DRAFT Mobility Plan

Seminole County's 2045 Transportation Mobility Plan (TMP), focuses on providing safe and reliable transportation options for our residents. A multimodal, holistic approach to transportation planning will identify short-, mid-, and long-term improvements for roadways, transit, sidewalks, bikeways, and trails.

This **2045 Plan** is intended to serve as a guide for future County transportation system improvements and investment decisions over the next 20+ years.

Project Website

www.seminolecountyfl.gov/transportation2045

GOALS & OBJECTIVES

MOBILITY

Preserve and enhance the existing system's function and performance

SAFETY

Be consistent with the Florida Strategic Highway Safety Plan: **Target Zero**, Pedestrian and Bicycle Safety Coalition, and improve the region's ranking in **Dangerous by Design** by emphasizing bicycle and pedestrian safety improvement projects

MULTI-MODAL OPTIONS

Improve access to multi-modal options and advance equity, access to all users, and public health

ENVIRONMENT & ENERGY

Protect and preserve the environment and quality of life and promote energy conservation

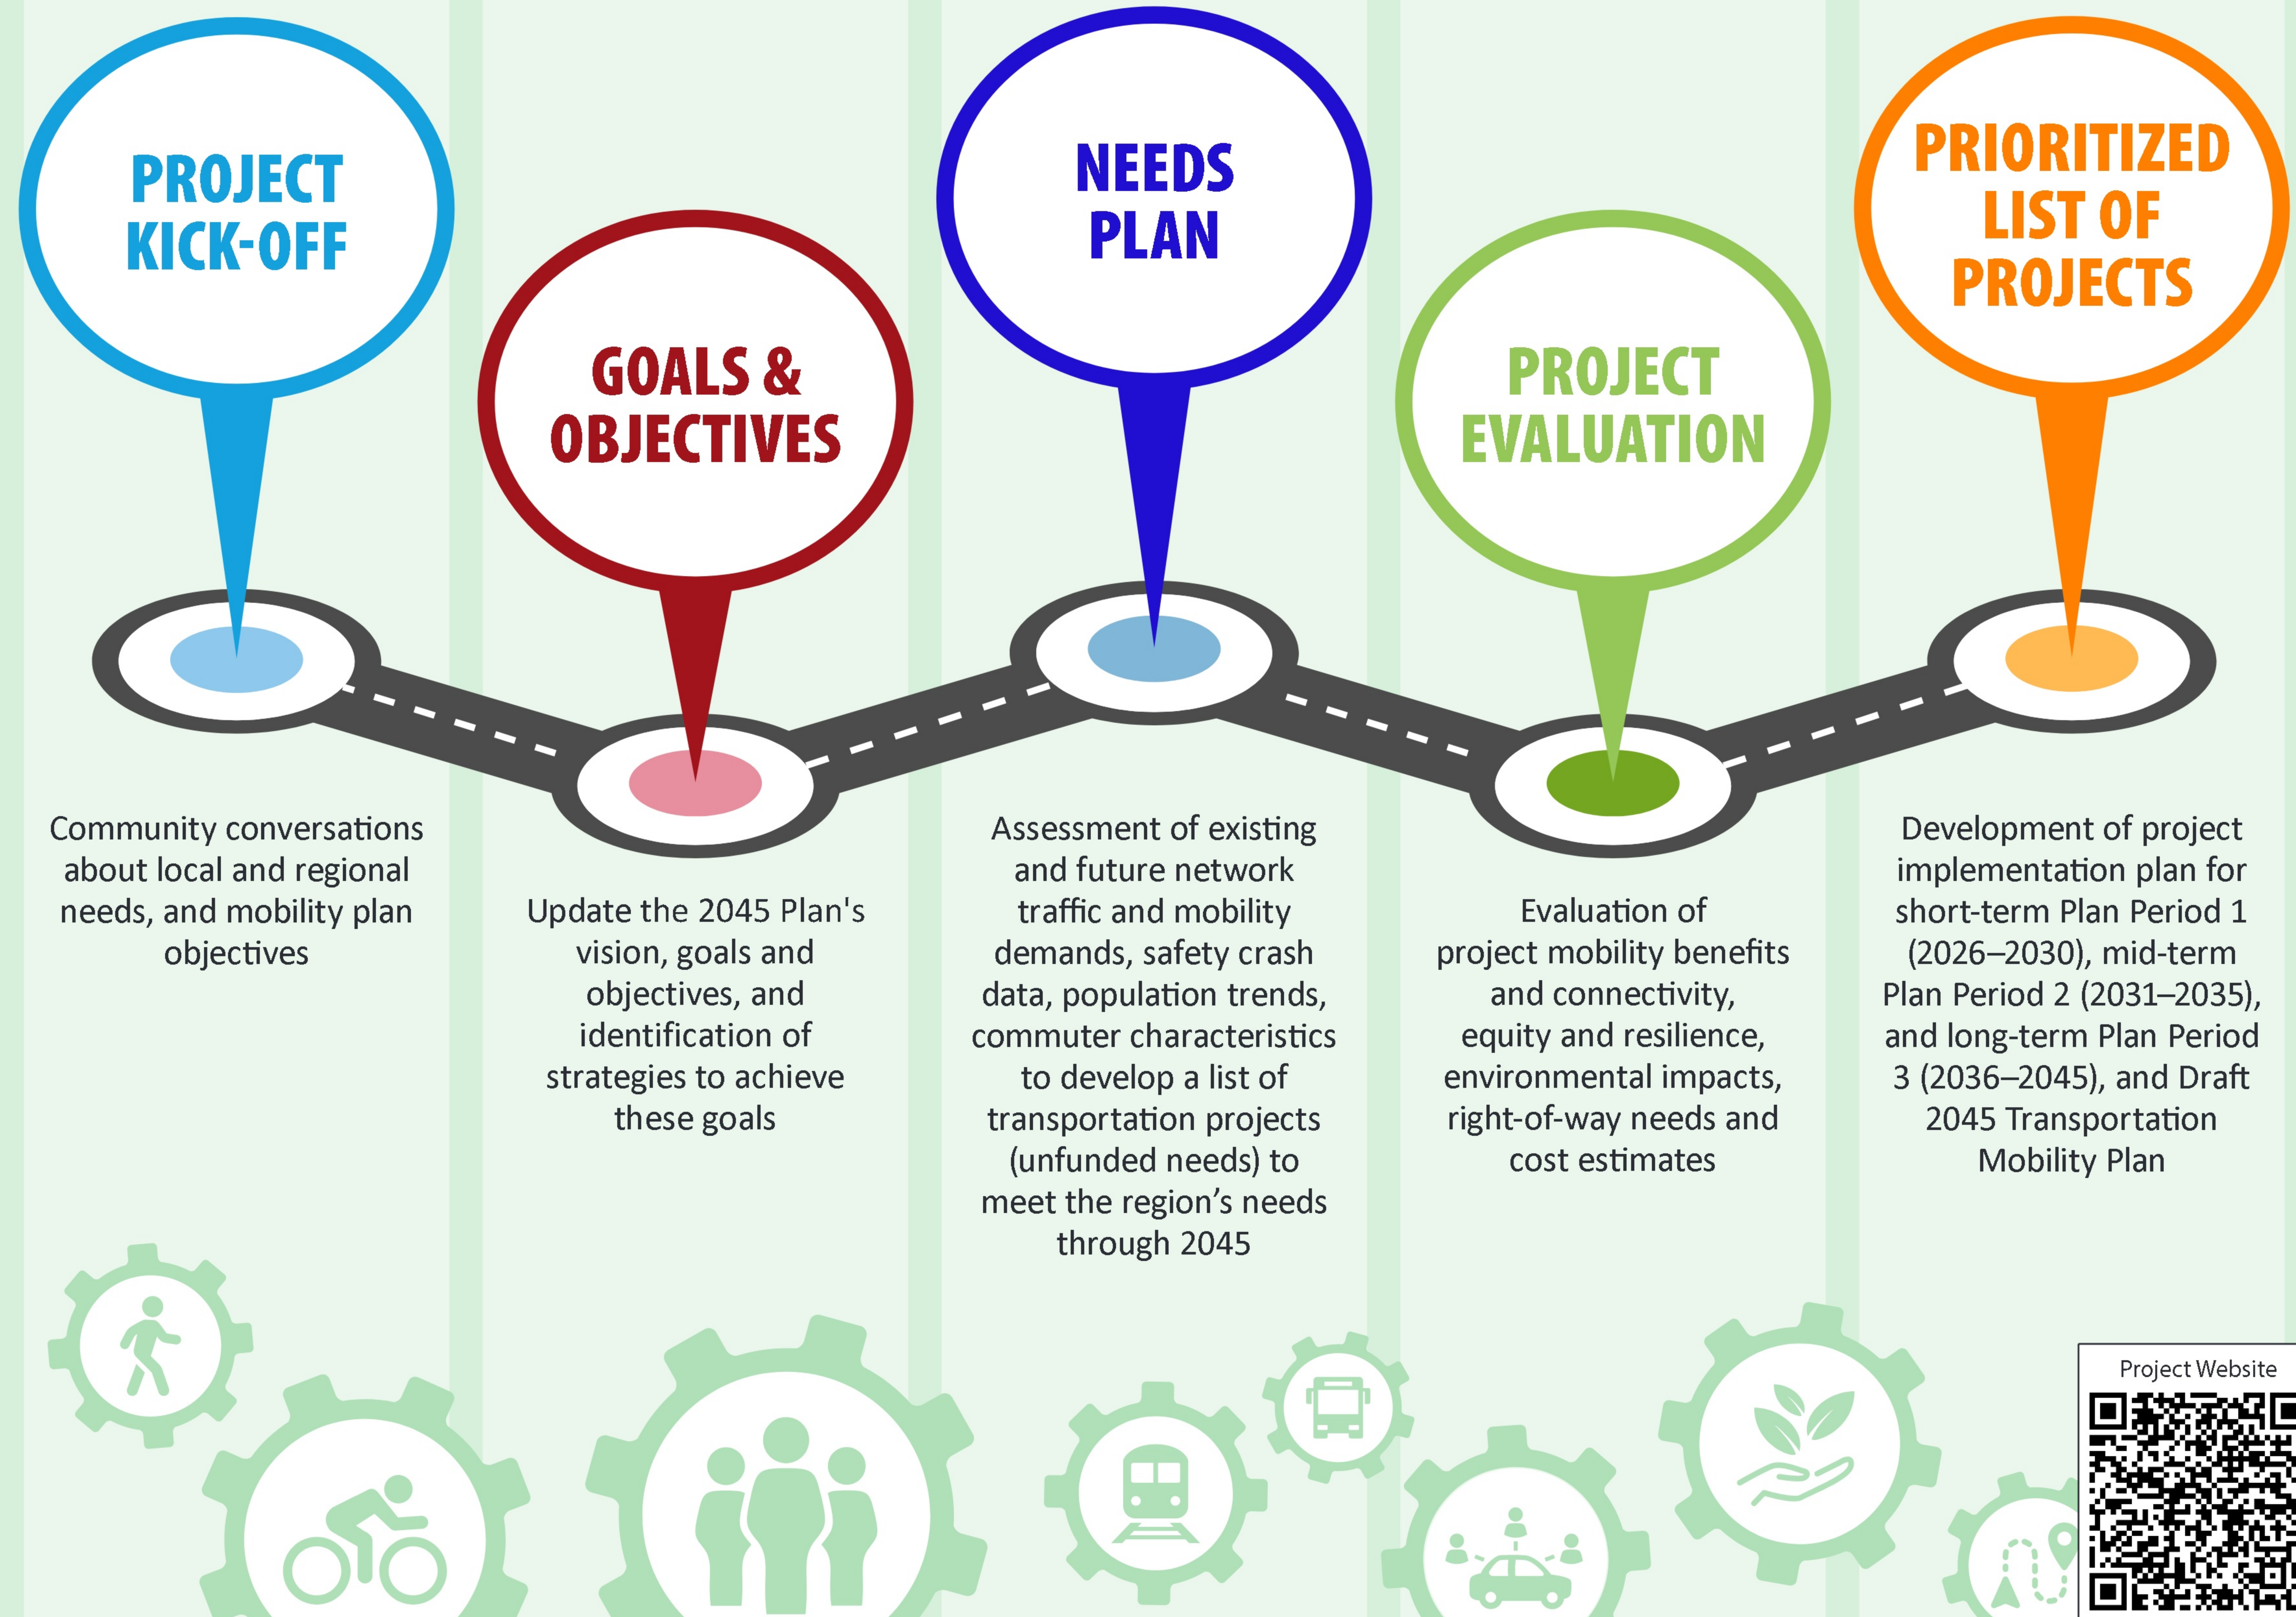

ECONOMIC VITALITY

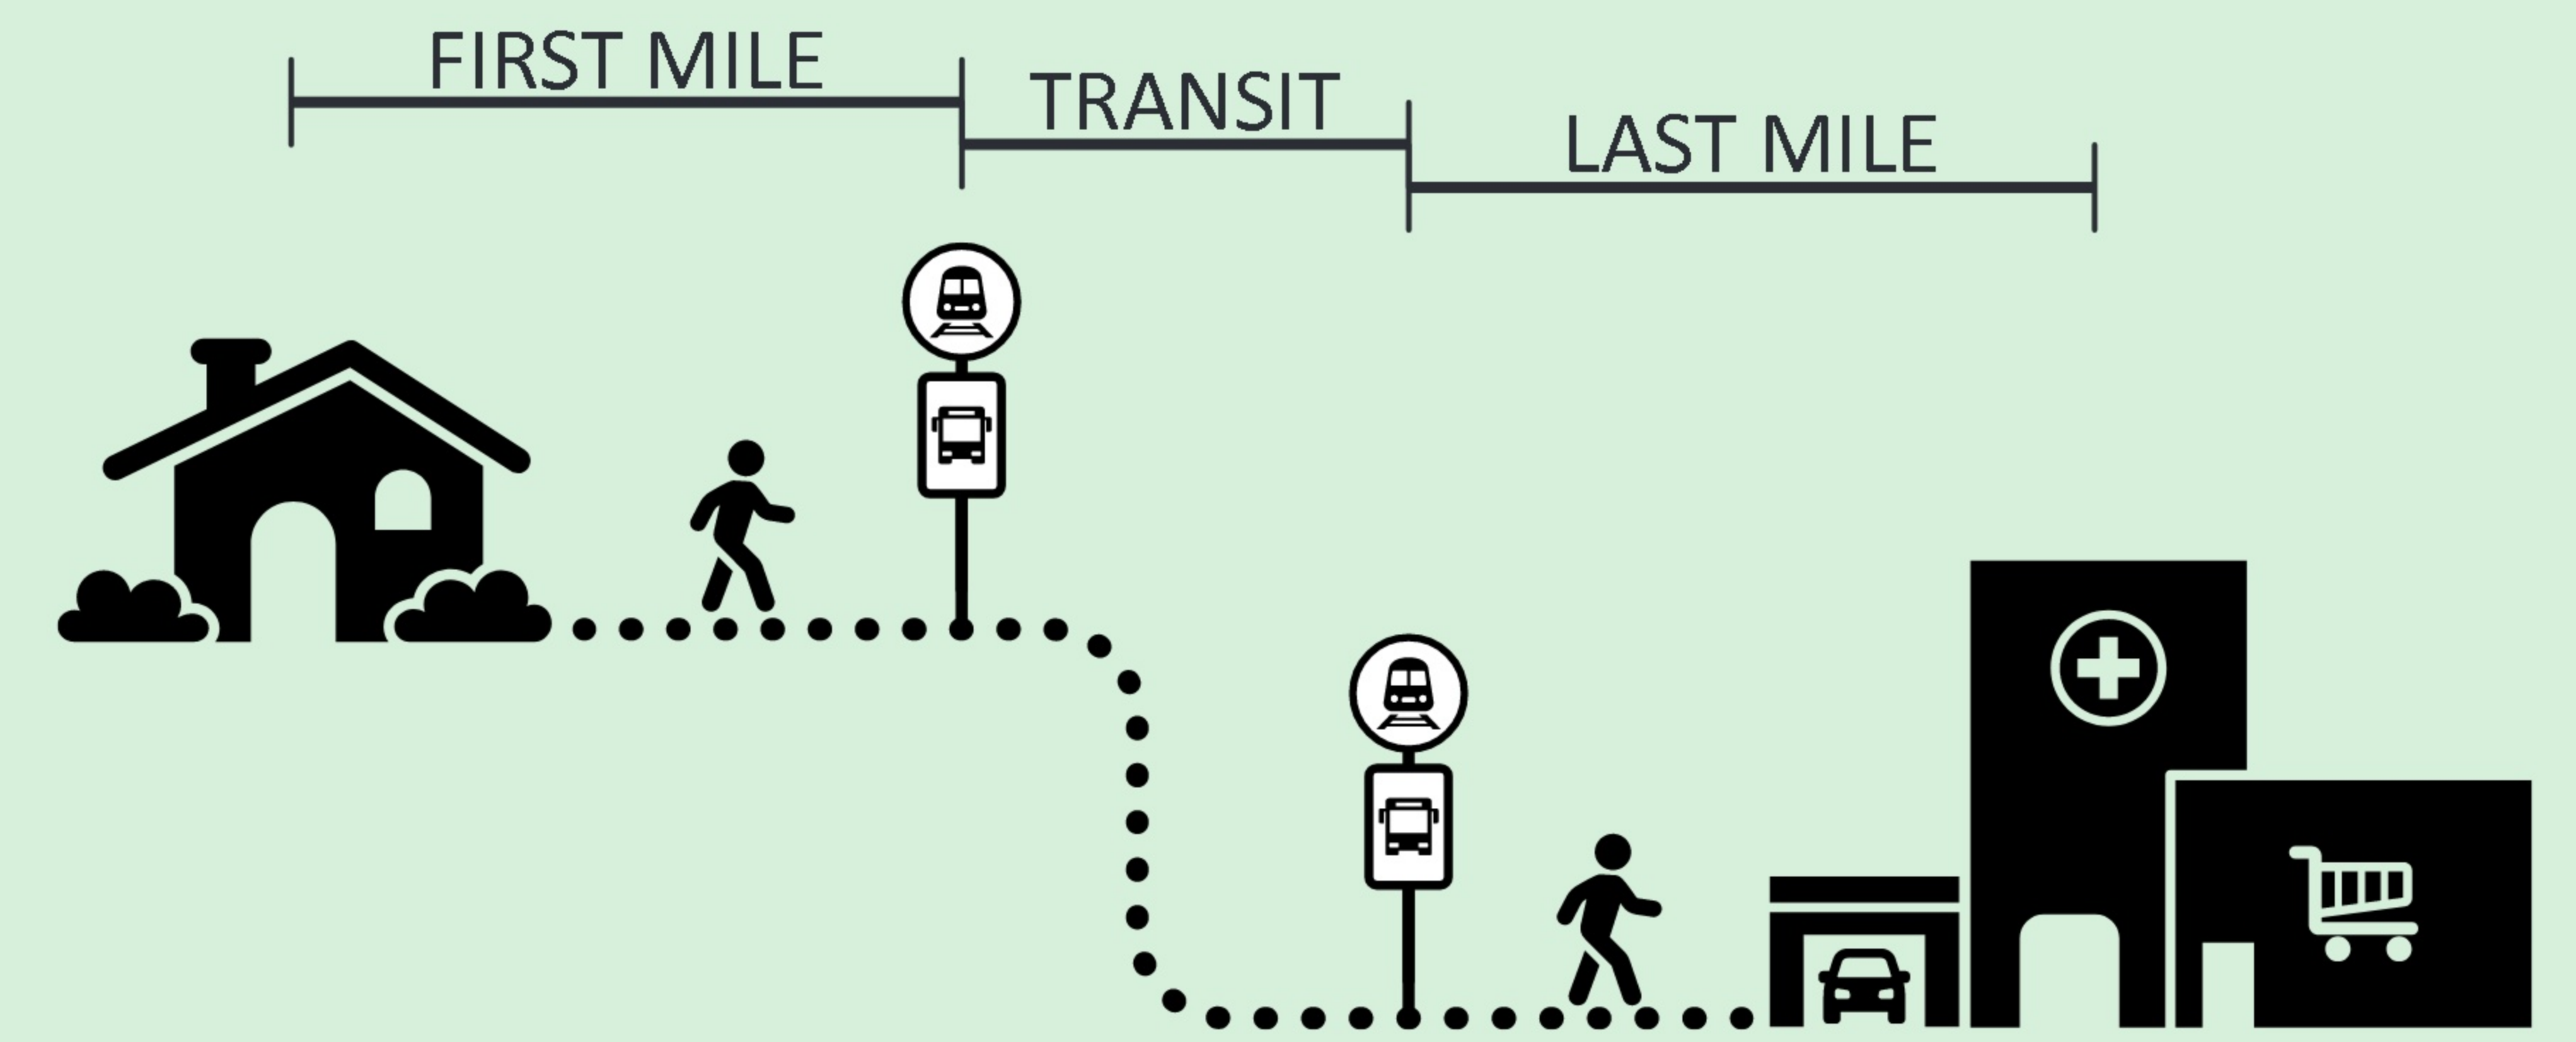

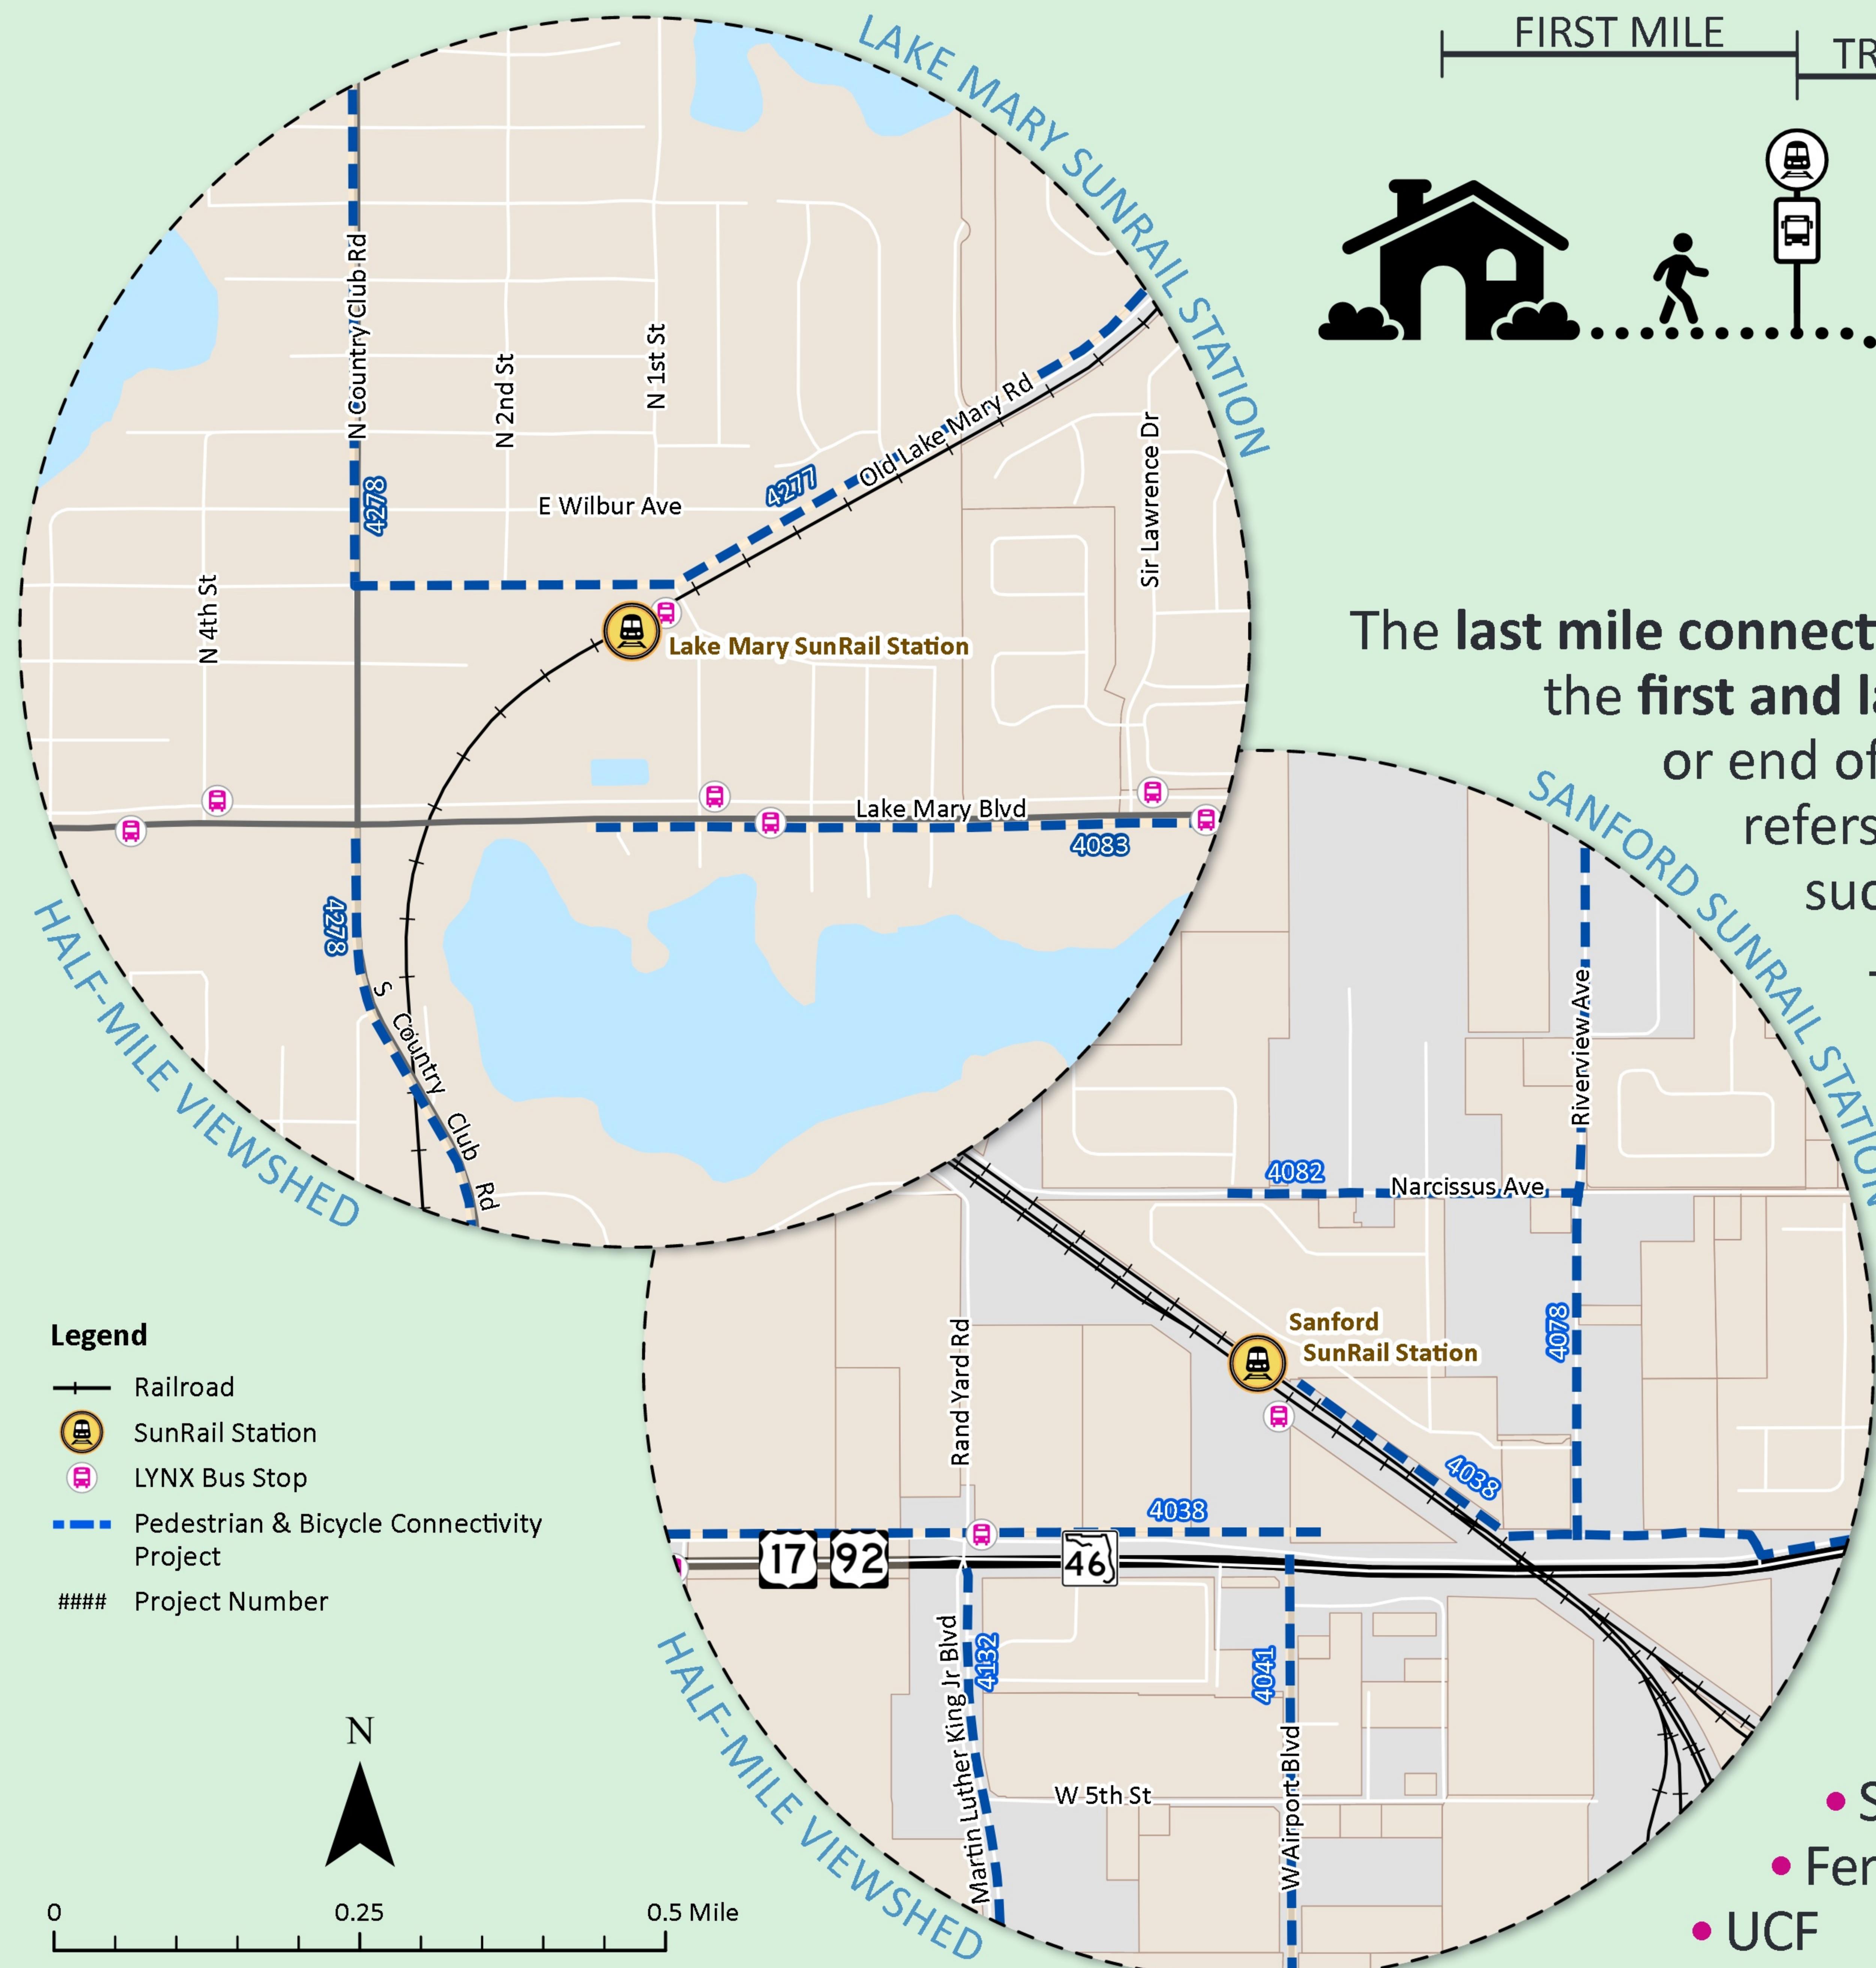

Support economic vitality, regional priorities and the connectivity of the regional system for people and goods

NEEDS DEVELOPMENT PROCESS

LAST MILE CONNECTIVITY

The **last mile connection**, sometimes referred to as the **first and last mile**, describes the beginning or end of an individual trip, and often refers to public transportation trips, such as SunRail or LYNX.

This plan evaluated those last mile connections around the transit hubs in Seminole County.

SunRail Stations

- Sanford
- Lake Mary
- Longwood
- Altamonte Springs

LYNX Superstops

- Sanford
- Fern Park
- UCF
