GENERAL NOTES

1. All materials, construction, inspections and tests shall, as a minimum, conform to Article VI of the Seminole County Subdivision Regulations.
2. Prior to construction, all existing utilities, public or private, should be located in area of construction and owners of said mentioned utilities notified prior to commencing work.
3. During construction, traffic shall be maintained in accordance with "Manual on Traffic Controls and Safe Practices for Street and Highway Construction Maintenance and Utility Operation." (Florida D.O.T.)
4. Unstable materials shall be removed from construction areas and backfilled with suitable materials.
5. Temporary drainage shall be provided during construction to eliminate any flooding of private property.
6. Construction shall include replacing, with matching materials, any driveways, walks, curbs, sod, etc. that are damaged or removed due to construction; and work shall be coordinated with property owners.
7. All areas disturbed as a result of construction shall be sodded.
8. Construction or repairs of sanitary sewer and water utilities shall conform to "Standard Construction and Utility Specifications." (Environmental Services Divisions.)
9. All storm sewer lines and inlets shall be cleaned of debris and eroded materials at last stages of construction.
10. Any drainage problems created by construction, or existing before construction not alleviated, should be brought to the attention of the Engineering Division.
11. Upon completion of construction, the Engineering Division shall be notified for final inspection.
12. All survey corners indicated on the plans shall be referenced and certified by a Registered Professional Land Surveyor prior to commencement of construction. All corners destroyed or obliterated by construction shall be reset and so certified by the Land Surveyor prior to completion of the project. Certified sketches shall be submitted to:

Seminole County Public Works Department
Engineering Division
