian and transit traffic during construction of major regional transportation projects.

**Policy IGC 3.5      Incorporated Policies**

Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:

**Transportation Element Policies include:**

- Coordinate Plans and Programs, including mobility strategies
- Coordination with the Florida Department of Transportation
- Mitigation of Impacts of Extra Jurisdictional Traffic

**OBJECTIVE IGC 4      IMPACTS OF PLAN ON OTHER JURISDICTIONS**

To ensure that the impacts resulting from the implementation of the County Comprehensive Plan upon development in adjacent municipalities, counties, regions and the State are addressed through effective use of the following intergovernmental coordination mechanisms:

**Policy IGC 4.1      Incorporated Policies**

Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:

**Transportation Element Policies include:**

- Support Establishment of Mechanisms to Enhance Intergovernmental Coordination

Multi-jurisdictional Review

**Conservation Element Policies include:**

- Intergovernmental Wellfield Protection

## **OBJECTIVE IGC 5      COORDINATION OF LEVEL OF SERVICE STANDARDS AND MOBILITY STRATEGIES**

The County shall coordinate with responsible local, regional, and State authorities and private utility companies, as appropriate, in the establishment of level of service standards for public facilities and coordination of mobility strategies with local authorities, and, if necessary, initiate further coordination efforts with adjacent local government comprehensive plans to ensure consistency with adopted level of service standards and mobility strategies.

### **Policy IGC 5.1      Incorporated Policies**

Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:

#### **Transportation Element Policies include:**

- Mobility Strategies

#### **Capital Improvements Element Policies include:**

- Criteria for Public Capital Expenditures
- Adopted Level of Service Standards and Schedules of Capital Improvements.
- Adopted Level of Service Standards and Schedules of Capital Improvements.
- Concurrency Management
- Level of Service Monitoring

**OBJECTIVE IGC 6 EXCHANGE OF SUPPORT AND DATA**

The County shall increase the effectiveness and efficiency of public programs to minimize costs by providing, seeking and sharing the following support and data.

**Policy IGC 6.1 Internet Services**

Seminole County shall continue to provide information on its Internet webpage regarding, but not limited to, agendas and minutes of the meetings of the Board of County Commissioners, and many of its supporting citizen and staff committees, information on County Departments, important County documents, and progress statements on major work efforts, such as road construction projects.

**Policy IGC 6.2 Sharing of Geographical Information Systems (GIS) Data**

The County will continue to allow the Cities and the Seminole County School Board who have an interlocal for use of the County’s fiber optic system to access GIS data. The County will annually provide its GIS data to METROPLAN ORLANDO, the regional metropolitan transportation organization, for their annual socio-economic data update. The County will continue to provide access to its GIS data via the internet webpage. The County will coordinate with private utility companies to attempt to have private utility lines placed in the County’s GIS system.

**Policy IGC 6.3 Operation of Seminole Government Television**

The County will continue to operate the Seminole Government Television (SGTV) cable television station and provide a forum for the governments in Seminole County to broadcast local government and educational programming, news, announcements and job listings.

**Policy IGC 6.5 Sharing of Resources**

The County shall continue to provide land use and socio-economic data to the Cities, the School Board and other levels of government and agencies.

**Policy IGC 6.6 Incorporated Policies**

Additional intergovernmental coordination policies listed below by subject matter related to the issues and to this objective are included within the following Elements of this Plan:

**Transportation Element Policies include:**

- Monitor and Update Data
- Conservation Information

**OBJECTIVE IGC 7      CONFLICT RESOLUTION**

The County shall endeavor to prevent and resolve conflicts and inconsistencies with other governments and agencies through available formal and informal mediation and conflict resolution techniques.

**Policy IGC 7.1      Conflict Resolution**

In cases where the County is unable to resolve intergovernmental conflicts through informal means or existing coordination mechanisms, the County may invoke one of, but not necessarily be limited to, the following mediation and conflict resolution techniques:

- A.** The Interlocal Planning Coordination Agreement of 1997.
- B.** The 1995 Interlocal Agreement on Mediation and Intergovernmental Coordination.
