 @scfdpio |  @seminolecountyfd |  @SCFD.1974

WELCOME MESSAGE FROM THE CHIEF

WELCOME MESSAGE FROM **FIRE CHIEF**

OTTO DROZD III, EFO, CFO

SCFD provides emergency services to the unincorporated areas of the county and through mergers with the Cities of Altamonte Springs, Winter Springs and Casselberry. First Response Agreements are in place with the Cities of Lake Mary, Longwood, Sanford and Oviedo, which is optimal for residents as the centralized emergency communication center dispatches the closest unit.

Dear Seminole County Residents:

This past year has reminded us that ***challenges can bring out the best in everyone.*** It is clearly evident that this past year brought out the best in your Seminole County Fire Department (SCFD).

Despite the unprecedented COVID-19 pandemic, our 467 SCFD personnel came together and quickly adapted to serve our residents, businesses and visitors. When I began as SCFD's Fire Chief in April 2020, it was understood that the Coronavirus pandemic would require the County's most extensive emergency management response to date. SCFD proudly played an essential role in the historic public safety response.

Our team members unceasingly served on the frontlines during the pandemic. Firefighter/Paramedics, Firefighter/Emergency Medical Technicians (EMT), Emergency Communication Dispatchers and support personnel rapidly implemented new procedures to ensure continuity of care in response to all emergencies.

Many of our protocols changed, utilizing greater levels of decontamination for emergency vehicles, fire stations, and our dispatch centers, while implementing procedural safeguards for our community. For example, our "Step Outside" program requested able residents to meet responding emergency

units outside to reduce exposure to both patients and first responders. In addition, a \$204,000 COVID-19 Personal Protective Equipment Grant helped us ensure that our staff was well protected ... so that they could protect each community member.

In our annual report, we highlight major accomplishments and our statistics from the past calendar year that showcase our work in the community. These impressive accomplishments would not be possible without the support of our Seminole County Board of County Commissioners, the County Manager's Office, and by the dedicated professionals I am honored to lead and who are committed to providing you the highest level of service. From our daily service calls ... to our dispatched units from 20 fire stations ... to our community outreach ... to fire investigations, inspections, operations and logistics, we are always ready and proud to serve Seminole County.

The future has many new initiatives on the horizon designed to meet the needs of our growing County. These include Station 11 being relocated in Altamonte Springs near the SunRail station and new fire station 39, which is in design and slated to break ground soon near Orange Boulevard and First Street in Sanford.

In my 35 years of fire and emergency service, 2020 serves as a testament to why we chose to be local public servants, and it demonstrates the essential role that public safety professionals play in our community.

From our "Fire Family" to yours, thank you on behalf of the brave men and women of the SCFD who will continue to be there to respond in your greatest time of need.

A handwritten signature in black ink, appearing to read "H. Drozd", written over a white background.

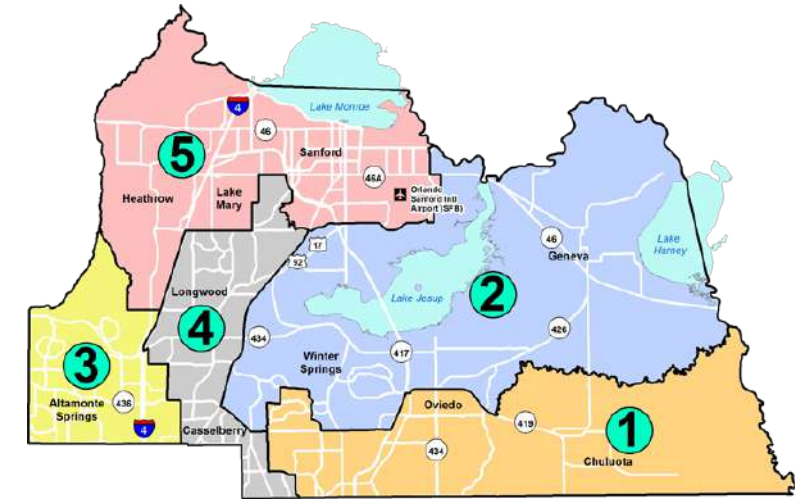

Otto Drozd III, EFO, CFO

SEMINOLE COUNTY AT A GLANCE

Seminole County

- 345 square miles
- Population
 - Seminole County – 478,823
 - Unincorporated Seminole County 224,258
- Total Households – 180,234
- Population Density (Population/Sq. Mi): 1,543 – The 4th most densely population county in Florida.
- Media Age: 39.2
- Average Household Size: 3.05
- Number of Employed Residents: 236,067
- Numbers of Businesses: 14,185

Seminole State College

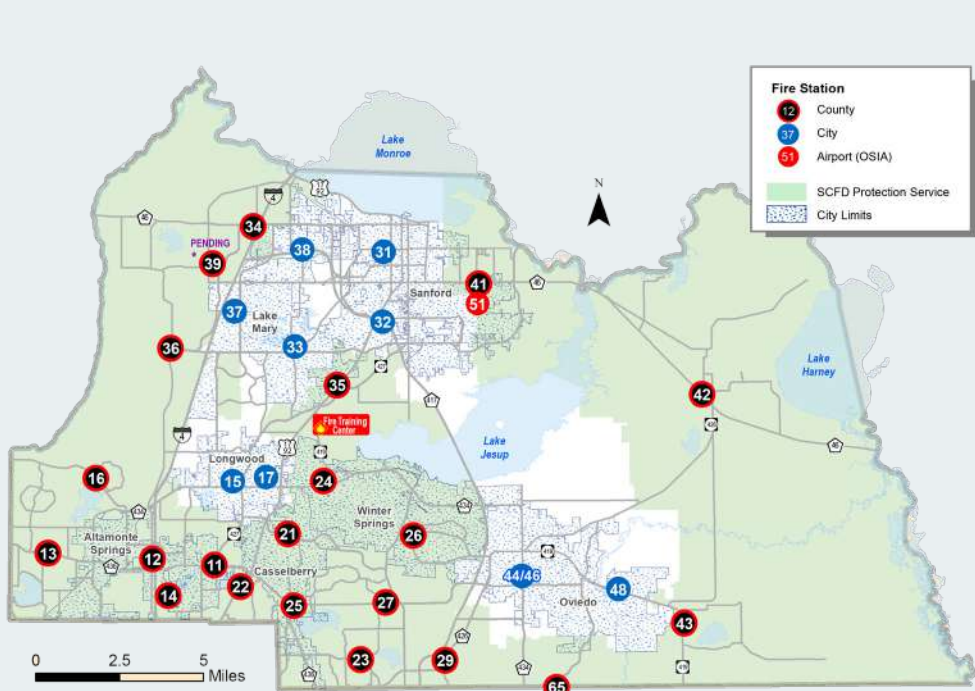

- Largest Employer – Seminole County Public Schools – 7,687
- Trails System – 30,000+ acres
- 300,000 visitors annually

- 4 campuses, Sanford, Oviedo, Altamonte Springs and Heathrow
- 28,879 students

Central Florida Zoo & Botanical Gardens

- 106 acres
- 350 animals/100 species

FIRE RESCUE FACT: Response time is essential to stop the effects of emergent medical conditions and the progress of fire, which can expand exponentially within 4 to 7 minutes.

MISSION:

5 Minute Response Time
Trained Personnel
Adequate Resources
Constant Prevention
Go Home Safe

CREED:

HONOR
THOSE YOU
WORK FOR

RESPECT
THOSE YOU
WORK WITH

SERVE THOSE
WHO WORK
FOR YOU

PURPOSE:

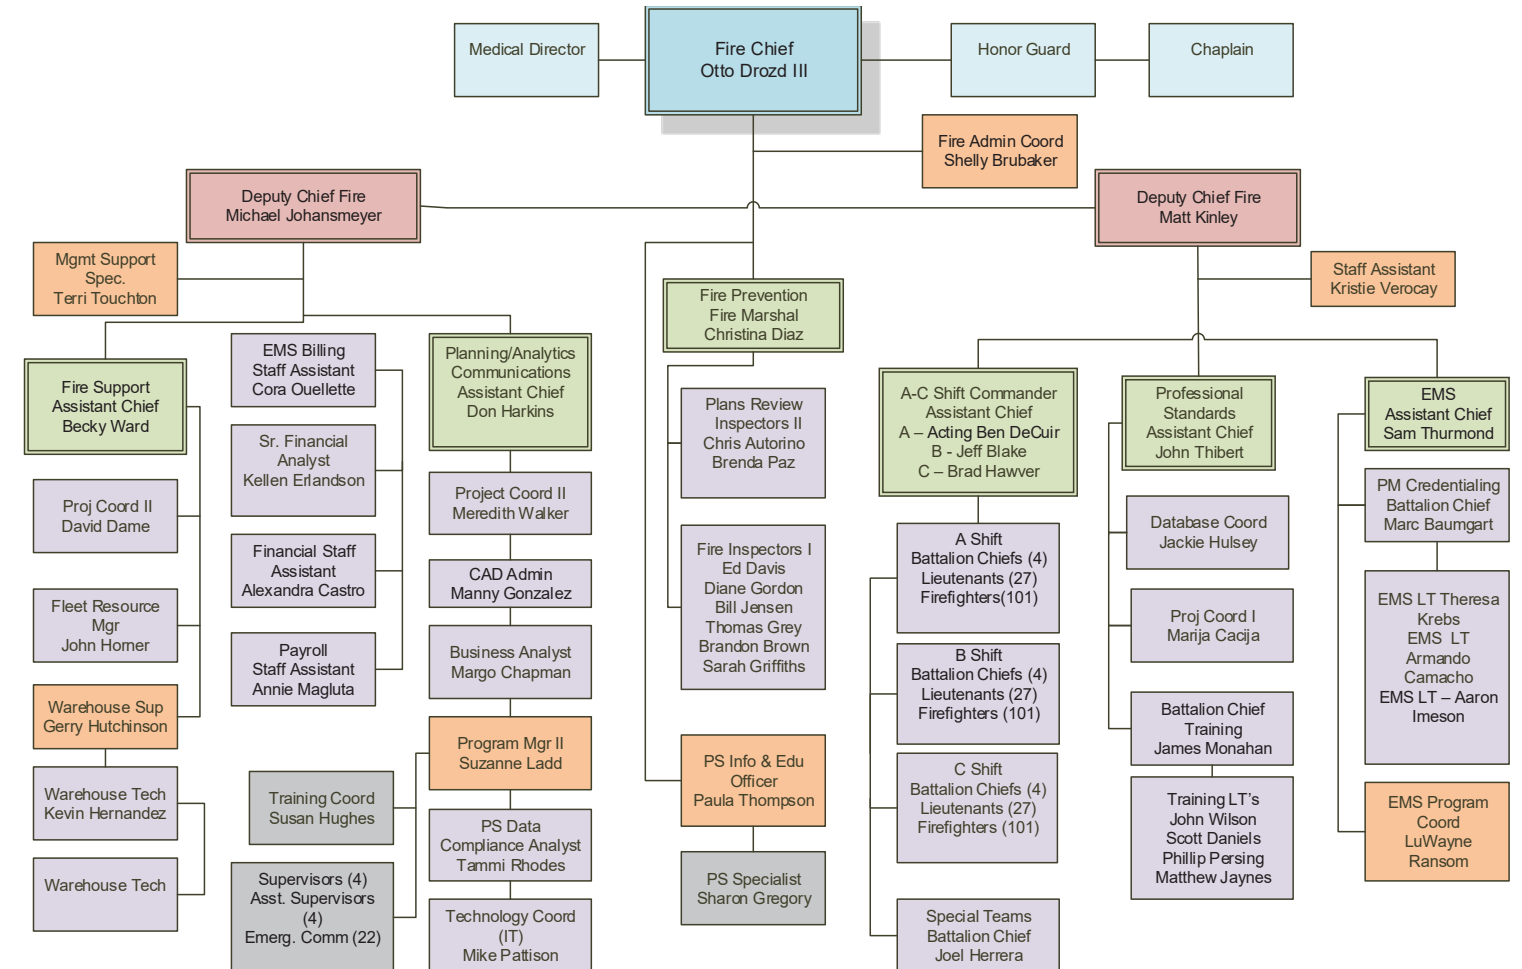

READY TO
RESPOND

WILLING TO
CARE

TRAINED
TO MAKE A
DIFFERENCE

FIRE RESCUE FACT: Seminole County Fire Department strives for a 5 minute response time or less.

DR. TODD HUSTY
MEDICAL DIRECTOR

PROTOCOLS

PARAMEDIC AND EMT LICENSING

PARAMEDIC AND EMT COMPLIANCE/CONTINUING EDUCATION TRAINING

HOW WE HAVE ADDRESSED COVID-19

- Early on we had a highly communicable pathogen protocol in place. This protocol had been well established within the department.
- We addressed new challenges previously unforeseen such as: breathing treatments and response support in closed rescue vehicles and going through the halls of emergency departments all while working closely with all EMS providers and hospitals. Early in the pandemic decisions were made to require masks and social distancing in all fire stations.
- We changed protocols to provide greater safety in transporting long-term care patients.
- Fire department personnel assisted in vaccinations across the County.

FIRE RESCUE FACT: The Medical Director's Office establishes the emergency medicine protocols that Paramedics and EMTs can perform and practice under the Medical Director's license.

\$428,692,426

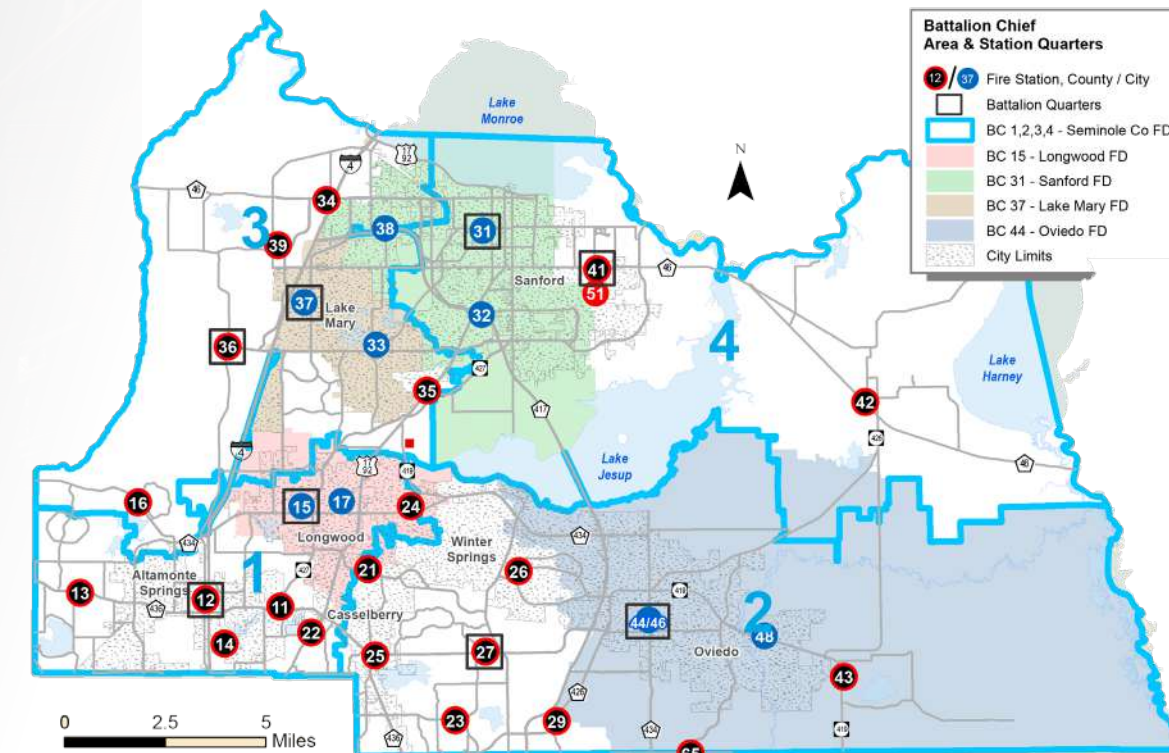

LOSSES

\$9,336,525

VALUE SAVED

\$419,355,901

**135 # OF PERSONNEL
PER SHIFT**

FIRE RESCUE FACT: SCFD operates three shifts led by an Assistant Chief who operates as the Shift Commander. They are responsible for 4 Battalions each with a Battalion Chief charged with the oversight of the stations and personnel within their area.

TOTAL SCFD CALLS FOR SERVICE BY CALENDAR YEAR

*A call for service is an incident prompting a unit response.

TOTAL SCFD RESPONSES BY CALENDAR YEAR

*A unit response is when a unit responds to an incident. The call type and acuity level dictates the number of units that respond to a single incident.

Average Response Time Calendar Year

2017	0:05:28
2018	0:05:10
2019	0:05:09
2020	0:05:12

FIRE RESCUE FACT: One of the most frequently asked questions is why do fire engines respond to medical calls. Answer: All SCFD fire engines have a Firefighter/Paramedic and advanced life support medical equipment assigned to the unit, therefore they can administer the same emergency medical services, except for transport to the hospital

FIRE RESCUE FACT: Seminole County Fire Department works to minimize response time by utilizing an Automatic Vehicle Location (AVL). The emergency vehicles are equipped with global position satellites (GPS) to dispatch the closest units to emergencies.

JOHN THIBERT
ASSISTANT CHIEF
PROFESSIONAL STANDARDS

- Fire & EMS Training Hours – **138,925**
- Live burn building went operational
- Implemented a successful social media recruitment campaign increasing diversity in the Department
- Two orientation classes totaling **42** recruits completed training
- Continuation of quarterly joint-training program with all Fire Departments within Seminole County.

Professional Standards & Training Calendar Year 2020

Training Hours by Category

Driver/Operator Training – 20,604 hours

EMS Training – 8,910 hours

Firefighter Training – 40,727 hours

Hazardous Materials Training – 8,007 hours

Officer Training – 10,257 hours

Recruit Training – 9,360 hours

Training Drills – 18,378 hours

SAMUEL THURMOND
ASSISTANT CHIEF EMS

FIRE RESCUE FACT: All Seminole County Rescue units can transport patients to the hospitals to provide continuity of care to the patient.

- **EMS logistics**, including the ordering and distribution of personal protective equipment and medications
- Purchasing and distributing **equipment for both disinfecting and decontamination**
- The administration and distribution of **COVID-19 vaccines**
- **Reaccreditation** for the Commission on Accreditation of Ambulance Services (CAAS)

Pre-fire
plans

Pre-alert
system

Pre-Alert System

The pre-alert system was designed and implemented to reduce call processing time. In its initial stage call processing time has been reduced from 2:56 to 1:27 seconds, saving precious time that can help save lives and property.

*The Emergency Communications Center workload is based on many factors including the number of calls received and made, the multitude of radio transmissions, and CAD (Computer Aided Dispatch) related tasks in support of a single incident. One incident can generate multiple calls within the ECC.

Total Calls – 2016: 107,700; 2017: 120,900 (Hurricane Michael); 2018:115,172; 2019: 114,591; 2020: 121,133 (COVID-19)

FIRE RESCUE FACT: Call processing time is the time segment from when the alarm is received at the emergency communication center until the response information begins to be transmitted to emergency response units.

Christina Diaz FFMIA 2020
Fire Marshal of the Year

Seminole County Fire Marshal Christina Diaz was honored as the 2020 Fire Marshal of the Year, which was awarded by the Florida Fire Marshals and Inspectors Association (FFMIA). Diaz joined SCFD in 2016 as a Fire Inspector II and became Fire Marshal in October 2018. She became a Fire Inspector almost 14 years ago and has been the backbone of SCFD's Fire Prevention Department and spearheaded many programs and initiatives that benefit both Seminole County businesses and residents.

"Fire Marshal Diaz sets the example for fire prevention and life safety. She is a true subject matter expert in understanding written code and applying it to real-world situations. She is also a champion for Fire Safety and always available to provide assistance. She serves as an outstanding leader who others naturally follow and want to emulate."

-Michael Johansmeyer, CFO, EFO Deputy Chief of Administration, Seminole County Fire Department
