Notes: Funding supports the Incubator companies associated with Seminole County & Seminole Community College. This support encourages new companies to graduate from the Incubator Program and to remain viable businesses five years after graduation. Approximately 85% of these locate within five miles of the facility resulting in significant return on investment for the local community.

|-----------------------------------------|-------|--|--|---------|---------|---------|---|---|

Notes: Funding to support the UCF Technology Incubator. Seminole County is an essential partner in this program and UCF will not be able to move forward with the expansion. The goal is to provide office space for emerging high-growth companies along with mentoring, training, educational and networking opportunities.

The purpose of the Accelerator is to encourage job growth and economic development in Seminole County with later stage incubator companies. Over 87% of companies that graduate from an accelerator or incubator program remain viable businesses five years after graduation. Additionally, more than 85% of companies who graduate from an incubator locate within five miles of the facility resulting in significant and tangible return on investment for the local community.

The amount requested by UCF was \$720,000 over a three year period. This item was presented to the BCC on May 11, 2010 and a the BCC approved a prorated portion (\$80,000) of the UCF Business Incubator lease through September 30, 2010. The BCC approved an annual amount of \$240,000 for three years beginning with FY'10/11.

Notes: Mixed Use Development/Leadership in Energy & Environmental Design Certification (LEED) Incentives:

In order to attract developers to construct Mixed Use (a combination of residential, retail and commercial) and Green Development within the corridor, the CRA will hire a consultant on behalf of the developer. The consultant will be responsible to secure all the needed permits for the proposed development project and navigate the proposed development project through the development approval and the LEED Certification process. The cost of the consultant, permits and the development approval LEED Certification process will be borne by the CRA.

| Contracted services for the Naviline System (System used by Growth Management purchased from HTE) programming. This budget item is for the Planning & Zoning Program & Development Inspection Program. This programming cannot be done by County Programmers due to GUI/HTE canned programs need to be changed and there are proprietary issues.                                                                                                                                                                                                                                                                             |         |                   |                    |                   |                   |                   |                   |                   |
| Contracted Svcs for HTE/Navaliner System-Computer Pgm Enhancements                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |                   |                    | 5,000             | 5,000             | 5,000             | 5,000             | 5,000             |
| Notes: Enhancements can range from \$1,000 to \$6,000. Growth Management is requesting \$5,000                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |         |                   |                    |                   |                   |                   |                   |                   |
| Growth Management has been making programming adjustments which allows the department to keep pace with processes. Some changes have already been made in the Naviline System for reporting to bring the current system up to a level of services and ability that existed in the prior system. Other reporting enhancements will need to be made as needed due to state changes in revenue reporting. The following divisions use the Naviline system. The Planning & Zoning and Development Inspection Program, as well as the Business Office. Applications that need enhancements are Impact Fees and Planning & Zoning. |         |                   |                    |                   |                   |                   |                   |                   |
| Issues have been identified that will require changes in the system such as the Land Development File, etc,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: The Building Division is responsible for maintaining and providing historical information to the general public, elected officials and other<br>staff members on a daily basis. Many records are currently kept in the County Services building for easy retrieval. Records such as<br>building permits are scanned and saved on the server for easy retrieval by staff during the inspection process and until the final of the<br>building. This allows building inspectors to access the building construction plans via laptop computers while in the field. |         |                   |                    |                   |                   |                   |                   |                   |

Truck Mounted Modems 25,700 25,700 25,700 25,700 25,700

Notes: This equipment may be needed at a moments notice The inspectors cannot perform their jobs without this equipment. As stated below these items are purchased through IT at a discounted cost.

Replacement of two (2) truck mounted modems that are in poor condition or damaged and can't be repaired. The building inspectors computers are attached to the modems in their vehicles.

These modems are necessary for the Building Inspectors to perform their jobs. They are purchased through the IT Department at a reduced cost. The equipment was not need in FY'08/09 and we anticipate they will not be needed in FY'09/10, but are in poor condition and could stop working at any time. This equipment can be damaged and need replacement at a moments notice.

|-------------------------------|--------|--------|--------|--------|--------|

Planning Council

Notes: The amount of \$77,901 was based on \$0.18269 cents per capita, based on reduction the amount has now been reduced to \$0.164421 cents per capita. This is a \$8,226 reduction. The total amount \$77,901 - (\$8,226) = \$69,675

East Central Florida Regional Planning council - \$69,675

The dues are calculated at a rate of \$.23 (23 cents) per capita, but due to the economy the last 3 fiscal years the council has reduced the amount for all counties.

The Assessment for FY'09/10 was based on the 2009 Population of 426,413 and the per capita was reduced for all counties from \$0.18269 per capita to \$0.16442 per capital for 2011 (a 10% reduction to the multiplier). This is an overall 11.3% gross dues reduction, reflecting a loss of population (423,759) in the past year. This amount is being placed into the budget for FY'10/11 until final numbers are submitted.

Actual cost in FY'08/09 for Books, Dues and Publications was \$297,535. The FY'10/11 budget is \$256,288 or a 14% decrease over FY'08/09 actual costs.

| Membership Dues   |  |  |  |         |         |         |         |         |

Notes: MPO Membership Dues for FY'10 was \$185,225 and was reduced as follows for FY'2010/11 (7% reduction assumed)

FY'10 - \$185,225

Adjusted 7% (12,966)

Total \$172,259

This is the fourth consecutive year that Metorplan has made voluntary reductions in local assessments. The Board-approved local assessment of 75 cents/capita would have resulted in the current population x .75 cents per capita totaling approximately \$205,805.

This reduction resulted in MPO membership savings of \$33,546.

Notes: A courier is contracted to transport mail, books, payroll, and misc other items between the different library branches and the County Services Building. Approximately 350 cartons of books are delivered daily, Monday through Friday, between all five (5) branches. Although the library branches are closed on Friday, the Courier makes deliveries for processing on Saturday and Sunday, and makes deliveries to County Services Building.

The contract for courier services includes price increases effective July each year. Therefore the annual costs/budget incorporate different monthly amounts. The monthly cost until July 09 is \$3,444. Starting in July 09, the monthly cost will increase to \$3,540. A 5% rate increase is being estimated for services rendered from July 2010 to Sept 2010 (current contract ends on 7/1/2010), bringing the estimate monthly costs for the 3 remaining months in FY 2010 up to \$3,717.

The cost of the service will be partially offset by charging customers a \$2.00 service fee for each transaction they request.

The FY 10 total budget request of \$43,010 is broken out into the various orgs according to the estimated cost associated with each.

Notes: The Seminole County Library borrows books from libraries throughout the state when the book that is requested by a patron is not owned by our library. In Oct 2008, \$3,750 was paid to the Central Florida Library Cooperative for providing annual delivery services (5 days a week). The FY10 budget is for the same amount. The County pays 25% of the cost and the State Library of Florida provides 75% of the cost of the delivery services.

During fiscal year 08/09 received and disbursed 8,500 books using this service. The cost of the service will be partially offset by charging customers a \$2.00 service fee for each transaction.

|-------------------------------|---|---|---|---|---|---|

Notes: The Seminole County Library borrows books from libraries throughout the state (Interlibrary Loan) when the book that is requested by a patron is not owned by our library. Occasionally, a book that is borrowed is lost. Seminole County pays the lending library for the lost book and the patron is charged a fee equal to the cost of the book to reimburse the County.

In FY08, approximately \$2K was expended to pay lending libraries for lost Interlibrary Loan books. The FY10 budget is for approximately the same amount.

Notes: The Northwest Branch has a Deputy Sheriff on duty, as the situation at the Northwest Branch is unique; it is located between the Greenwood Lakes Middle School and Lake Mary High School and consequently is heavily impacted by hundreds of students who visit the branch per week or are picked up by their parents in the crowded parking lot immediately after school. The Sheriff's Deputy detail provides a necessary security presence 13 hours weekly, during after-school hours only .

Prior to the Deputy patrolling the Branch there were approximately 37 Incidents, 9 student trespasses and 60 complaints a year. With the presence of the Deputy these numbers have gone down dramatically.

Without the presence of a Deputy Sheriff the number of incidents would increase again.

Notes: The Northwest Branch has a Deputy Sheriff on duty, as the situation at the Northwest Branch is unique; it is located between the Greenwood Lakes Middle School and Lake Mary High School and consequently is heavily impacted by hundreds of students who visit the branch per week or are picked up by their parents in the crowded parking lot immediately after school. The Sheriff's Deputy detail provides a necessary security presence 13 hours. weekly during after-school hours only .

Prior to the Deputy patrolling the Branch there were approximately 37 Incidents, 9 student trespasses and 60 complaints a year. With the presence of the Deputy these numbers have gone down dramatically. However, you can see from the numbers below that there is still need for the presence of a Deputy.

2007 – 21 Incident Reports/4 trespassed.

2008 – 20 Incident Reports/2 trespassed.

Jan 1,2009 to present – 2 Incident Reports/0 trespassed.

The Deputy is able to respond immediately to incidents and assist staff with problem behaviors. The Deputy has the authoritative presence that keeps incidents from escalating. With the presence of a Sheriff's Deputy there has been a sharp decrease in the number of afterschool crimes and incidents including arson, assault, theft, vandalism, drug use and disorderly behavior.

FY10 budget request for Sheriff's Agreement totals \$19,662, and is being budgeted within the two (2) Northwest orgs for \$9,831 each. The total budget request is 0% increase over FY 09 Adopted Budget, and is to continue receiving the security service for the same amount of time as in the FY08 budget. The request is for scheduling the Deputy for the exact number of hours, 13 hours per week, that the library needs t have Deputy coverage.

FY 09 actual costs in the first quarter totaled \$5,537 (utilizing 28% of FY09 budget).

| Notes: This is part of a three year contract with Paradise Advertising ( expires November, 2011, with an option of a two year renewal with a one year additional). This portion of the contract, advertising, is for the cost to purchase the advertising in national and state printed publications, cable TV and radio, when cost is feasible, and the placement of these advertisements.                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |  |         |         |         |         |         |

| Notes: The Red McCullough Report is locally produced and reported by Mr. McCullough visiting or phoning each of the Seminole County hotels to obtain their occupancy rate and average daily rate, as well as number of available rooms and rooms rented. This report differs in the STR report as it breaks the hotels down by the areas of the county ( ie: Altamonte Springs hotels, Lake Mary hotels, etc) – this gives a more detailed view of which parts of the County are the busiest, which is helpful marketing information, as the CVB can look at an area and know for example, that the volume increased due to a sporting event that took place in that City the previous month. The hoteliers request this report and depend on it for greater and more personal information. |  |  |  |         |         |         |         |         |
| Hotel Occupancy Research<br>Report - STR                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |  |  | 2,500   | 2,500   | 2,500   | 2,500   | 2,500   |
| Notes: The STR report (Smith Travel Research) is a national report of hotel occupancy and rate data. It provides valuable marketing tracking data of the Seminole County hotels, such as occupancy, average daily rate, supply and demand, etc. Also, STR supplies the occupancy, average daily rate , revenue per available room and percent change over the previous year and year to date information for Orange and Volusia Counties, also known as the competitive set. This report is extremely valuable to the CVB to monitor our hotels, as well as our neighboring counties.                                                                                                                                                                                                       |  |  |  |         |         |         |         |         |

Notes: This portion of the Paradise agreement is the placement of articles and stories with the international, national, state and local media to generate story ideas to promote Seminole County as a destination. Also, Paradise writes and places press releases in hospitality trade publications, keeps an updated photo library for media requests, works with reporters with story ideas and also sets up interviews and familiarization (fam) trips. Provides public relations staffing at trade shows, when necessary, in pressrooms, as well as providing the materials for these pressrooms. Prepares and distributes press releases for special events, including, but not limited to, promotional activities/announcements for our partners. Also, prepares and releases as necessary, press releases concerning our TDC Board.

|------------------------|-------|-------|-------|-------|-------|

Notes: Annually, in February, Iceland air hosts the Mid-Atlantic Workshop and Travel Seminar in Reykjavik, Iceland. The show brings together travel professionals from North America, Europe and Scandinavia. The Orlando Sanford International Airport has attended each year, for the past five years, each time inviting the CVB, and we have not attended, due to our budget. The 2010 show was the highest attended show in the 17 year history of the event and included several CVB's from across the state of Florida, including Orlando, the attractions and several hotels, also from the Orlando area. This event is a great opportunity for Seminole County to make the international contacts that we need to develop and seek sporting and industry events to come to our County. It is also an opportunity to work closely with our Airport in attracting additional international service. The cost of \$2,000 includes transportation, registration, accommodation and several meals.

| Lease Program for Books and Audio CDs                                                                                                                                                                                                                                                |         |                   |                    | 262,872           | 262,872           | 262,872           | 262,872           | 262,872           |
| Notes: Leasing of books/audio books is an efficient method of obtaining a large quantity of popular books in demand at the same time. The average cost of leasing a book/audio book is substantially less than purchasing the book.                                                  |         |                   |                    |                   |                   |                   |                   |                   |
| The current contract is in effect until October 1, 2011.                                                                                                                                                                                                                             |         |                   |                    |                   |                   |                   |                   |                   |
| Based upon the current contract point system the library leases 11,151 books and 720 audios during the fiscal year                                                                                                                                                                   |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Reprinting of the Visitors Guide and the rack brochures is a vital part of the budget. The rack brochures are distributed to Welcome Centers around the state of Florida and AAA offices. The 75m rack brochures that are printed annually generates inquiry and creates awareness of Seminole County. It gets our name out and encourages the customer to learn more by going to our website or calling our toll free number. The Visitors Guide contains more pages and is only put in the hands of customers when they ask for additional information, from the website , writing the CVB or calling the toll free number. The rack brochures can also be found in area Chambers of Commerce, restaurants and centers such as the Sanford Welcome Center. We include rack brochures in welcome packets for participants of sporting events, and meetings that are taking place within the County. |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Administrative Events are promotional items that are given away, such as our ink pens, lip balm, etc, other than at a trade show. For example, if a member of the Tourism staff is speaking at an event and takes ink pens to give away, a Seminole County residents requests give aways for "goody bags" they are preparing for a high school reunion, a department, such as Leisure Services is attending an event an wants to take items to give away, or a County Commissioner asks for items to take to distribute at a conference that he/she may be attending, all of these items are part of the promotional activities for Administrative events. |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Florida CVB's apply annually to attend this three day media reception in New York City hosted by Visit Florida. If selected, less than 20 CVB's are, receptions to meet national media take place, giving CVB's an opportunity to pitch their destinations to the journalists. It is a rare opportunity to have to attend an event of this type with so many national media at one event at the same time.                                                                                                                                                                                                                                                 |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: TDC Grants to be awarded to multi-day events that generate room nights and revenue for Seminole County. This procedure, approved by State Statute, gives Seminole County an opportunity to be at a competitive advantage with other Counties and Cities in attracting sporting events to our County. Event organizers can apply to the TDC for funding to help in the marketing of their event , and are required to meet approved hotel occupancy requirements to obtain the funding. This funding is vital and by increasing it , more events can be sought after to bring their event/tournament to Seminole County.                                    |         |                   |                    |                   |                   |                   |                   |                   |
| Currently the \$105,000 we spent on event sponsorship in FY 09/10 generated approximately 6,500 room nights yielding a total approximate hotel impact of over \$575,000 and generating over 6 million dollars in total direct economic impact. If we increase the sponsorship amount by \$25,000 dollars we are projecting to increase our room nights to 8,500 room nights and generating close to a \$675,500 total hotel impact and expect to generate close to 7.5 million dollars in total direct economic impact.                                                                                                                                           |         |                   |                    |                   |                   |                   |                   |                   |

Notes: Supplies dedicated to the preparation and implementation of Children's Programs. There were 105,612 children that participated in FY 08, who largely utilized construction paper, glue, rubber stamps, and other craft supplies. Other items purchased for Children's Programs include puppets, music CDs, and flannel boards are used to give children a physical enhancement to literacy based story times. Bookmarks are purchased for the kindergarten library card registration drive.

| Notes: Chairs and tables used by Extension in the auditorium are often loaned to other county departments. This is a request to replace 10% of the tables and chairs yearly. This will help to replace damaged and broken chairs, tables, folding-retractable door, stage divider. |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Engineer Services for Animal Crematory - The animal crematory operates under a general air permit issued by the Florida Department of Environmental Protection (DEP). The DEP requires an annual emissions test which must be conducted by an engineer.                                                                                                                                                                                                                       |         |                   |                    |                   |                   |                   |                   |                   |
| Necropsy and Pathology Svc                                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |                   |                    | 300               | 300               | 300               | 300               | 300               |
| Notes: Necropsy & Pathology Services - Expenditure for animal necropsy and pathology services provided by the Florida Department of Agriculture and Consumer Services, Bureau of Diagnostic Laboratories. Anticipate 4 procedures per year.                                                                                                                                                                                                                                          |         |                   |                    |                   |                   |                   |                   |                   |
| Specimen Test for Possible Rabies Exposure                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |                   |                    | 100               | 100               | 100               | 100               | 100               |
| Notes: Specimen Test for Possible Rabies Exposure - Expenditure to test specimens for possible human rabies exposure when the exposure does not comply with the Florida Department of Health Rabies Compendium testing guideline. The DOH assumes the cost to test specimens falling within the guideline. Pre-payment is required to test specimens not within the guideline. An example would be a bat found in a school and it is unknown if there was human exposure to the bat. |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Projected expenditure to fund the Pet Pals Program. This program places homeless dogs and cats with senior (65 years and older) and disabled residents. Qualified residents pay an adoption fee (\$5) and purchase a pet license (\$6). The program pays to spay/neuter the pet and pays for a microchip implant. Participation is limited to one dog or cat per resident per year.                                                                                                                     |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Over the past two years, we have decreased the number of records stored at Iron Mountain, and therefore the county's costs for Iron Mountain storage and services. We have been able to accomplish this by inventory control and destruction of documents per retention law. Our inventory is now down to 211 boxes, and we are no longer sending records to that facility for storage.                                                                                                                 |         |                   |                    |                   |                   |                   |                   |                   |
| A project is currently underway through SC Information Technology to create the capacity of the On Base system to handle retention and destruction dates for all scanned documents. Once in place, our documents of record will be stored electronically, and most if not all paper documents will become duplicate copies and thus eligible for shredding.                                                                                                                                                    |         |                   |                    |                   |                   |                   |                   |                   |
| Once this project is completed, we are anticipating that our in-house shredding costs will increase. However, this increase will be offset by a complete discontinuation of Iron Mountain's cost to the county.                                                                                                                                                                                                                                                                                                |         |                   |                    |                   |                   |                   |                   |                   |
| We are currently using Cintas as our in-house provider for shredding. Their charge is approximately \$3.85 per box. Our current usage is approximately 104 boxes shredded each year. When we were sending records to Iron Mountain for storage, we were sending approximately 2 boxes per month. We are now shredding approximately 26 boxes every three months. Therefore, once On Base is fully functional, that our in-house shredding costs will increase as our Iron Mountain costs continue to decrease. |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Florida Animal Control Assoc. (FACA) Annual Education Conference - FACA is a state chartered animal protection organization whose goal is assisting animal care and control agencies. This annual event provides state mandated continuing education credits for Animal Services Officer certification.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |         |                   |                    |                   |                   |                   |                   |                   |
| Greeneway Tolls                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |         |                   |                    | 500               | 500               | 500               | 500               | 500               |
| Notes: Greeneway Tolls - The Greeneway is used to respond to injured animal calls on the east and west sides of the county, and to animal calls occurring on the Greeneway. Fourteen county vehicles have transponders.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |                   |                    |                   |                   |                   |                   |                   |

| Notes: Nat'l Cruelty Investigation Training - The National Cruelty Investigations School (NCIS) is affiliated with the Law Enforcement Training Institute, University of Missouri. The NCIS was developed in 1990 due to a lack of, on a national level, animal cruelty investigation training, and is the premier program for animal cruelty investigation training. The NCIS offers three training levels that can be taken in any order. Each training level is five days (40 hours). Training is held at various sites throughout the country. Funding is requested to send one certified Animal Services Officer to one training class. At the time of budget preparation it is not known if this training will be offered in Florida in 2010 through 2011. Approximate Airfare \$600. Approximate Lodging \$600. Approximate Car Rental \$250. Approximate Meals \$225. |         |                   |                    |                   |                   |                   |                   |                   |

Notes: Mileage is required by Probation Officers to meet division contact standards with probationers under supervision to verify residence (living conditions), employment (financial status) and compliance of special court-ordered conditions. Further, Probation Officers attempt to make field contacts to deter continued criminal activity. Four staff members use their personal vehicles daily, and the other 21.5 staff members usage ranges from several times a week to occasional.

In FY 06/07, total personal vehicle use was 9,144.67 miles @ .485 per mile, approximately \$4,435.17 was reimbursed.

With three rate increases by IRS, from .485 to .505 to .585 per mile, in FY 07/08, the total personal vehicle use was 7,280 miles. In FY 07/08, approximately \$3,826.00 was reimbursed, representing a 20% decrease in one year.

FY 08/09, total personal vehicle use = 5,096 miles @ .585 per mile – approx \$3,044 reimbursed, a reduction of 27% from the previous year.

In 09/10, the reduction trend will continue, with a projected reimbursement of \$2,200.

There are several factors which have contributed to this decrease. Reengineering within the Probation Division which began in December, 2008, reassigned personnel and tasking to increase efficiencies and effectiveness. Reassignment of personnel supervising probationers, clients on Pretrial Diversion and on Pretrial Release with electronic monitoring (EMPACT) reduced the number of probation officers supervising probationers, increasing average caseload sizes. Rapid Response was created, allowing timely response and intervention in the field for probationers posing greater risk to themselves or the public. Officers use POV's less frequently due to the availability of 5 county vehicles assigned to the division for official business travel requirements.

Additionally, probation officers participate several times each year in confidential operations with law enforcement personnel, utilizing the LEO-assigned vehicles. EMPACT officers perform ride-alongs with the Sheriff's Office Fugitive Unit to enforce EMPACT conditions, to decrease violations and to enhance public safety.

| Note: Per the Florida State 911 Plan - Attendance at state, regional, and national meetings is essential in maintaining and monitoring the integrity of the overall E911 system. It helps keep the county 911 coordinator abreast of industry technological changes and build a stronger working relationship with neighboring counties. Continuing education credits or other training certifications may be offered for certain sessions of state, regional, or national meetings. County 911 coordinators are encouraged to expand their professional knowledge and continue their professional education by enrolling in classes sponsored by the Florida E911 Board. Therefore, travel to and from, and accommodations at, events targeting county 911 coordinators should be regarded as a critical line item in a county's E911 budget. |         |                   |                    |                   |                   |                   |                   |                   |
| Florida Coordinators and                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |                   |                    | 2,480             | 2,480             | 2,480             | 2,480             | 2,480             |

Notes: The reverse calling system requires the acquisition of addressing information from the telephone companies each year on a quarterly basis. This is a shared cost between the Seminole County Public Safety Department and the Seminole County Sheriff's Office. The information is loaded into the reverse calling system to be used during times of emergencies including, but not limited to, hazardous materials events, shelter in place orders, evacuations, curfews, missing persons, and life-threatening environmental issues.
