### Game Board Instructions

#### Materials:

14 Gauge Wire for your probes  
18 Gauge Wire for battery  
22 Gauge Wire for your questions and answers  
Brads  
Bayonet holder (light bulb holder)  
Light Bulb  
Foam Core no larger than 16" X 20"  
9 Volt Batter

#### Basic Instructions

1. Before punching any holes or wiring anything, begin by laying out your design. Decide what colors you want to use, what your title will be, where the light bulb will be, arrangement of questions and answers.
2. Begin by writing out your questions and answers. When you have decided on the location of your questions and answers, punch a hole next to the questions and answers and place a brad in the hole. Be careful that the brads are not touching on the front or back of the board.
3. Using the thinnest wire (22 gauge) wire the correct answers to the questions. Using wire strippers take off the plastic insulation of the wire (the insulation can ground your circuit), make sure you do not cut through the wire. Carefully wrap the wire around the brad and open the brad. Tie the other end of the wire to the corresponding answers and attach to its brad in the same manner.
4. Punch a hole big enough for your bayonet (light bulb) holder. Be creative, it does not always have to be at the top.
5. Near the bayonet holder you will need to place three more brads about 1 ½ inches apart and at least 4 inches from your light bulb.
6. To the 3 brads you will wire 2 things to each one
  - a. Brad 1 – To the light and the probe to the front of the board
  - b. Brad 2 – To the battery and to the light
  - c. Brad 3 – To the battery and the probe on the front
7. Check to see if your board works. Place one probe on the brad next to a question and the other probe to the brad of the correct answer. If you wired everything correctly, then the light bulb will light up.

## Age Divisions

- Clover Buds (5-7) as of September 1 of the current 4-H year (no district or state contest)
- Junior (8-10) as of September 1 of the current 4-H year
- Intermediates (11-13) as of September 1 of the current 4-H year
- Seniors (14-18) as of September 1 of the current 4-H year

## Guidelines

1. **Number of Entries:** A 4-H youth may **submit up to 5 entries**. However, each entry must be in a different class. You may not enter the same photograph in multiple classes.
2. **Eligibility of Photos:** All photographs must have been taken by 4-H members within one year of the state photography contest (June 1). Photos may be submitted only one time and in only one class to the state photography contest.
3. **Alterations of Photo:** Although slight computer enhanced photos are allowed, such as crop, trimming, adjusting lighting, and red eye reduction; substantially altered photography, such as changing colors or applying design styles, using computer graphics will disqualify an entry.
4. **Refusal Rights:** The Florida 4-H Youth Development Program reserves the right to refuse inappropriate or unsuitable entries. Photograph must NOT be offensive, degrading, racists, or contain pornography of any form.

5. **Model Release Statement:** New to the Florida 4-H Photography Contest, recognizable pictures of adults or youth under the age of 18 must include a “Model Release” signature. If a minor is in the photo, the signature **MUST** come from their parent or guardian. If the adult or parent/guardian will not sign the Model Release, then do not submit the photo into the contest. A copy of the model release statement can be found on page 20 of this document.

## Sizing of Photographs

---

When preparing photos for electronic submission it is important to remember that these files will be judged as an 8x10 photo. Photos should be at least 800 pixels by 1000 pixels. The ideal 8x10 quality is 2400 pixels by 3000 pixels. Any higher variations of the 8x10 ratio are fine. The best way to tell is to take the lower pixel number and divide by the higher pixel number. If you get 0.8 then you’ve hit the mark. If your photos have a different pixel ratio you may still submit. However the photos will be judged using the 8x10 pixel dimensions, which may cause your photo to appear stretched, compressed, or distorted. If you view a photo’s properties on your computer it will tell you the width and height in pixels.

## Editing Photographs

---

As is the case with all photos, a little touch up is allowed, such as improve lighting slightly, red eye reduction, crop and trim. However, if the photograph has been substantially manipulated using computer graphic software, such as changed colors, morphed, drew extra shapes, then the photo will be disqualified.

## Guidelines for Submitting Photography

---

Photographs must be submitted electronically along with a Photo Release Statement for each photograph. A copy of the photo release statement can be found on page 20 of this document.

**Please title each photo in the following format:**

Last Name, First Name\_County\_Age Division\_Photo Class.

**Example:** Clover, John\_Green\_ County\_Intermediate\_Still Life

When submitting multiple photos and multiple release statements it is best to first put all contents in a zip file. After all contents have been place in a zip file, name the folder with your name. You are now ready to submit them electronically.

## Judging Criteria

---

Photos will still be judged on required elements, focus, lighting, subject, composition, impact & creativity. The Photography scoring rubric can be found on page 21 of this document.
